—We have observed that the fellows who are always urging the newspapers to "turn over" some one or some thing are always the first to hurry around to the newspaper offices to head off an item that might in any way reflect on themselves. There is no better place to study human nature than in a newspaper office.

—Howard, the oldest son of Will Thompson, had the misfortune to fall on the slippery walk at the school house, during the rain at recess time yesterday afternoon and break his left wrist. The boy was standing on the walk with a number of companions and started to enter the school house to get a drink of water, when his feet slipped from under him, and in his efforts to save himself he fell on his wrist in such a manner as to break it. Dr. Bowman reduced the fracture.

—Recent statistics show that in 1895 the people of the United States spent \$20,000,000 for chewing gum and \$70,000,000 for bicycles. The expenditure for these trifles is a bauble beside the amount spent for beer, or for pleasure at home or abroad. Can it be truly said of any nation, among whose population persons of moderate fortune are enabled to indulge themselves to such an extent in the purchase of things that cannot be classed as necessities, that it is covered with calamity as a shroud and that its classes are eating the vitals out of the masses?—Ez.

—Tidoute parties are arranging for an excursion to Canton, Ohio, the home of Maj. McKinley, and have asked the people of Forest county to join them. The goods will be displayed to the best possible advantage and anyone wishing to purchase should not miss this excellent opportunity to get a stylish hat, as goods will be sold at prices that cannot be beaten even in the larger cities. A cordial invitation is extended to all the ladies to come and bring their husbands, brothers or lovers.

—The Emlenton News says: The great growth of rag-weed in the fields throughout the country revives the old saying that the blanket of snow that will cover mother earth this winter will be as deep as the weed is high. The average height of the weeds ranges from two to three feet and we may accordingly look for snow that deep.

—Will Craig, who for the past seven months has been acting as a rent for the W. S. Y. & P. R. Y. at Silver Creek, N.Y., has resigned from the services of that company, and has secured a much more remunerative situation with the National Transit Company, and is now located at the pump station at Tidoute. We congratulate Will on his good fortune.

—J. W. Jamieson, who has been drilling on one of the new wells for the Tionesta Gas Co. on Hemlock creek, met with a very painful accident last Friday morning. He and his tool dresser were putting casing in the well and were cutting the end off a piece of casing. They had the sinker bar with one end lying on a log and as they were engaged in cutting the casing the jar caused the heavy sinker bar which, with the casing weighed about 650 pounds, to gradually slip off the log and land fairly on the instep of John's left foot, which was resting on a rock. While the injured member is not badly mangled it is very sore and it will be some time before he will be able to bear his weight on it.

—A pleasant event took place at the home of County Treasurer Fones yesterday morning in the nature of a quiet wedding. The groom was none other than our young friend, Mr. Jas. W. Mong of Tionesta township, one of Forest county's most popular and efficient school teachers, and the happy bride is Miss Mary Leibrum, who has for some time past made her home with Mr. Fones' family, and whose modest manners and refined ways have won for her the high esteem of all her acquaintances. Both are deservedly popular in this community, and the best wishes of all their friends go with them through life, in which well wishes the REPUBLICAN joins heartily.

—We are pleased to be able to inform the buckwheat editor of the Franklin News that ex-Editor Bell's crop this year is right up top of column, next to reading matter. Mr. Bell finished threshing Wednesday night, and had a yield of 290 bushels from 10 acres. This is about double the average yield in this vicinity.

—Cochran Times. Bre'r Bell thinks our country is in the throes of a crisis that will decide its destiny; but surely a man who has cut 29 bushels of buckwheat to the acre ought not to be without hope. Things will take a turn—the buckwheat crop, for example. We haven't done our fall threshing yet, and as yet can only be sure of one good crop, our ache-corns.—Franklin News.

Two Big Gushers.

Since the strike made by the Citizens' Gas Co. of Tidoute, on Hickory creek, near the mouth of Queen run, three weeks ago, considerable activity has been shown in that quarter, the result of which is that two big gushers have been struck within the past week. The first by a company composed of Messrs. Freeman and Morck of Warren, and Hardenburg, Erb, Moulin and Weber of Hickory. This well at last accounts was doing 250 barrels a day through the casing, with the tools in the well, and bids fair to have good staying qualities. The second is the Citizens' Gas Co.'s No. 2. It has not been gauged yet, but with the tools also still in the hole it is estimated to be doing 125 barrels. Heretofore the territory in that section has been developed almost solely for gas, in consequence of which a number of wells have been drilled to one or two sides of the territory, and whether the oil belt leads off any great distance remains yet to be demonstrated. Those interested are preparing to make the test as rapidly as possible.

Tickets will also be good on all regular trains Monday, Oct. 5th. Do not miss this last opportunity for a pleasant day's outing at the cities named.

It is not unusual for druggists to recommend Chamberlain's Cough Remedy to their customers. Many of them have used it themselves, or in their families, and know from personal experience its great value in the treatment of coughs, colds and croup. They know too that their customers are their friends, and naturally wish to give them the most reliable medicine they have for those ailments. Messrs. Daugherty Bros., prominent druggists of Indiana, Pa., say "We sell more Chamberlain's Cough Remedy than of any other cough syrup, and always take pleasure in recommending it to our customers." Mr. H. M. Urey, the popular drug store of Freedom, Pa., who has sold Chamberlain's Cough Remedy for several years, says: "I can truly say that it is the best cough medicine in the market." For sale at 25 and 50 cents per bottle by G. W. Bovard.

Jesse L. Test, Esq., an old resident and highly respected citizen of our town, called this morning and after purchasing a bottle of Chamberlain's Cough, Cholera and Diarrhoea Remedy, said: "If anyone asks you if this remedy will do what is claimed for it, tell them yes, and refer them to me." H. Alexander, Stokoe, Reynoldsville, Pa. No one can doubt the value of this medicine after giving it a fair trial. Then it is pleasant and safe to take, making especially valuable for children. For sale by G. W. Bovard.

Many political speakers, clergymen, sloggers and others who use the voice excessively, rely upon One Minute Cough Cure to prevent hoarseness and laryngitis. Its value as a preventive is only equalled by its power to afford instantaneous relief. Health & Killmer.
