

**THE FOREST REPUBLICAN.**  
 J. E. WENK, Editor & Proprietor.  
 WEDNESDAY, OCTOBER 16, 1895  
**REPUBLICAN TICKET.**  
 STATE.  
 State Treasurer,  
 BENJ. J. HAYWOOD, Mercer.  
 Judges of the Superior Court,  
 CHARLES E. RICE, Luzerne.  
 JAMES A. BEAVER, Centre.  
 E. N. WILLARD, Lackawanna.  
 GEORGE B. ORLADY, Huntington.  
 HOWARD J. REEDER, Northampton.  
 JOHN J. WICKHAM, Beaver.  
 COUNTY.  
 Treasurer,  
 JAMES H. FONES.  
 Associate Judge,  
 JACK McCRAE.

GENERAL FORAKER comes very near striking the keynote of the campaign for 1896 in a single sentence, when he says: "The great, paramount issue upon which the battles of both this year and next year will be fought, will be Cleveland's Administration, Hawaii, the 'bill of perfidy and dishonor,' sugar crookedness, selling out the Treasury to English goldbugs, the destruction of reciprocity and a score of like counts that go to make up the record of incompetency and failure on the part of the present Administration."

DURING the last three years of the administration of President Harrison the revenues of the Government exceeded the expenditures by more than ninety-eight millions of dollars. During the first three years of President Cleveland's administration the revenues failed by more than \$120,000,000 to meet the expenditures of the Government. While the National debt was decreased during the last three years of President Harrison's administration by \$244,000,000, it was increased during the first three years of President Cleveland's administration by \$106,000,000.—*Punzy Spirit.*  
 Doubtless the friends of the Cleveland regime will claim this as an improvement over his first administration in that it did not remain at a complete standstill.

The action of Indian Commissioner Browning in putting a stop to the proposed prize fight in the Indian Territory is highly commendable. Tempted by an offer of \$5,000 the Chickasaw Nation has, according to report, agreed to allow Corbett and Fitzsimmons to fight in the Chickasaw territory. Commissioner Browning, who has ample authority in the matter, has instructed his agents to inform the Indians that nothing of the kind will be permitted in the Indian territory, and that United States troops will be used, if necessary, to prevent the fight. The commissioner evidently has the authority of the President for making that statement. The prize fighters have sense enough not to get themselves in the United States Courts, from which there is no escape except outside of the territory of this country. This brutal "mill" is not likely to take place in this country.

Ask any acquaintance you meet how the stars are grouped at present on the United States flag and in nine cases out of ten, says the *St. Louis Sayings*, the question cannot be answered. About the middle of September the War Department issued an order defining the official flag to be used for the future in the regular army, and every patriotic manufacturer of flags who is up to date on his productions will follow suit. The new flag has six rows of stars. In the first, fourth and sixth rows there are eight stars and in the other three seven. The forty-five stars present each of the several states, including Utah, which will be admitted into the Union, in accordance with the United States revised statutes, on July 4 next. The dimensions of the flag and the rule of proportion which must be followed in the manufacture of flags of all sizes are as follows: Length (not including silk fringe) 2 1/2 inches wide around the edges; 5 feet 6 inches; width, 4 feet 4 inches; width of stripes, 4 inches; length of blue field, 2 feet six inches; width of blue field, 3 feet 4 inches.

That Alleged Surplus.  
 That alleged \$5,175,000 Treasury surplus for September disappeared and about \$650,000 more in the first five days of October. In other words, the first five days this month, without any special payments for interest, pensions, and so on, showed a deficiency of \$3,825,000. This demonstrates again the shameful juggling of treasury figures to make out an alleged surplus.  
 If the \$5,000,000 appropriated for the sugar bounties had been paid, as it will have to be in time, and if the work on public buildings and other improvements had not been stopped almost altogether and the laws of Congress nullified, the deficiency up-

der the new tariff would be at least \$75,000,000 by this time. Right here in Philadelphia practically nothing has been done toward erecting a new Mint building, which was authorized by Congress before Mr. Cleveland was inaugurated. Even the drawings for the building have not been made, and the money appropriated for that purpose is still in the Treasury. The post office building in Washington authorized five years ago has not yet got a roof on it. The Government is paying nearly \$200,000 a year in rentals for its local post office and other buildings in Washington, a considerable part of which sum can be saved when the new post office building is finished. The long, inexcusable delay is a costly one. But it helps make a better showing temporarily for the Treasury, and thus the farce of alleged economy is kept up. The new Mint would save money to the Government. The new public building in New York has also been delayed at a similar cost.

This is what is going on all over the country. In some cases, as official reports to the War Department show, public works have suffered costly deterioration because work on them has practically stopped. This may help to make a better campaign showing for the new tariff, but it is a false and costly showing. It is better, perhaps, than selling bonds and paying excessive interest and premiums, but to that method the Administration has also resorted.

The people of this country are not fooled by this penny wise and pound foolish policy. They know that public works cannot be stopped and appropriations held up without injury to the country. There must be revenue enough not only to pay the bare necessities of the Government, but to meet expenditures for improvements. The existing tariff does not even meet ordinary expenditures. The country must have revenue enough to pay all expenses, and, moreover, to retire Mr. Cleveland's bonds and stop the large annual interest charge which the Democratic party has created. That revenue can only be raised by changing the present tariff.—*Phila. Press.*

**Serious Drought.**  
 For two months a severely felt drought has reigned west of the Allegheny mountains. The drought extends over Western Pennsylvania, West Virginia, almost the entire State of Ohio and in parts of Indiana. In all, except the last named State, there has been a remarkable deficiency in rainfall, according to the figure of the Pittsburgh weather station. Local Forecaster O. D. Stewart says that up to date the deficiency in rainfall since the beginning of the year has been 9.08 inches. Since April 20, there has been no coal stage in the Monongahela river. Not a bushel has passed south since that month and 8,000 miners in the river pits have been idle almost the entire period. All the boats and barges are loaded and 20,000,000 bushels of coal have been waiting three months on high water on which to go south. At many points railroads are being forced to haul water for their engines. The Ohio river is so low at East Liverpool that the influent pipes are bare and the supply is scarcely sufficient to supply domestic requirements in the town, some of whose manufacturing establishments are idle this week. Nine-tenths of the small towns have been strictly limited of the consumption of water by police regulations. A large number of towns have cut off shops and mills, forcing them to resort to artesian wells. In Lawrence, Mercer and adjoining counties farmers are selling their stock because of the difficulty in keeping the cattle watered. In all of the oil fields surrounding Pittsburgh, the work of drilling new wells has been greatly interfered with for a month past on account of the scarcity of water. So great has this become in some sections as to cause a practically complete suspension of operation.

—Don't buy imitation "seal goat" shoes, but go to Miles & Armstrong and buy the "Hostettler seal goat" shoe. None genuine without the ticket with Hostettler's name on it. We are sole agents for them, and have them in all styles for men, women and children.

**NOTICE TO NAVIGATORS.**  
 The Allegheny Valley Railway Company will rebuild the three spans of their bridge crossing the Allegheny river at Oil City, commencing the erection of the trestle work of the south span about the latter part of August, placing trestle work under the middle and north spans at periods of about two weeks apart. Falsework will be in all three spans about October 15th, but in about two weeks thereafter the south span of the bridge will be again reopened for navigation.  
 The customary red lights will be placed on the up-stream side at each pier.
