 PUBLISHED BY
 J. E. WENK, Proprietor.
 TUESDAY, AUGUST 11, 1897.
 REPUBLICAN TICKET.
 District Attorney,
 F. M. CLARK.
 Coroner,
 DR. J. W. MORROW.
 County Surveyor,
 JAMES D. DAVIS.

The time is past when an American farmer with 100 sheep feels poorer than one owning fifty.

MEXICO also has good crops this year, but the silver standard is responsible for a bad crop of serious business losses.

AS ONE result of the new tariff Louisiana is going extensively into the planting of orange groves. The protection given encourages growers while it can hardly be felt by consumers.

The London Standard kindly predicts for this country "further deficits, gold shipments and a fatiguing succession of strike and panics." Our London friends have yet to learn that it is not that kind of an administration.

The editors and street-corner orators who are still reaching the threadbare assertion that a protective tariff breeds trusts seem to have forgotten that trusts never flourished in this country as they did under the Wilson law, which is now happily laid away.

MR. BRYAN, having been ordered off the lecture and oratorical platform by the leaders of the silver party, will now find time to go to Mexico and make a real study of the silver question, something that he has not thought of doing so long as he could be permitted to talk.

The prime minister of Spain, Canovas del Castillo, was assassinated on Sunday last at Santa Agueda, Spain. The assassin, who was immediately arrested, is an anarchist, and gives his name as Rinaldi, but it is believed that this is an assumed name and that his real name is Michele Angino Galli.

The drop of nearly nine cents in the value of the silver put into a dollar which has occurred since the election of 1896 suggests that Mr. Bryan's campaign in 1900 will have to be run upon about a ten-cent dollar, provided the fall in silver continues at about the same rate that it has since Mr. Bryan was speaking last fall.

CHAIRMAN DINGLEY'S newspaper, the Lewiston Journal calls attention to the fact that "the protection afforded the sugar trust by the Gorman-Wilson tariff was nearly twice as large as that now established by the Dingley tariff. The differential or protection given the sugar trust by the recent Democratic tariff was 22½ cents per hundred pounds, while the differential or protection given by the Dingley bill is only 12½ cents per 100." This is a circumstance which those men and newspapers that have been accusing the Republican party of subservience to the huge trust have found it very inconvenient to remember.

THE Maryland Democrats have evidently neglected to read the Republican platform of 1896. They express great delight in their platform adopted the other day that the votes of 6,500,000 Democrats last fall in favor of silver had driven President McKinley and the Republican Congress to try to arrange terms with the European powers for a bimetallic system. Bless you, Brother Gorman, that is just what the Republican platform of last year promised to do and, of course, the Republican party is redeeming its pledges in this particular as it always does in all particulars, and if you are in earnest in your expressions of delight about international bimetalism, why not join the Republican party?

ONE reason why newspapers love to abuse legislative bodies is because people like to read mean things about other people. It is not regarded as news to say that the Hon. John Jones did an honest and virtuous action, and worked in the interests of the people who elected him. That wouldn't be worth recording. It would be tame and flat. But an article to the effect that the Hon. John Jones was a born thief and was at all times ready to rob the State and betray his constituents, is worthy of large lead lines, and would be eagerly read by everybody. It is a weakness of a majority of the human family to want everybody else painted black, so they will look whiter by comparison.—Punchy Spirit.

BRYAN and Towne have now an opportunity to compete for the prize of the next Presidential nomination. The fellow who can offer the best explanation of the fact that wheat has advanced since last year 23 cents per bushel, while silver has fallen 10 cents an ounce, stands the best show of getting the support of the silver barons for the next Presidential race.

THEY try to work the same dodge pretty much everywhere since the alien tax law. The Reynoldsville Star says:

F. M. Brown was assigned the duty of keeping track of the foreigners at the new coke ovens at Big Soldier so that the new alien law can be enforced. He said to one Italian, "Are you twenty-one years old?" The Italian answered "Yes, me twenty-one." Mr. Brown asked another like the same question and he said, "No, me nineteen." Mr. Brown thoughtlessly said, "You will not have to pay any taxes then." The Italian knew after that what he was after. Just as Mr. Brown was starting home in the evening the first mentioned Italian called him and said: "Mr. Brown, me not twenty-one, me thirteen."

The New Game Law.
 About every other paper you pick up now-a-days has a new version of the game law passed by the last legislature. The following synopsis will be found correct in every essential feature, and it would be well to keep it for future reference:

The first section forbids hunting or shooting on Sunday under a penalty of \$25, or imprisonment for a period of one day for every dollar of penalty imposed. The second section provides that no person in this commonwealth shall kill, wound, trap, net, snare, catch with bird-line or any similar substance, poison or drug any bird of song or any warbler, linnet, titmouse, blue bird, sparrow, yellow bird, thrush, downy woodpecker, red-bellied woodpecker, pileated woodpecker, red-headed woodpecker, cat-bird, pewee, vireo, martin, titmup, blue finch, indigo bird, oriole, shrike, killdeer, gnat-catcher, snow bird, hair bird, grosbeak, whip-poor-will, cuckoo, chickadee, chickadee, chat, phoebe bird, red start, finch, humming bird, cow bird, shore lark, wren, swallow, robin, grackle, meadow lark, nuthatch, least bitters, swift, night hawk, starting or bunting. Nor shall any person purchase or have in possession or expose for sale any of the above-said song or wild birds, or the game mammals killed or taken in this state except as hereinafter provided; but nothing herein shall be construed to prevent the keeping of song birds in cages as domestic pets. No person shall take or needlessly destroy the nest or eggs of any song or other wild birds except as hereinafter provided. This act shall not apply to any person holding a certificate giving the right to take birds and their nests and eggs and game mammals for scientific purposes in accordance with certain provisions. The English or European house sparrow, the kingfisher, cooper's hawk, sharp-shinned hawk, duck hawk, pigeon hawk, great horned owl, green heron and night heron are not to be included among the birds protected by this act. The penalty is \$10 or ten days in jail for each offence.

Section three forbids the killing or having in possession after having been killed any wild turkey, pheasant, quail, partridge, woodcock, prairie chicken, English, Mongolian or Chinese pheasants, save only from the 15th of October to the 15th of December, inclusive, in each year: Provided, That it shall be unlawful to catch, take or kill any Chinese or English pheasant for a period of five years from the date of the approval of this act. And provided further, That it shall be lawful to catch and kill woodcock during the month of July of each and every year in addition to the above specified. Penalty \$25, or twenty-five days in jail.

Section four forbids the killing of elk, deer or fawn, save during the month of November in each year. Penalty \$100.

Section five forbids the killing or trapping of any game for the purpose of selling the same. Penalty for deer, \$100; and turkey, etc., \$25 for each offence.

Section six forbids the shipping of game out of the state. Also that it shall be unlawful for any one person to kill in any one day more than ten ruffed grouse, commonly called pheasants, or more than 15 quail or Virginia partridge, or more than 10 woodcock, or more than two wild turkeys, or to kill in any one season more than two deer.

Section seven forbids the hunting or having in possession after having been killed any hare or rabbit, save only from the first day of November to the fifteenth day of December, inclusive, in each year of black, gray or fox squirrels, save only from the fifteenth day of October to the fifteenth day of December, inclusive, in each year. Penalty \$25, or twenty-five days in jail.

Section eight forbids the hunting of hares or rabbits with a ferret or ferrets under a penalty of \$25 for each and every hare or rabbit caught or killed by the aid of a ferret or ferrets, and the fact that a person or persons while hunting has in his or their possession or under his or their control a ferret or ferrets, shall be deemed prima facie evidence of using the same. Penalty \$25, or twenty-five days in jail.

Factory Inspector's Appointment.
 The many friends of W. H. Heckendorn in this part of the state will be glad to know of his appointment as chief clerk of the factory inspector's department at Harrisburg. Mr. Heckendorn is a Punxsutawney gentleman, and has relatives and many friends and acquaintances in Elk county. He is a thorough going meritorious man and is giving the very best satisfaction in his new position. The factory inspector's department at Harrisburg is said to be conducted upon correct principles by the inspector, Mr. Campbell, and as a proof of the economical administration of affairs, it is well known that, although the business of the office increases, the appropriation called for to run it is \$2,000 less this year than it was two years ago. Mr. Campbell and his clerks are the exception nowadays and deserve special mention.—Elk Democrat.

THE REPUBLICAN can vouch for the correctness of every word of the above, and is pleased to say that no better selection could have been made than that of Mr. Heckendorn. His appointment was made purely on the score of merit and through fitness for the important work to which he has been assigned. When Mr. Campbell gets tired of his place we suggest the promotion of Mr. H. as chief inspector of the department.

NEWSY NOTES.
 One successful balloon voyage to the gold diggings will fill the air in the North, west with airships. This is an age in which rapid transit is a necessity.

The depositors of the Meadville Savings Bank have received a dividend of 6½ per cent, the first that has been paid since the bank ran up the shutters in 1894.

Germany's estimated crop of beet sugar this year is 1,830,000 tons. There is no reason why the United States may not produce as much within the next ten years.

In the free-for-all at Columbus last Friday, Joe Patchen's pacing of a mile in 20¼ put the two-minute gait within reach of the modern horse, and tied John R. Gentry's world record. In the third heat of the race Star Pointer made the last half-mile in 1 minute flat.

This is a composition on temperance, written by a little Georgia girl: "Temperance is more better than whiskey. Whiskey is 10 cents a drink, and lots of it. My pa drinks whiskey. He has been ill 113 times. One night he came home late, and my ma went out and cut some hickories and whopped him good. Then she ducked his head in a tub of soapuds and locked him up in the barn. And the next morning my pa said he reckon he'd swear off."

Life in the tropics is on many accounts easier than life in the temperate districts; fruits grow without much tending; no coal is required to keep the family warm; there is no incentive to effort; labor is cheap, and all that a white settler has to do is to sit on a veranda. But who wants to lead that sort of life? asks the Quincy Whig. Nobody with blood in him. The tropics never produced a soldier, an inventor, a writer, an artist, not even a successful shopkeeper. Life that is easy and lazy is not worth living.
