

The Apple as a Timber Tree.

In some sections of this country the apple tree is looked on for its product as a piece of timber as well as a fruit-producing article.

THE BEST CURE FOR CONSUMPTION. This is the only medicine that cures consumption.

HOW TO MARKET BEETS. New beets for market should be clean, sound and even sized—large and very small ones should be kept for home use.

SUCKERS ON CORN. The practice of pulling off the suckers from growing corn is much less common than it used to be.

PLANTING APPLE ORCHARDS. An agricultural contemporary finds fault because a large proportion of the apple orchards planted either die out or never yield any profit to their owners.

KEEP THEM RUNNING. An observing farmer, while in conversation with the editor at a recent poultry show, remarked that it was due to the efforts of his ten-year-old son that the egg basket was kept heaping full by his chickens last summer.

WATCH FOR VERMIN. Watch for vermin and rout it at the first approach. See that the fowls and chicks have a constant supply of water these days.

SHARP TEETH. Sharp teeth will cause the horse to form the habit of letting its tongue hang out of its mouth.

DOES THE FLEA BOTHER THE COLTS VERY MUCH? Better keep them in during the day and put them out in the pasture at night.

VACCINATION OF THE CALVES AGAINST 'BLACKLEG'. Vaccination of the calves against 'blackleg' and of the older cattle against anthrax is now advocated in some quarters.

FEED THE LITTLE CHICKS WHAT THEY WILL EAT UP. Do it as often as three, five or even seven times a day.

IF FARMERS WOULD KEEP A BROOD MARE OR TWO AND RAISE A CHOICE COLT EACH YEAR THERE WOULD BE MORE MONEY IN FARMING FOR THEM.

IT IS CLAIMED BY ONE WHO HAS TRIED IT THAT THE APPLICATION OF HOT LINSEED OIL WILL TIGHTEN UP THE LOOSE FLEAS OF A WAGON AND KEEP THEM TIGHT.

EXAMINE THE FEET OF THE HORSES OFTEN. If the shoes are inside the rim of the foot, take that horse to the shop at once or you will have a corn.

THE SHIPPING OF PREGNANT ANIMALS TO THE STOCK YARDS IS NOT PROFITABLE. It is unlawful, and the sooner farmers guard against it, the better for their purses.

WITH THE GOOD PRICE OF BEEF AND HIDES IT WOULD SEEM GOOD POLICY FOR THE FARMER TO BUY HIS HARNESS SOON BEFORE THE INEVITABLE HIGH PRICE OF LEATHER ARRIVES.

L. R. JONES, OF THE VERMONT STATION, ADVISES THE HOT WATER METHOD OF REMOVING OUT AND NOT ONLY FOR THE IMMEDIATE BENEFIT, BUT FOR THE RADICAL CURE OF THE HORSE.

GIVE THE WORK HORSES A RUN IN THE PASTURE AT NIGHT. It will do them a great deal of good, but you must feed them just the same.

BROOD SOWS PROPERLY MANAGED DETERMINE THE PROFIT IN THE HERD OF SWINE. One-third should be over thirty months of age, one-third over twenty months, and the remainder over ten months of age to insure fair success.

WISDOM WORDS.

Art is an acquired habit. Mirth is a great sweetener. There is only one of each of us.

A child's 'why?' is a parent's bugaboo. Turn 'the tragic' hungry from your gate. It is better to be born lucky than tired.

Don't give to man, woman or child who whines. A woman's kingdom is anarchy if there be no man in it.

An ounce of prevention and a pound of anticipatory anxiety. It is a very mean nature that won't borrow once in a while.

Well regulated love is six of one and half a dozen of the other. In the home the power behind the throne is the eldest daughter.

Matrimony is a hard teacher, but some people will learn under no other. A fool and his money are soon parted, for the general good of mankind.

A man's goodness must be in his heart, not in his head, if he wants to be well balanced. Time and tide wait for no man, but if they did some men would get there late just the same.

Some young people who marry in haste have to hustle so for a living that they have no leisure in which to repent. The man with a million dollars thinks more of feeding one man a million times than he does of feeding a million men one time.

Played a Trick on Vanderbilt. Brice's greatest play was building the Nickel Plate. He put in every dollar he could get, and from any source.

Oh, no, he won't, said Vanderbilt. Brice then went to Gould. He knew that he didn't want the Nickel Plate, but he had a beautiful scheme to propose.

Here is a rule that every man and woman should carefully read and study. Never under any circumstances take opium or any other toxic drug unless prescribed by an intelligent physician, says William Rosser Cobles.

There are mothers present, and I wish to utter to them a special note of warning. The habit of smoking leads to the little ones, and they are too prone to resort to medicine for their benefit.

The greatest care is taken by the Chinese of the pieces of ginseng of the finest quality. M. Hae says that throughout China no chemist's shop is unprovided with more or less of it.

When the price of beef and hides it would seem good policy for the farmer to buy his harness soon before the inevitable high price of leather arrives.

L. R. Jones, of the Vermont Station, advises the hot water method of removing out and not only for the immediate benefit, but for the radical cure of the horse.

Give the work horses a run in the pasture at night. It will do them a great deal of good, but you must feed them just the same.

Brood sows properly managed determine the profit in the herd of swine. One-third should be over thirty months of age, one-third over twenty months, and the remainder over ten months of age to insure fair success.

Chancellor Snow, of the Kansas State University, is sending out infected chicken legs to such farmers as ask for them, hoping in this way to suppress the chicken bubles which so seriously threaten the wheat crop in Eastern Kansas.

Clean the feet out thoroughly with a foot-cure every day when the horses come in from work. Then when the horse is cool put the feet in a pail of water and wash them.

The best time to cut any grass for fodder is when the seed is about to form. Cutting should never be deferred until the seeds are dry.

TEMPERANCE.

A suffering mortal, a victim of rum. Was brought by his friends to the bed. No surfeit of happiness entered his home, His little one pleaded for bread.

THE TEARDROP IN THE GLASS. A suffering mortal, a victim of rum. Was brought by his friends to the bed.

HE STARTED AS IF BY A SCORPION STING. And gazed on her sorrowful face, Now agoing with anguish, but yesterday young.

ON THE FORM ONE OF PICTURE OF GRACE. He cried in his agony, 'Darling, for years I was lost in the terrible past.

THE LITTLE ONES PLAY ON A CARPETED FLOOR. The mother is youthful again, Prosperity reigns in the home as of yore, United is love a broken chain.

THE WHEEL NEVER GOES ANY OTHER GOOD THING IN HIS HISTORY, AND IF OTHER BENEFIT COMES FROM HIS USE, IT WOULD FOR ONE SPECIAL REASON DESERVE THE COMMENDATION AND ENDORSEMENT OF EVERY THINKING PERSON IN CREATION.

WHEN HE GOT OUT AGAIN HE CAME OVER TO SEE ME, AND HE BECAME AN EXPERT WHEELMAN. It was not a little gratifying to me to have him say that.

PRESIDENT OF TWO BANKS.

F. G. WEITING, PRESIDENT OF THE BANK OF WORCESTER, N. Y., AND OF TOLEDO, I.A., TELLS HOW HE SUFFERED.

Thought at Times He Would Have to Give Up the Fight, but Persistence and Science Conquered His Troubles.

From the Republics, Cooperstown, N. Y. The people of the present are traveling a pace that would surprise the good old wives and knickerbocker grandfathers of a hundred years ago.

Medical science, however, has been keeping abreast with the times, and from the very demands made upon it there have sprung new departures and discoveries.

A reporter recently met Mr. Philip J. Weiting, who is President of the Bank of Worcester, and of the Toledo City Bank, of Toledo, Ia., in the handsome little town of Worcester among the hills of Otsego County, N. Y., and conversation drifted to the present topic.

Mr. Weiting had been a sufferer from locomotor ataxia for twenty-five years, something which none but those who have themselves been afflicted by the disease can appreciate.

When the deputy led the hospital he and the clock had locked arms and were hanging to each other desperately. The deputy smoked and read all the way to Ukiah, while the insane men took care of each other.
