

If the President signs the immigration bill, Canada will retaliate, provided it can find any Americans who desire to cross into the Dominion for a job of work.—St. Louis Globe Democrat.

The New York Times calls attention to the fact that Thomas Brackett Reed will be the "father of the House" in the Fifty-fifth Congress, having served continuously for nineteen years, or since his election to the Forty-fifth Congress, in 1877.

The Atlanta Constitution is a recent article, said: "The people are perfectly willing to surrender their dearest theories in regard to finance and the tariff, in order to see the people of the whole country enjoying once more the substantial benefits of prosperity."

"Courageous" Cleveland. Some protectionists have been giving extravagant praise to President Cleveland for "courageously" sustaining the national credit.

There is another aspect of the question, which has been too much ignored by these protectionists, and that is, "Why did the National credit need sustaining?"

If the National credit has been shaken, Mr. Cleveland is alone to blame. His policy of partial free-trade first made a deficit in the Treasury, and his false statements as to the cause of the bond issues created distrust of our financial system.

bare fact that, if there had been no deficit through lack of revenue, there would have been no need of bond issues. It is time for all protectionists to recognize in Mr. Cleveland an unyielding and unscrupulous opponent, who will use any other policy as a cat's paw with which to pull his free-trade chestnuts out of the fire.

THE "FAST" YOUNG MAN. The Duty of Fathers to Portray Him in His True Light.

In the March Ladies' Home Journal Edward W. Box writes on the "fast" man, and the duties of fathers to their daughters in placing him where he belongs and warning them against him.

As a matter of fact, the exact things which a young man does to earn the reputation of being 'fast' are neither known or dreamed of by the girls for whom such a reputation has this glamour.

Beliefs of a Bachelor.

A girl always remembers a thing by what dress she wore when it happened. Some women seem to think a man ought to purr when he's comfortable, like a cat.

It is surprising what a "wee bit of a thing" can accomplish. Sick headache, constipation, dyspepsia, sour stomach, dizziness, are quickly banished by DeWitt's Little Early Risers.

ECONOMY IN THE HOUSEHOLD. The word Economy is apt to suggest want, we feel that we must deprive ourselves of some coveted things, that only in self-denial can we economize.
