#### Penell Boxes.

Long Days on the Ranch.

The pencil boxes now so commonly carried by school children are made in about 125 different styles. They retail at from five to twenty-five cents each. Formerly all the pencil boxes sold in this country were imported from Germany, but for the last few years we have been making pencil boxes in America. About one-third of the boxes sold here are of home manufacture and of superior quality, The production is steadily increasing. All the locks used are imported from Germany. There is a box made here with a catch instead of a lock, an American idea, which is made here entire. The cheaper German boxes are made by hand at the homes of the makers; the better ones are made in

chinery in factories located in lumber-growing regions, in proximity to the wood supplied.

Big Cast Steel Couplers,

The automatic couplers of unusual Rize wore cast in steel recently by a Chicago concern. They were for a private car on the Chicago, Rock Island and Pacific Railroad, which was to be used for a long trip, and two couplers were needed that could be used with the Miller hook draft rigging on it. They were made of erncible steel, and are sixty-eight inches long from the inner face of the knuckle to the end of tailpiece.

The couplers were perfectly satisfactory and needed no straightening. The weight of each coupler is 574 pounds. - Philadelphia Record.

#### Stocked With Mongolian Pheasants,

Santa Clara County, California, is being stocked with various species of pheasants by the County Game Commission. Six pairs of English pheasants and fifty pairs of Mongolian pheasants were turned loose in different parts of the county recently, and twenty-five pairs of golden pheasants and ten pairs of silver pheasants will be procured and turned loose very soon. The birds will be protected for several years, and are expected to, in time, furnish excellent sport for the hunters.

#### A Monrulul Whistle,

"Did you notice that peculiar whistle?" asked the section foreman who was returning to his home in Wilmington

There did not appear to be anything unusual about it to the ear of the Star man, and be asked in what way it differed from other signals.

"Well, it was made in an open part of the road, not near a town or crossing, and was sort of mournful. There is a story that goes with that whistle. Jim Watson, the engineer of this train, ever since the night his engine crushed out a life at that spot has made that signal when he goes by there. It was on a foggy night, as I have heard Jim say, and the headlight only showed a big white bank of mist which he couldn't see through.

"He had an uneasy feeling like men have sometimes when something disastrous is going to happen, and that made him unusually alert. It was on a part of the road where the trains are scheduled up to a high rate of speed, pace. The feeling that there was something wrong could not be shaken off, and he cursed the fog that shut out the track ahead.

"Suddenly a figure shot into the light. Jim saw for an instant her eyes full of terror and then the train swept on with horrible persistence. "Jim slowed up and went back. He

I've been gaining right along by my rest and treatment. Last fall I went to a doctor who was recommended to me as a good one and with quite a reputation. He gave me medicines of all kinds for nearly six weeks, and I got no benefit that I could see. In fact, I don't believe he knows what is the matter with me. A friend of mine called one evening and told me he had been using Ripans Tabules for a short time and had never found anything that helped his stomach and liver troubles as much as they did, He handed me a circular about them, which I read, and concluded that they were just what I needed and would fit my case exactly. I dropped Dr. ---- at once, went over to the drug store and got a 50-cent box of them, out of which I took two a day for awhile, and within three days noticed and felt much improvement. That was about the middle of December. Last February I got another small box of the Tabules and took part of them only, as I was feeling so much better that I didn't think I needed any more. The rest of the box I gave to John C ----the other day. If I had heard of
