We can ask nothing better than that Congress will show the same promptitude.

THE re-election of Senator Pritchard of North Carolina may be taken as a cause for rejoicing by every American citizen who is sick of free-trade hard times-and the number of such is not small. There has been a good deal of anxiety lest the Senate should fail of a majority in favor of a protective tariff, and thereby the country be doomed to suffer under the infliction of the disastercreating Gorman-Wilson bill for another two years. But Senator Pritchard is always ready to support a protective-tariff measure, and his reelection helps toward a majority in the Senate in favor of the protection of American industries and of American labor.

A NUMBER of members of the Canadian parliament have been in Washington trying to look after Canadian interests, which they fear may tion. be injured by the new tariff policy to be adopted. We have good will for all and "malice toward none." but we confess that we would rather have Canadian interests threatened than American interests, as was the case when the present free trade administration came into power four years ago. Both farmers and lumbermen have suffered too much already under the present law. It was for something different that they rolled up their big majorities for McKinley and protection.

Prosperity Awaits Protection.

There are some complaints by the doubting Thomases that the election of McKinley has not transported us back at once to such prosperity as we had in 1891 and 1892, under the Mc-Kinley law. That is about as reasonable as to expect roses to bloom out of doors in December because June is coming. Because we know June is coming. Because we know June is coming, we may order rose trees, but we don't expect the roses to bloom until the December snow is gone. While the Wilson-Gorman bill is the law of the land we cannot expect any great measure of prosperity. The most that we can hope for

ity. The most that we can bope for is that we may be spared from further disaster. Merchants have the same inducements to buy abroad that they have had from the beginning of the law. It is true that many mills which were closed have started up, and that many others which would have shut down in case of McKinley's defeat have continued. So much substantial good has come from the mere friend, Coxey, the hobo king, has named his new party the United States party. The party will probably he a government as Coxey's army suggest measure or prospect of prospect any great measure or prospect from further danger of Lien.
