—The boys have caught on at last, after browsing around for several nights, and on Monday night captured four coon out on the hill. —State Sup't Schaffer has appointed Friday, Oct. 18, as autumn Arbor day. In referring to the origin of this custom he says that in response to the first Arbor day proclamation in 1885, 50,000 trees were planted by teachers and pupils in Pennsylvania, and the annual recurrence of the event had led to the planting of thousands of additional trees to the better adornment of the grounds around the school and the home.

—The new township building at Newtown Mills in Kingsley twp., is nearing completion. There having been some controversy as to its size, it has leaked out that one of the road commissioners has whispered it around that they intend to have it large enough to support a nice winter track on which some of the owners of "flyers" can have a trial of speed occasionally. At any rate the new building will be a commodious and convenient one for the transaction twp. business.

—Goods will be arriving in a few days at Lanson's. The New York markets must give up some of their finest articles for he is there at present to get the best. Prices will be all cut to pieces.

—Latest hats and caps at Miles & Armstrong's. See them. tf.

—The Warren Mail notes the fact that Dr. John Corwen, Superintendent of Warren State Hospital, celebrated his 74th birthday last Friday by working all day. Few people realize the heavy responsibility placed upon this genial gentleman who has charge of nearly 1,200 people, including over 900 patients, whose duties require close, regular and constant attention. The REPUBLICAN extends congratulations to Dr. Corwen, and hopes that he may live to enjoy many more birthdays.

—John Shoup, of the extensive lumbering firm of John Shoup & Co., Pittsburg, Pa., died at his home in Allegheny City, Pa., Sept. 27, 1895, after an illness extending over several months. Mr. Shoup is well and favorably known to many of our readers, he having been one of the pioneer lumbermen of this section. During a long and successful business career he was widely known as a man of strictest integrity, thoroughly honest in all his transactions, and benevolent almost to a fault. He was in the 69th year of his age at time of his death.

—Some of our horsemen were having a little trial of speed at Rialto park last Saturday afternoon. Livyerman Canfield and Perry Hill tried conclusions in a trot, the former winning two heats out of three. A running race between Canfield's flyer and a Warren nag resulted in a winner for the visitor. The latter race was more in the nature of a circus performance, the Warren horse making a plunge into the swamp near the track, throwing the rider about ten feet, and standing on his head for nearly half a minute, it seemed; while the other horse bolted, flopped the rider off, and slammed up against the fence like a scared bat. No damage done.

Ex-Union Soldiers' Association.

At a regular meeting of Eli Berlin Post, No. 629, of East Hickory, Sept. 27th, a resolution was presented by J. Albaugh favoring the organization of ex-union soldiers of our county into an association for fraternal purposes, which resolution was adopted unanimously.

After a short discussion as to the proper course to pursue in the matter the commander was instructed to appoint a committee of three comrades to act in conjunction with a like committee of Posts 274 and 601 to formulate a plan for the organization of said Association.

Agreeable to said instruction Commander Withel appointed the following comrades as the committee: J. Albaugh, J. H. Berlin and S. C. Whitmore.

The Adjutant was instructed to publish the action of Post 629, in the three papers of our county for the consideration of our comrades of the Posts of our County, and to whom we submit the above for action in F. C. & L. W. E. WITHERELL, Com. J. ALBAUGH, Adj. Eli Berlin Post No. 629, Dept of Pa. G. A. R.

Foxburg, Howe Township.

The first sharp frosts have fallen at Foxburg, "leaving all the woodlands gay, with the hues of summer's rainbow, or the meadow flowers of May," and forming one of Nature's vast mosaics to all nature loving people.

Gold Bros. have struck gas in their new well, with a good show of oil, and have tapped the sand.

Hon. J. B. Agnew passed through Foxburg on his way home last week from a visit to the oil field of this neighborhood.

Mrs. Harry Fulton and baby Narcissa are visiting Mrs. Leonard Crain, at Pigeon.

Miss Emma Gilson spent Sabbath at Clarendon.

Mrs. Culbertson and Mrs. Mayo were at Sheffield on Friday.

Dr. Gass of Sheffield is a daily visitor at Lynchburg. Quite an amount of sickness is reported there.

Teachers, Parents and Pupils.

A recent article in the Altoona Tribune contains some good suggestions to all of the persons included in the above caption. It says:

Parents owe important duties to the public schools. One of the most important is to see that the children are sent to school as early in the term as possible and regularly. There is nothing which so militates against the child's success as irregular attendance. Even one day a week counts up considerably during the term and the child feels it sensibly. It is cruelly unjust to send a child only about half the time and then criticize the teacher because so little progress is made. The wonder is that there is any advance at all.

Another important duty is for the parent to stand by the teacher, if possible, in every controversy between teacher and pupil. Be altogether sure before taking sides. There may be times when the parent believes gross injustice has been done his child, but however indignant he may be, or whatever he may say to the teacher in private conversation concerning the matter, a due regard for the welfare of the child requires implicit obedience to all the commands of the teacher be insisted upon from him. Many a boy has been ruined by the injudicious partisanship of his father or mother.

NEWSY NOTES.

Prof. Louis Pasteur, the eminent scientist and physician of France, died on Saturday last.

On Tuesday of last week the famous engine No. 909, on the N. Y. Central road, made a run of 148 miles in 132 minutes between Albany and Syracuse, pulling three coaches.

In dealing with the five hoboes convicted at Erie of murderous assault and robbery, a few days ago, Judge Criswell gave four of them 8 years each in the pen., and the fifth got seven years. He explained that he made this distinction because the odd one had no revolver on his person when arrested.

The law in regard to keeping telephone messages secret went into effect Sept. 1. Telephone and telegraph operators are subject to a fine of \$1,000 or six months in jail for divulging the business of their lines and persons who wrongfully obtain possession of private matters from this source are subjected to a similar penalty.

Missouri stands highest in corn condition, the Agricultural Department's figures for that state being 111. Illinois is 97, Iowa's 96, Kansas' 86, and Nebraska's 86. The average for the whole country is 96.4, as compared with 83.4 a year ago. The yield now is estimated at about 2,300,000,000 bushels, which is about 100,000,000 above the largest previous crop.

A puerile, grasping business man's name is seldom seen in his home newspapers, says an exchange. He never advertises, jogs along in the old ruts, waits till the season is over before buying goods, and then asks two prices for what he sells. People admire live business men, they freely patronize them because they are always up-to-date, liberal ad-vertisers; they are open-hearted, sell cheaper and have a big place in the hearts of all. Isn't it true?

Dr. Forbes Winslow, the distinguished English physician, denounces the riding of bicycles by women and says the practice is injurious and injurious in its effect. It is not a matter to be wondered at that the dogmatic assertion has stirred up indignation among the fair devotees of the wheel. A host of good women ride bicycles. The cool assumption that they are engaged in an injurious and immoral exercise is ground for indignant protest and resentment.—Franklin News.

The charter which has been granted to the Oil City Station Railroad Company (John B. Smithman, president), contemplates the building of an electric line between Oil City and Franklin via Deep Hollow route. The present understanding is that this enterprise will be met about half way on the route by a line from this city, constructed by Franklin parties interested in electric railroad matters. A well equipped line between the two cities would be a popular and well patronized improvement.—Franklin News.

A Newark lawyer has hit upon a novel and effective method of dealing with a blackmailman. A fine-looking and somewhat notorious woman called at his office and demanded \$500. On his positive refusal to give her a cent the woman threatened to call at his house and demand the sum of his wife. As the lawyer knew the character of the woman, he communicated with his people at home by his private telephone, and instructed his two strapping, able-bodied German servant girls to show the visitor into the reception room when she called and then

set upon her together and give her a sound beating. The girls, liking the fun, did as they were requested, and without saying anything to the wife of their employer carried out his suggestion so well that the blackmail man fled from the house with two black eyes and a broken nose. She left behind a quantity of hair and two front teeth.

Tony Shultz and Billy Mason, of near Turkey City, two characters not of the most enviable reputation, last spring held up and robbed an old gentleman by the name of Harvey George of near Blair's Corners, of a gold watch and \$60.

On last Monday a week a Pinkerton detective arrested Shultz in Pittsburg on a bench warrant that had been issued at the August term of Court, bringing him to town and handing him over to Sheriff Steitler. When arrested Shultz acknowledged having taken a part in this large robbery. Mason is still at this place—Clarion Democrat.
