evening. -Amsler keeps the choicest of everything in his line. -Fruits, vegetables, confectionaries, cigars, tobacco, canned goods, etc., can always be had at prices 1t.

-The Odd Fellows and Rebeccas gave a fine banquet at the Central House last having partaken of the excellent spread ted at the Heath & Killmer drug store, gotten up by Mine Host Weaver, this and one at Dr. Bowman's residence, not members of either order. These societies never do anything by halves, but always have the best that's going, and those who once partake of their hospitality never need to be urged to accept the cond invitation.

-Proper & Fleming completed well No. 4, on the Tucker farm, West Hickory, last week, and it is believed to be the best one yet struck, the indications being that it will start off at 15 barrels. The Dean well, near Baum station, filled up nicely with oil from the gray sand last week, and it is thought will make a four barrel pumper. Proper Bros. have a rig up on a branch of Hemlock creek, Tionesta twp., and will be drilling this week. Their last venture

on Hunter run was dry. -Wm. Lawrence arrived home from his Colorado trip on Monday. He brought with him several rich specimens

of gold and silver ore from the Hulings mines, some of which he helped to take out. One of the nuggets left with us runs \$250 to the ton, and others as high as \$150. Mr. Lawrence reports the Forest county contingent in good health and spirits, and well satisfied with the prospects. Dick Davis makes his headquar-

ters at Boulder, and is in good spirits and slowly but steadily gaining in health. -The General Conference of the Meth-

odist Episcopal church will be held in the city of Cleveland, Ohio, next May, This body meets every four years, and is the only law making power in this great Christlan organization. There will be fully 500 delegates, about two-thirds of whom will be ministers and the remaining one-third laymen. A number of important questions will be considered-

among these the removal of the time limit of the pastorate, which is now fixed at five years, the admission of women into the General Conference, and the districting of the bishops, each to have a certain territory over which heshall have jurisdiction.

-Civil Engineer Whittekin leaves next Tuesday for South America, expecting to sail from New Yoak on the 7th of March. Mrs. W. has already gone, but will visit friends in the eastern part of

the State until her husband is ready to depart. They will live in the city of Medellin, Colombia, S. A., where Mr. Whittekin will have his headquarters, his business connection being with the railroad of Antioquia, one of the most

extensive systems of that country. They expect to remain at least three years. Many friends here will wish them a safe voyage, a pleasant stay and a happy return to their native land at the end o their sojourn. -The Woman's edition of the Oil City

Derrick, issued last Wednesday was no disappointment to the public although the expectation of something great was present with all who had heard of the enterprise. It contained 32 pages of enter-

taining reading matter covering a wide range of subjects, and all treated in a manner at once creditable to the 70 or moth edition was very beautiful, and

there wasn't anything about it that was not strictly first class. The edition of 6,000 was quickly exhausted, and another edition of 3,500 had to meet the great demand for the paper.

-The very many friends of Roy G. Brownell in this section will be greatly pained to learn of the death of his wife, after a short illness on Saturday evening
