"Hard times" is the cry! and why simply because kind Providence has bestowed too much of everything. What a strange thing to complain of. What we want is incubators. Not to hatch chickens; (let the hens do that), but to hatch ideas how to enjoy the bountiful supply of everything. You can find the egg for this incubator by buying your goods at Robinson's where you will find the best quality at the lowest prices and the clerks always greet you with a smile.

An exchange says that the constant depreciation of values must in time reach the professions. Medical advice at \$1.00 a visit to a man with a lame back raising 1c, potatoes is out of proportion; \$25 a day for the services of a lawyer in a horse lawsuit gives the horse to the lawyer, and 25c. each to the jurymen; \$1,000 a year to a clergyman in the farming district gives him the entire products of three of the best farms in his parish. If we are to have depreciated values pass them around to the drones in the hive for a season.
