Charles Weaver's many friends in this section will be sorry to learn of the heavy loss he sustained by the burning, on Friday last, of his extensive bottling works, situated on the South Side, Oil City. The main building occupied a space of 100x100 feet and contained machinery and other paraphernalia for manufacturing and bottling soft drinks, valued at several thousand dollars, all of which was destroyed. Mr. Weaver estimates his loss at \$12,000 to \$15,000, with an insurance of \$4,000. While the loss is a heavy one and the insurance comparatively light, Charley says he will repair immediately to rebuild the plant. Have you seen the Artist Albums given with one dozen Photographs at the Sires Studio? Don't fail to get one. If

FOUR CHILDREN BURNED TO DEATH.

A Dwelling House at Auguston, Jenks Township, Burns, and Three Children are Cremated, and the Fourth, a Babe, dies from Its Injuries. Mother and Father Severely Burned.

Another of those horrors, in which four human beings lost their lives in a most heart-rending manner, is reported from the lumbering hamlet known as Auguston, located on the Tionesta Valley Railroad, about seven miles down Spring Creek from Sheffield Junction, in Jenks township, this county. The name of the postoffice is Dubring.

The dwelling house occupied by J. R. Fredrick and family was burned to the ground, and three children, two boys, and a girl, ranging in age from 3 to 6 years, were consumed with it. A fourth, an infant about one year old, was so badly burned in its mother's arm that it died the following night. The fire occurred early Monday morning of this week.

Mr. Fredrick is the general foreman for J. M. Bemis & Son, having charge of a large mill and store at Auguston. He had risen about five o'clock in the morning and was starting a fire in cook stove, using kerosene oil from a three-gallon can to hurry along the slowly burning wood. Immediately an explosion followed, and the burning oil was spattered and thrown in all directions, and enveloping the room in flames almost instantly. His own clothing caught fire and he ran to the creek near by to extinguish them and then rushed back to rescue the members of the family who were sleeping up stairs. Mrs. Fredrick was awakened and taking the babe in her arms raised a window and stepped on the porch roof, at the same time calling to the other children to follow her. They attempted to do when the window dropped down and the fastener snapped shut. The mother dropped the babe into the father's arms below and then rushed back to the window and finding it locked broke the pane with her hand and reached to unfasten the window. By this time the room was full of flame and smoke which burst out upon her, burning her terribly, and she was powerless to do anything. All other entry to the building had been entirely cut off, and the three children could not be rescued.

Their names and ages are, respectively, Carl aged 6, Dennis aged 5, and Stella aged 3. The mother was terribly cut and burned about the arms and body, so that the flesh and some of the finger nails dropped off the bones. She is at present in a very critical condition, and her physicians can give no assurance of her recovery. The father's burns are not serious and, except the terrible anguish of mind over his awful loss, is doing well.

Two other persons, Miss Carrie Cranis, and Miss Gene Kelly, occupied a room on the first floor of the building and escaped with slight burns. Mrs. Fredrick, we understand, was injured some in leaping off the porch roof, which she was obliged to do to save her life. She is being tenderly cared for by kind neighbors and every possible comfort given.

Bro. Yingling and Sonespiper of Marienville have been with the injured much of the time since the terrible occurrence, and have done much to alleviate their bodily sufferings. The charred remains of the three innocent little victims were removed from the ruins as soon as the fire had sufficiently subsided, and the scene was a most heartrending one indeed.

The three Forrester boys whose arrest in Marienville for counterfeiting was mentioned in our last issue, had a hearing before U. S. Commissioner Parmlee at Warren last Wednesday and plead guilty to having in their possession and passing counterfeit coin. They will be taken to Scranton for trial at the next session of the U. S. court.

On the register of one of the hotels of this city, opposite the name of a teacher attending the Institute, the place of residence is given, "Pithole City." Old oil men gaze at the writing, scratch their frosty heads, and recall visions of a bustling, bustling, bang-up city which stood where now only one house and a waste of underbrush greet the tourist's eye.—Franklin News.

A. P. Anderson, Assessor of Howtown, was a pleasant caller at the REPUBLICAN office yesterday. He took special pains to personally inspect every tract of land in his township, and found some real curiosities in the way of timber still standing in that once famous timber region. On one tract he found a cherry tree which he took the trouble to measure accurately. Its circumference is 19 feet and it stands as straight as an arrow without a limb for over 50 feet in height. If sawed in two at the butt it would measure 6 feet 3 inches, and if bored out would allow an average sized man to walk through it without stopping. Mr. Anderson says the tree as it stands is worth a clean \$100. He found many other fine cherry trees on the tract but this "monarch of the forest" beat them all. The tract is owned by Capt. J. M. Clapp, and is located on the south side of Tionesta creek, near Cooper's station.

The Punksstavey Spirit had a call recently from Dr. Schaeffer, the popular State Superintendent of Public Instruction, and has this to record of his visit: Mr. Schaeffer is a large, fine looking man, of middle age, in whom geniality, culture and sound judgment combine to make a charming gentleman. He is of course an enthusiast on the subject of education. He spoke freely of State affairs, and said that he personally knew that there had been much misrepresentation and exaggeration in regard to the alleged abuses at Harrisburg. "There is," he said, "an innate disposition in mankind to kick. When a man walks along the sidewalk and sees something that he can send flying half a block by a vigorous application of the toe, he can scarcely resist the temptation. This physical peculiarity also extends to the mental system. People are more prone to criticize than to praise. At the same time, when anybody is likely to be hurt by their kicking, they want to be pretty sure that he deserves to be hurt before they administer the blow. But when they can indulge their humor for pedal dynamite without hurting anybody, they are apt to do it."

He had attained the remarkable age of 92 years, and was one of the early settlers of Clarion county, where he has lived for upward of 60 years, occupying the farm which he cleared up all these years. He leaves a large family of children, grand and great-grandchildren. The funeral, conducted by Rev. J. M. Wonders of the Lutheran church, of which deceased was a life-long member, was held yesterday morning, the interment being in the burial plot on the old homestead.

If the following figures furnished by the Sandy Lake correspondent of the Mercer Dispatch are not fictitious there should be nothing in the way of the happiness of the farmers of that section at least. The correspondent says that at a recent sale in French-creek township these amounts were realized: An ordinary cow and calf sold for \$50.25; five yearling steers averaged \$51.29 per head; steak ewes brought \$5.95; a lot of spring calves sold on an average of \$14.75; a two-year old heifer brought \$14, and five cows averaged \$35 each.

The Franklin News says: "As the Presbyterians of this city are on the war-path for ways and means, and as most of the hustling seems to fall upon theists and the young hand-maidens we commend to the men of the congregation the example of their elect brethren of the First Presb. church of Oil City. The latter have become fully persuaded that the burden of suppers, socials and similar rake-offs should not all be borne by the ladies. So next Friday evening the men are to serve an oyster supper in elaborate orthodox style. This example is worthy of prayerful consideration. It is morally certain that if tried here, as suggested, it would give a grand boost to the good cause. It would be worth the price of admission to see the deacons, trustees and lighter infantry skirmishing about in aprons as waiters, cooks, caterers and kitchen roustantons. The older, homelier and lazier brethren could be dressed up and put on duty as a reception committee."

Sabbath schools intending to have Christmas trees can do no better than consult Amsler about candies, nuts, fruit, etc. His stock is immense, and selected with a view to please purchasers of large quantities. Special inducements to all such. Call and place your order early. It.

The Chicago Herald of Butler county says that orders have gone out for work to continue on widening to standard gauge of the Pittsburg and Western road between Brain and Parkor. The Enclenton News adds to this information the following: "The company is anxious to make connections with the N. Y. & P. above Kane, and that road will be running into Pittsburg over these tracks early next season. It is believed the R. R. & P. may also come this way, which will make the P. & W. an important line." The News undoubtedly refers to the W. N. Y. & P. at Smithport and in saying "above Kane," it is only evidence of its lack of knowledge of this section of country. Grading has already been commenced at Smithport and rights for it are being purchased and paid for in that neighborhood. But none of this work indicates a connection with the W. N. Y. & P. R. R. Certain facts are gradually coming to the surface which shows that the Baltimore & Ohio is at least interested in this movement. One of the most prominent of these facts is that the B. & O. company owns the Pittsburg & Western. —Kane Republican.

Institute.

Again, the time of year has arrived, when the people of Forest county will be offered a treat in the form of a county teachers' institute.

The institute will be held at Marienville, on the week beginning Monday, Dec. 27.

The revenue for conducting institutes in this county is very frequently less than half that appropriated to the same purpose in many of our neighboring counties. This fact makes it very decidedly disadvantageous to keep pace with the counties around us in the standard which they have set, and which they maintain, in this preeminently important phase of educational advancement.

Notwithstanding this, every effort has been put forth, and every available energy utilized to make progress in this line of educational work; and to give the people even a better entertainment, and a more instructive institute than that of last year. In other words to give them greater returns for the money they expend for this purpose than they have been accustomed to receive.

We have secured for our county institute a greater number of instructors, lecturers and entertainers than that which was ever employed for a similar purpose in Forest county; endeavoring, at the same time, to retain the same high standard of well-qualified talent that marked our institute of one year ago. "Seeing is believing," some one has said; and to see a list of the names of our instructors, lecturers and entertainers will be sufficient evidence to convince the most skeptical as to the superior quality of the talent employed.

Who would venture to predict an unsuccessful institute when the work is to be accomplished by the following persons: Lecturers and entertainers, Dr. W. W. Black, Prof. J. T. Rothrock, "Ariel Ladies' Sextet," (vocal), Dr. Byron W. King and Rev. B. H. Hart. Instructors, Dr. W. W. Black, Dr. N. C. Schaeffer, Prof. J. S. Brown, Supt. W. A. Beer, Prof. C. E. Rugh and Dr. Byron W. King.

It will be noticed that we have arranged for five evening's entertainment. "Course tickets will be sold to teachers and others alike for \$1.25. If separate tickets are purchased for each entertainment, the admission for Wednesday and Thursday evenings will be 35 cents each.

Persons attending the institute will, during the week, making a saving of 20 cents by purchasing course tickets, which may be had by inquiring of Mr. M. R. Shick, Marienville, Pa. Teachers will receive their tickets when they enroll.

The talent has been employed, and must be paid by the superintendent regardless as to whether or not the receipts will be sufficient to cover the expenses. We have tried to be as economical as possible and at the same time engaged men to perform the different phases of institute work, who are able to elevate the educational status of our little county, and benefit all who are so fortunate as to be enabled to embrace this rare opportunity.

Every one who is interested in educational progress is cordially invited to be with us. For two reasons we are anxious for your presence on this occasion: First, that you may be permitted to par-

take of this annual educational holiday

dinner, which has been prepared for all, and in such quantities that no one need go away hungry. Second, A selfish, and, perhaps, that by paying a small admission fee you assist in bearing the expenses that necessarily follow.

We anticipate a grand time, and again invite you to participate in our enjoyment and edification.

Come, then, and let us unite our energies and our influence in making this an institute that will be second to no other in the amount of fun that shall be felt in every school and in every home throughout the county,—one that shall cause the educational pulse of the county to beat faster, and send new life and vigor into every avenue of our educational system; thereby tending to increase our momentum until no obstacle shall be able to retard our onward course, and we be placed in the "front ranks of educational thought and progress."

E. E. STITZINGER, Supt. Forest Co.
