

THE FOREST REPUBLICAN.

J. E. WENK, - EDITOR & PROPRIETOR.

WEDNESDAY, FEBRUARY 2, 1898.

SPEAKING of the harbor of Havana, our flag is there, and it is never likely to be withdrawn again on account of Spanish sensibilities.

AN ocean liner 13 feet longer than the Great Eastern is on the ways at Belfast. The modern leviathan of the deep is nearly a seventh of a mile in length.

IN an Eastern city a woman advertised on the same day for a woman secretary and a cook. She received 422 applications but only two were willing to cook.

ONE German war-ship at Havana, would have insured the safety of German citizens in that port. It is not yet clear why William II. decided to send three.

THE men who are anxious to drive a Republican administration into a hasty war are the very ones who, in case of hostilities, would turn copperhead and vote to cut off supplies.

THE Maryland Senatorial squabble has been happily ended by the election of Judge McComas, one of the staunch Republicans of that State, to succeed Senator Gorman. This gives the old commonwealth two Republican U. S. Senators for the first time in her history.

IN the eyes of the Democratic press, which was so energetic in fanning the flames of the factional trouble in the recent Senatorial fights in Ohio and Maryland, the Tennessee wrangle is a bitter shame, and the factionists are being most roundly abused. Another case of great difference as to whose ox is gored.

NOTHING has as yet been heard to drop as a result of the visit of the U. S. warship Maine to the Cuban capital. It is not likely there will be any trouble, but to make doubly sure that there shall be none it is always well enough to let the other fellows know you are ready for any little fracas that may be rotted out.

THE apparent determination of Mr. Bryan to make 16 to 1 and 16 to 1 the only issue so long as he remains before the country in the position of chief spokesman and representative of Bryan Democracy, has led a good many silver Democrats all over the country to the belief that some broader man, who will not confine himself exclusively to a single hobby, is likely to be a more successful candidate for the next national campaign.

IT seems that Senator Morgan was mistaken in his assumption that President Cleveland really favored the annexation of Hawaii, and based his apparent opposition upon technicalities which could easily have been removed. Mr. Cleveland rushed promptly to press on hearing of the Senator's expression of views, and assured the palpitating public that he, as well as the sugar trust, was dead against the annexation of Hawaii, which has been and is favored by the Republican party.

THE Dingley law is now producing in round figures a million dollars a day of revenue to the government. That is to say the total receipts of the Treasury Department, including customs, internal revenue, and miscellaneous, during the first twenty-four days of January amounted to \$23,000,000 in round numbers, or an average of practically a million dollars for each day. This is extremely encouraging in view of the fact that the expenditures of the government seldom exceed \$365,000,000 a year, or an average of a million dollars per day the year round. It is quite apparent from these figures that the prediction of the framers of the law that it would produce sufficient revenue to meet the running expenses were well founded.

THE Democratic Congressmen and newspapers are hysterical over the sending of the Maine to Havana. On the side of the administration and the Republican party, however, there is no parade or excitement, but simply a determination that the interests of the United States in Cuba shall be maintained in every extremity which can arise. No menace whatever is offered to Spain. If that nation takes a reasonable view of the situation there will be no trouble with this country. The Maine's visit to Havana does not mean immediate intervention. At the same time, it is clear that unless Spain gives up the contest against the insurgents and recognizes that she has not the faintest chance to regain control of the island, intervention must come before long.

A DECISION handed down recently by Judge Stowe, of Pittsburg, in an oil lease case, says: "It seems to me that when a lease is dependent for its continuance upon its producing sufficient to pay, and a certain portion of such product is to be given the lessor as rent, the lessee is bound to operate continuously and with reasonable diligence, and a failure to do so for an unreasonable length of time, thereby preventing the lessor from obtaining any rent, should be held as a forfeiture of the lessee's rights under the lease, if the lessor chooses to take advantage of it."

THE "enemy's country" has suddenly increased very largely in area for Bryan. Its western boundary is not, as in the campaign of 1896, the Allegheny Mountains. Altgeld's State is now in the hostile territory, and so is the State of Chairman Jones. There is a chance that before 1900 comes Bryan will be calling Altgeld and Jones "tools of Wall street" and "enemies of the human race." Moreover, these are men who can not be hypnotized by tricky phrases. They know Bryan, and will never be deceived by him again. The Republican party regrets the loss of Bryan, for it could beat him easier in 1900 than it did in 1896, but it will have to give him up.

MR. BRYAN, in his recently published syndicate article on Mexico, points out as one of the arguments in favor of the silver standard the fact that Guadalajara is actually putting in a sewerage system and water works and that another city of Mexico is laying brick sidewalks. Guadalajara has a population of about one hundred thousand, while the other city, whose brick sidewalks he proudly flaunts before the American people, has a population of fifty thousand. When it is considered that there are hundreds of towns and villages of one-tenth this size in the United States which have already all these advantages, besides electric lights, street railways, etc., of which Mr. Bryan boasts for these free silver cities, there is a disposition to wonder if this is the best that this apostle of free coinage can say in behalf of his pet theory as practically exemplified in our sister Republic.

SECRETARY GAGE has silenced the carping critics who have been constantly asserting that he is not in accord with President McKinley in his efforts to inaugurate bimetalism. In a speech delivered at Philadelphia a few days since he said: "The political head of the Republican party has been active to secure bimetalism under the only conditions by which it can be maintained; namely, international agreement with open mints to both silver and gold. In his efforts to inaugurate such method, the President heartily supports the principles of his party's platform, and in his efforts he has the support of all the members of his official family, invades and declarations from various sources to the contrary notwithstanding. Until it can be secured in this rational manner, we propose to maintain the kind of bimetalism we have now, under which five hundred millions or more of silver are kept on a parity with gold. Under this standard practically for sixty years, and according to the Democratic candidate's admission for twenty-seven years by statute law, this country has developed and flourished as no other country has."

THE Government is going to ask for proposals for the erection of an armor plate plant, and will go into the manufacturing business. The armor plate makers thought they had the Government by the throat and could hold it up for any price for their wares, but Uncle Sam is resourceful, and he still has a few dollars in the cash box with which he will put up his own mill and make his own armor plate.—Kane Republican.

WE are not a bit stuck on the Government going into any private business, but since it has been engaged in the printing business for years, coming in direct competition with printers in every nook and corner of the country, and at the same time taking advantage of its ability to print envelopes for very much less than any private establishment can buy the blank paper from which the envelopes are made, we see no reason why Uncle Sam should not embark, not only in the armor plate business, but in every other branch of business—manufacturing and selling clothing, boots, shoes, hardware, groceries, drugs, patent medicines, and Yankee notions of all sorts, and at cost. For the life of us we can't see why Uncle Sam don't get a move on and branch out as he ought.

WE are anxious to do a little good in this world and can think of no pleasanter or better way to do it than by recommending One Minute Cough Cure as a preventive of pneumonia, consumption and other serious lung troubles that follow neglected colds. Heath & Killmer.

A few months ago Mr. Byron Every, of Woodstock, Mich., was badly afflicted with rheumatism. His right leg was swollen the full length, causing him great suffering. He was advised to try Chamberlain's Pain Balm. The first bottle of it helped him considerably and the second effected a cure. The 25 and 50 cent sizes are for sale by G. W. Board.

Divorce Notice.

COUNTY OF FOREST, ss. The Commonwealth of Pennsylvania to the Sheriff of said County, Greeting: Whereas August Johnson did on the 29th day of July, 1897, prefer a petition to our said Judges of the said County of Common Pleas for said County, praying for the cases therein set forth, that he might be divorced from the bonds of matrimony entered into with you, Theresa Johnson. We, therefore, command you, the said Theresa Johnson, that, settling aside all other business and excuses whatsoever, you be and appear in your proper person before our Judges at Tionesta, at a Court of Common Pleas, to be held for the County of Forest, on the Fourth Monday of February, 1898, to answer the petition or libel of the said August Johnson and to show cause if any you have, why the said August Johnson, your husband, should not be divorced from the bonds of matrimony, agreeably to the Acts of Assembly in such case made and provided. Herein fail not. Witness the Hon. C. H. Noyes, President of our said Court, at Tionesta, the 15th day of January, 1898. J. H. ROBERTSON, Prothonotary.
