In the closing month of 1813 a British force of about 1200 men, with 200 Indians in addition, marched upon the town of Buffalo, N. Y, and captured it after fifty of its American defenders were killed. The settlement was then burned, with the exception of one residence and a blacksmith shop. Buffalo is now a city of over 300,000 inhabitants, while the towns on the Canadian side of the river have grown but little. The villiage that was wiped out eightytwo years ago could furnish a large army if an emergency required it.

JOHN ADAMS was eight years older thun his successor, Thomas Jefferson; he eight years older than James Madison; he eight years older than James Monroe, and he eight years older than John Q. Adams. George Washington ended his term as president in his sixty-lifth year, and so, too, did John Adams, Thomas Jefferson, James Madison and James Monroe. Thomas Jefferson and John Adams both died on the same day, July 4, 1826, exactly fifty years after the signing of the declaration of independence. One other president, James Monroe, died on July 4. His death occurred in 1831. Every president, it is said, with the single exception of William H Harrison, has had blue eyes .- St Louis Republic
