

How Floridians Live in Summer.

The question is often asked, "How do people manage to live in Florida during the summer?" That they do live, and live comfortably, is evident. Floridians work very hard during the hot summer months, for food costs very little. The lakes and rivers are alive with fish, the ground is full of sweet potatoes, corn that will yield forty bushels to the acre is ripening in the fields, watermelons can be bought for five cents each, tomatoes are given away in many places, fruits are plentiful, Florida beef is cheap and nourishing, and many other things can be had for almost nothing.—Jacksonville (Fla.) Citizen.

A Great Chance to Learn a Trade.

What field of labor shall I enter to gain a livelihood, is a question that soon presents itself in the life of every young man. It can be truthfully said that no direction of modern life offers brighter prospects for success than that of the mechanic. The mechanic who is master of his trade, is a man of steady employment and good wages. Besides, in the possession of a trade, a man has something permanent, and if he adds to his knowledge, honesty and industry, his success in life is virtually assured. Fourteen years ago the New York Trade School was founded for the purpose of providing an opportunity for young men to learn a trade, and to give them, in certain industries, a chance to improve themselves. The instruction is both practical and scientific. Every effort is put forth to advance the pupil in the trade which his attention is directed. Skilled mechanics are employed as teachers and each pupil receives instruction in the practical application of his trade in a systematic manner. At the beginning the pupil is placed on work that is simple, and as he progresses he is gradually advanced to that which is more difficult and interesting. At the same time, lectures bearing on the scientific principles of the trade are given. By this method of instruction a pupil necessarily makes rapid progress, and in a comparatively short time he acquires skill that can only be obtained by long term of service in the shop. The classes are reserved for young men between 17 and 25 years of age, and the course of instruction is larger, the pupils coming from all parts of the United States and Canada. During the session of 1908 the following courses will be in operation: Beginning Oct. 23, 1908—Four months' day course in Printing, tuition fee \$20. Beginning Dec. 9, 1908—Four months' day course in Bricklaying and Plastering, tuition fee \$20. Four months' day course in House and Fresco Painting, tuition fee \$20. Four months' day course in Carpentry, tuition fee \$20. Four months' day course in Pumbing, tuition fee \$20. Four months' day course in Sign Painting, tuition fee \$20. Three months' day course in Steam Fitting, tuition fee \$20. A catalogue of the school will be mailed on request. Address: Trade School, 187 Ave. C, 47th and 48th Sts., New York City.

The German potato crop will probably be a failure, owing to the continued rains.

Dr. Kilmer's Swamp-Root cures all Kidney and Bladder troubles. Pains and Inflammation. Sold by all Druggists.

How's That? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Dr. Kilmer's Catarrh Cure.

WALDO, KINAN & MARVIN, Wholesale Druggists, Toledo, Ohio.

Tobacco Tattered and Torn. Every day we meet the man with shabby clothes, sallow skin and shuffling footsteps, holding out a tobacco-patched hand for the charity quarter.

Do You Know Its Cause? Impure blood. Hood's Sarsaparilla.

Hood's Sarsaparilla. The only true blood purifier prominent in the public eye today.

Hood's Pills. Cures habitual constipation. Price 25 cents.

ASK YOUR DRUGGIST FOR IMPERIAL GRANUM. THE BEST.

FOR Dyspeptic, Delicate, Infirm and AGED PERSONS.

PROFITABLE DAIRY WORK. Can only be accomplished with the very best of tools and appliances.

ROCKLAND COLLEGIATE INSTITUTE. The Cheapest and one of the Best High Schools in the State.

DAVIS & HANKIN BLDG. & MFG. CO. Ctr. Randolph & Dearborn Sts., Chicago.

ROCKLAND COLLEGIATE INSTITUTE. The Cheapest and one of the Best High Schools in the State.

ROCKLAND COLLEGIATE INSTITUTE. The Cheapest and one of the Best High Schools in the State.

FARM AND GARDEN. TRANSLATED WEEDS. Weeds should not be hoed during wet weather.

THIRTY-SIX PER CENT. OVER A NEW SHARE. A dull share drew harder than a sharp one, but not as hard as a badly sharpened share.

CULTIVATING DIAGONALLY. If the planting has been properly done there is often much advantage in cultivating diagonally between hills.

HOW TO WASH GLASS. Never use soap for glass. Wash all glasses and tumblers in hot water and soda, and rinse in cold water.

GOOD LAUNDRY HINTS. In summer time clothes may be washed without any fire by soaking overnight in soft, soapy water.

SAVING STOCK. We use rock salt in large lumps for the horses, writes T. B. Terry. Each horse has a lump before him all the time.

FARM AND GARDEN NOTES. Allow four or five inches space for each plant. Every surplus plant, or cane, takes food and moisture from the soil.

MILKING. Under the head of milking may be comprised the cleanliness of the animals and the manner and time of milking.

RECIPIES. Crostons—Remove crusts from slices of bread one-half inch thick, butter both sides and brown in oven.

RECIPIES. Chopped Pineapple—Chop pineapple fine, cover with sugar, add a little water and let stand over night with a weight on.

RECIPIES. Poamy Sauce—Cream one-half cup of butter, add one cup of pulverized sugar and one teaspoonful of vanilla.

RECIPIES. Potato Soup—Four hot potatoes put through a potato ricer into one quart of hot milk; add a small piece of onion, rub one tablespoonful of flour and one of butter together, add a little salt and pepper and stir into boiling milk.

RECIPIES. Planked Whitefish—Place fish with the skin side down on a hardwood plank, brush over with butter and broil.

RECIPIES. Egg Vermicelli—Cook five eggs for twenty minutes in water kept to the simmering point only.

RECIPIES. Bitter milk comes from bad feed. The rag weed which follows a crop of rye or oat, dog fennel, bitter weed and the like, although but little may be eaten, will often impart a bitter flavor to the milk of cows pastured in such a field.

RECIPIES. A wise outlay is not extravagance. There is no money in following cheap methods with stock.

RECIPIES. One reason for cows shrinking on their milk yield prematurely is that they are not supplied with pure water when natural sources dry up.

RECIPIES. Rice was cultivated in India many years before the historical period.

HOUSEHOLD AFFAIRS.

A VALUABLE HINT. It should be universally known that sand or flour scattered over burning oil will extinguish it.

WHAT TO DO WITH THE ENDS OF MEAT. Chop raw pieces of meat fine, fry in butter and onions.

HOW TO WASH GLASS. Never use soap for glass. Wash all glasses and tumblers in hot water and soda, and rinse in cold water.

GOOD LAUNDRY HINTS. In summer time clothes may be washed without any fire by soaking overnight in soft, soapy water.

SAVING STOCK. We use rock salt in large lumps for the horses, writes T. B. Terry. Each horse has a lump before him all the time.

Highest of all in Leavening Power.—Latest U.S. Gov't Report

A Remarkable Coincidence. A few days ago Sylvester Tryon, a wealthy mill owner in Sacramento, who has been suffering from Bright's disease for years past, complained on Sunday, July 7, of pains around the heart and kidneys.

A Japanese Writes a Letter. A Japanese writes a letter thus: He writes a roll of thin, flimsy paper, a hundred feet long and tightly rolled up, and a package of equally flimsy envelopes, rather long and narrow, and probably having a decorative border.

Both brothers from early boyhood were of the same temper and fast friends. They were never seen apart. Both married at the same ages and each reared a family of three sons, although Horatio Tryon also had a daughter.—San Francisco Chronicle.

There are believed to be over 400,000 watches in use among our people.

It's only a question of time about your using Pearline. So it seems to us. It seems as if every bright woman must see, sooner or later, how much easier and quicker and better and more economical is Pearline's way than any other known way of washing.

Yes, it's ready! OUR NEW CATALOGUE brimming full of illustrations, and showing how the thousand-and-one things really look. You'll like that.

There are Guns, Rifles, Pistols—from all over the world, and some of our own make—Fishing Tackle, Dog Collars and Chains, Tennis Sets, etc., etc.

You can see our LOVELL DIAMOND BICYCLE—The Finest Wheel on Earth,—the Williams Typewriter—you ought to have one. There's lots of other things too.
