HARRISBURG LETTER.

HARRISBURG, Pa., June 21, 1897. If there is one thing more than another that will hasten a sine die adjournment it is the kind of weather we have been having here for the past few days.

As a whole the present legislature, though the most abused, perhaps, of any in the history of the State, has really so far been the best that has assembled in many years.

The story about cutting down the common school appropriation has again been revived, and it is exasperating to learn that some people high in official life and prominent in the party's councils are advocating this move as a means by which to save the charitable institutions from losing their usual allowance.

Chairman Marshall of the appropriations committee says all of the appropriation bills will be reported out this week, and as they will have the right of way over all others it is expected that before the week is ended all those emanating in the House will be sent to the Senate.

The bill to tax aliens has received the signature of the Governor and is now a law. Beginning on the first day of July of this year any man who employs a foreigner to work for him must deduct from that foreigner's wages three cents per day and pay it over to the county treasurer.

The direct inheritance tax bill, as amended to cover the constitutional objections of Judge Hanna, is on third reading in the House; lying dormant, as it were, and in all probability that's where it will remain.

Another very large class of "the boys" have determined to vote for no new revenue measures until the Senate has passed the bill taxing beer 1 cent per gallon.

The Senate investigation of the insurance scandal has thus far appeared to be considerable of a farce, and the attempt to fasten any unclean thing on the skirts of Senator Short of Warren seems to have been abortive of any results whatever.

The also investigation came to a sudden ending by the House's recent refusal to extend the time of said investigation for a further period of nearly two years.

A New Holiday Law.

A new holiday law has passed both branches of the Legislature, and is likely to receive Executive approval for the very good reason that it brings the legal holidays of Pennsylvania into harmony with those of the other principal states, thus avoiding the confusion in the transaction of business which has heretofore arisen when a holiday was celebrated in this state on Saturday and some other states on Monday.

The legal holidays established by the new law are as follows:

- 1. January 1, New Year's Day. 2. February 12, Lincoln's birthday. 3. Third Tuesday of February, election day. 4. February 22, Washington's Birthday. 5. Good Friday. 6. May 30, Memorial Day. 7. July 4, Independence Day. 8. First Monday of September, Labor Day. 9. First Tuesday after the first Monday of November, election day. 10. December 25, Christmas Day. 11. Every Saturday after 12 o'clock, noon.

February 12, Lincoln's birthday, is a new holiday. The third Tuesday of February, the local election day, is made a full instead of a half holiday, as heretofore.

While it is probable that these changes in the law are mostly for the better, it is desirable that further tinkering with the holiday law shall cease. The frequent changes and the constant addition of new holiday, besides being of doubtful public utility, render it impossible for the average citizen to keep any sort of tab upon our legal holidays.

POPULIST leaders are advising against a continuance of the fusion of last fall between their party and the Democrats. The uncertain attitude of the Democratic party on the two great questions, protection and silver, is the cause of this unwillingness to continue the unholy alliance of last year.

EVERY side of the Cuban question is being considered by President McKinley now, and a course of action is likely to be indicated in the near future.

A CURRENCY commission which shall frame a plan for the general revision of the currency system of the United States seems likely to be the next step of the administration, after the passage of the tariff bill, which will probably take place before the end of the month.

JAPAN has sold to the people of the United States in the past decade goods amounting to \$13 million yen, the value of the yen being about equivalent to the dollar, while she has bought from us goods valued at only 78 million yen.

If farm prices do not stop advancing and silver prices do not stop their downward course, there will be nothing left to sustain the chief theory of the free-coinage orators of last fall that prices of farm products kept pace with those of silver.

INDICATIONS still warrant the belief that the tariff bill will pass the Senate before the end of the month, and that the conferences over the differences between the House and Senate will be an unusually short one.

THE important report comes from Washington that President McKinley will no longer interpose his influence against the passage by the House of the Cuban belligerency resolution which has already passed the Senate.

DISAPPOINTMENT follows disappointment among the Popocratic leaders. Not only are they disappointed in the fact that the Republicans have presented a solid front on the tariff question and failed to quarrel among themselves upon currency, or any other question, but they are even more distressed to find their own party falling to pieces on the question of protection as well as silver, since their vote against the protective features of the tariff bill is growing weaker daily.

THE fear that the conference over the disagreement between the House and Senate on the tariff bill would be a long one is being very materially reduced by the fact that the Senate has rejected the most important of the changes made by the Finance Committee, and returned to practically the House rates on nearly all of the items where the changes have created much discussion.

"ROTATION in office" is popular with the friends of free silver as well as others. It is whispered that the real cause of the Chicago gathering of a few days since which organized what was called the Silver Republican party was to set on foot a movement which should push to the front an entirely new leader for the silver cause and dump to the bottom of the deep blue sea William Jennings Bryan, who led the party to defeat last year.

THE trade reviews and daily papers of the country unite in the assertion that business is brightening in all parts of the United States. More men are employed, the volume of new orders is increasing, and the amount of work done is steadily gaining.

PEOPLE who are surprised that the Republicans in the Senate are not answering in detail the attacks made by the Democrats upon the pending tariff bill need not suppose that it is because of lack of argument or facts upon which to base them.

THIS has been a sad week for the few Democratic fossils who still cling to the free-trade Democratic theory. One third of the Southern votes in Congress have either supported the high protective features of the pending tariff bill or refused to be recorded against it.

TOM WATSON wants it understood that one party is enough for him, and that he will leave it when it tries to pass under three names.—St. Louis Globe-Democrat.

ONE reason why Weyler may never be relieved is that the Spanish Bourbons seem to be looking around for a worse man.

PRESIDENT CLEVELAND pulled down the American flag in Hawaii; President McKinley pulled it up again.

Last summer while attending court at Uniontown," says D. B. Patton, a prominent druggist of Fayette City, Pa., "three witnesses were suffering from diarrhoea. I gave them each a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy and it gave immediate relief. On the way home one of my neighbors was taken with a severe cramp in the stomach and was suffering with intense pains. I gave him a dose of this remedy and within five minutes the pain had ceased. This remedy is a favorite here. I know of many who are never without it. I always take it with me when going away from home." For sale by G. W. Boyard.
