Grand Millinery Opening.

The opening of fancy fall and winter millinery goods which began yesterday and will continue over to-morrow at the large millinery establishment of F. Walters & Co., far exceeds anything of the kind ever attempted in the past by these energetic young business women The display of trimmed hats is certainly beautiful, and the most fastidious "female woman" in Forest county certainly ought to be able to make a selection. The large store room is elegantly decorated with evergreens and various colored ribbons, and as you enter the place eems a veritable fairyland. There are hats and hats-hats large enough to bide the stage of the fargest opers house in America, and hats so small that you could hardly find them on the head of a woman who had a large erop of hair, cocked hats and hats that are not cocked, hats that have been set on, jumped on and kicked all to pieces (at least so the reporter thought) and then pinned up again and trimmed with everything from a humming bird to an American eagle. But we can't tell you all about it, go and see for yourself,
