"Deerfoot," the famous Indian long-distance runner, died on the Catawagus reservation a few days ago. His proper name was Louis Bennett, and he was born on the reservation in 1828. In 1861 he went to England, where he defeated the champion English runners, after beating every competitor in this country. His greatest record was made in London, where he ran ten miles in fifty-seven minutes.

The editor of the Warren Democrat evidently has a good eye. He says: "Mrs. Fannie Irvine, of East Warren, called at the Democrat office to-day and left a poem on 'Arbitration' and a piece of English plum pudding. The former will appear to-morrow; the latter disappeared to-day." Poets of high and low degree should remember this, and when they send their contributions to the newspapers always accompany them with a "chaser," in the shape of plum pudding, pie or cake. It tends to improve the quality of the press, in the eyes of the editor man.—Blissard.

—Watch for Miles & Armstrong's new ad, next week. They have something to tell you. Don't miss it.

—Georgina, the six-year-old daughter of Mr. and Mrs. G. F. Watson, of Golzins, who has been at the point of death from diphtheria, is getting better. Dr. Bowman, who has been attending the little sufferer, administered the antitoxin treatment on Sunday last, since which there has been a marked improvement in the child's condition.

—There will be given away with the Sunday Inquirer of February 2 a toy theatre complete with stage, proscenium arch and a full cast of characters necessary for a reproduction in miniature of that most popular melo-drama, "The Still Alarm." Included in the scenes depicted is that of a great building fire in flames, while all around a complete fire department, with fire engine, patrol, aerial ladder and a large corps of firemen are at work. This is only one of the many thrilling scenes in this tiny presentation of this famous play. The theatre will be found a useful method of entertainment to every member of every household. To prevent disappointment it will be necessary to send in all orders early in the week.

—The best time on record on the river district of the W. N. Y. & P. was accomplished Sunday. The train, which consisted of four passenger coaches containing sixty or more passengers, and a baggage car, was hauled by Engineer Charles E. Brigham, with Conductor J. C. Walsh looking after the interests of the members of the Bostonian Opera Company, who were the passengers aboard, on route to Pittsburg. The distance from Olean to Oil City is 116 miles and the trip was made in two hours and forty-five minutes, which included a stop of ten minutes to take water. As there is some curve after another along the whole route, the time made is considered remarkable.—Blissard.

—From the Brookville Republican of last week we glean the following particulars of a fatal accident which occurred on the 18th inst., at the lumbering camp of W. D. & S. Shields, located near Millstone, Elk county. The victim was Frank Gehlke, of Lockport, Furness, Clarion county. With many others he had been hauling timber for the above firm, and on the day of the accident was skidding from the woods to the main road. Another team was assisting him to draw a large stick, and while walking by the side of his load was caught and crushed against a tree which stood by the roadside. Those present picked him up unconscious and carried him to the camp, caring for him until the arrival of Dr. Brewer, of Clarington, who found the injuries a fatal nature, and the young man lived but two days after.

—Last Wednesday about noon, as Jacob Bush of German Hill, was driving down the hill in a single wagon, his horse, a young animal, took fright at something and ran away. For a time Mr. Bush held to the lines, but finally had to release his hold to keep from being thrown from the high seat on which he was sitting. When near Geo. Hologan's house the front axle of the wagon broke causing an upset and throwing the occupant violently to the hard frozen ground. He struck on his head and left shoulder, dislocating the latter and cutting several deep gashes in his forehead, and otherwise severely bruising his face. He was taken to Dr. Morrow's office and it required all the physicians in town to replace the dislocation. His injuries were very painful, but fortunately not serious, and he was able to be taken to his home on Saturday. The horse was uninjured.

—The Republicans of Tionesta township met at the township house last Saturday afternoon and placed the following ticket in the field for the February election: Road commissioner, Jacob Smeatbaugh; constable, Jesse Carson; school directors, Geo. Mong; judge of elections, Fred Leuber; inspector, A. E. Moore; pathmasters, Geo. Munday, Fred Dryer, Bert Thomson, Chas. Weingard, Ernest Sibble, Henry Sibble, Jesse Carson, Jacob Mealy, Jacob Wagner Jr., Wm. Mealy.

—A Society of Christian Endeavor was organized at Stowtown last Friday evening with Mr. G. W. Warden as Pres. and Mr. H. A. Lynch Sec'y. The hall, which has been fitted up over the store, was comfortably filled and a very pleasant evening was spent. Rev. Mr. McAninch, Secretary of this district, was present and gave an address on the Constitution and pledge of the Society, and its work. Seventeen active members were enrolled and seven associates. Others will soon join. The prospects are bright for a successful society. There are now seven societies of this kind in the County and all are doing a good work.

—Word was received by relatives here last week of the death of Moses B. Hunter, at his home in Dawson, Georgia, Oct. 12, 1885. The deceased was widely known in this section, where he grew to manhood, and where he enlisted with the "Tionesta Rangers," Co. G, 83d P. V., serving till the company was mustered out in 1864. "Moses" was the lie, not only of his company, but of the entire regiment, and his geniality and good cheer at all times, drove away the blues in camp, on the long marches or in thick of battle, where he was never wanting. He was generous almost to a fault, and none of his comrades ever went hungry when he had a bite left. All the "old boys" will be full of his death with sorrowful hearts. His illness was of short duration, his disease being fever. He was aged 55 years, 7 months and 19 days. Peace to his ashes.

—Yesterday while Charlie Walters was driving down the creek hill on the Tylersburg road with a load of lumber, some of the loading slid forward and touched the horses, who in turn began a lively kick and finally concluded to run a spell. Chas. held to the lines till he could hold no longer, and the team came tearing down the hill at break-neck speed, straying the lumber in all directions. Just ahead were Fletcher Lacey and Jas. Thomas in a buggy. They were obliged to keep ahead of the "runaways," but finally concluded it was safer to jump out, which they did just in time to save themselves. When Fletcher struck the ground a part of the lumber took an extra short out and going entirely over him lit a few feet ahead. The team were thrown down and pushed a considerable distance by the wagon, and when finally stopped it was found they had changed positions in the harness, one rolling entirely over the other. Fortunately neither the men, horses nor wagon were much hurt or damaged, but the escape was rather miraculous for the kind of runaway it was.

Dastardly Attempt to Wreck Train of the W. N. Y. & P.

The Titusville Herald of Monday says: As train No. 4, of the W. N. Y. & P., due here at 1:48 a. m., was coming into the upper yards, Engineer Agnew, of engine No. 121, one of the forty-five ton engines recently put on the night run, fell a jar at Hale's crossing and on the arrival of the train at the depot Conductor Gibbons was notified and a broken rail reported by him.

H. Meader, section foreman, who rode on South Drake street, was awakened and sent to where it was supposed the rail was broken. On his arrival he found instead of a broken rail, as reported, a heavy coupling pin wedged into the crotch of the switch frog at Hale's crossing.

The pin had been driven down into the crotch of the frog by the heavy locomotive and battered out of shape. It is supposed that the pin was placed in the position where found with the intention of wrecking the train.

Had one of the light passenger engines been attached to the train it is very probable that the pin, instead of being crushed into the intersection of the frog, would have thrown the lighter engine from the track, derailed the train and caused the loss of many lives.

The officials of the company were immediately notified of the attempt to ditch the train, and they will undoubtedly endeavor to ferret out the miscreants who attempted the outrage.

NEWSY NOTES.

On Monday, while two boys were passing along the Indiana Pike near Ebenburg, they came upon a small tin tobacco box lying in the roadway. The boys picked it up and on opening it they were horrified to find that its contents were two human ears. When the box was examined more closely it was seen that the ears had belonged to an adult person. They had been wrapped in cotton, and the box was probably dropped by some foul fiend who had cut them from the victim's head.—Indiana Democrat.

A gentleman was greatly surprised and pleased the other day at the reply a lady gave to the question "Do you plant Vick's seeds?" Her answer was: "I always plant Vick's seeds in the front yard, but we get cheap seeds in the back yard, which I know is a mistake." It pays to plant good seeds, and we advise our friends who are thinking of doing anything in this line to send 10 cents for Vick's Floral Guide for 1886. This amount may be deducted from the first order. James Vick's Sons, Rochester, N. Y., are the pioneers in this line.

The Christian Endeavor, published at Chicago, publishes letters from the Governors of 12 states in reply to a query as to what they would suggest the 2,000,000 Christian Endeavorers should do along the line of Christian citizenship. All the answers point the young church people to a higher standard of patriotism and Christian citizenship. Gov. Matthews, of Indiana, tells them to attend the primaries. Gov. Briggs, of New Jersey, advises them to ally themselves with one of the two big political parties and not waste their strength. Gov. Sheldon, of South Dakota, says they had better vote the Republican ticket.

"Go into practical politics," writes the Governor of Montana, while Acting Governor Miller, of New Mexico, urges the army of Christian workers to get people to abandon the folly of making fashion and style their idol.

Cameron county is all torn up over a gold excitement recently sprung in that section. The Emporium Press says: Years ago when J. W. & J. H. Cochran were lumbering on Wyckoff Run they erected large splash dams and the steady wear of the great volume of water soon washed away the mountain sides and rolled many large boulders from their native locations. Some months ago a gentleman from an adjoining county, while walking along the almost dry stream noticed a species of rock or sand that attracted his attention. He picked it up and carried it home. This gentleman had a son who was located in the Colorado gold fields and he immediately sent it to him for inspection, who pronounced it gold bearing rock. The young man was so impressed with the idea that gold existed in these hills that he came east and explored the region. Blasting has been going on for some time, and a party representing a large amount of money, stand ready to invest if a reasonable amount of gold exists.
