# War Fever Still High.

The past week has developed little in the matter of an impending conflict with Spain so far as the public generally knows, but the feverish excitement is still at a high tension in all official circles. President McKinley has asked Congress to wait a few days for the preparation of bis mes sage, and it has been agreed to hold back all warlike demonstrations i both Houses until to-day in deference to the President's wishes. Both th Senate and house committees on for eign relations have in their hands and under consideration a number of res olutions, the passage of any one of which by Congress would mean war at once, and it is understood they have practically agreed to report one declaring for Cuban independence and armed intervention if necessary.

Just how war can be averted with out a complete backdown by one or the other of the two nations is a thing which no one can now figure out, and it seems to be the opinion of many that Spain will soon make just such will, be necessary for Uncle Sam to By cash road. throw a few shots across the bow of Spanish arrogance in order to bring the Dons to a realization of the fact that we mean business before they will "pull in their horns," but the American people believe a declaration of war is inevitable and may be sufficient to stop further hostilities and bring Cuban freedom.

One thing is sure, Congress cannot be much longer held in check and absolute peace or war must come very soon. The former must be accompanied by Cuban freedom, otherwise the latter will force it.

The President's message will be sent to Congress at exactly noon today, Wednesday. It will be a war orders issued since last report,.... 709 14 5266 Orders redenied............................ 851 64 4823 message in words, but a peace mes GENERAL STATEMENT. sage in purpose. It will suggest a joint resolution by Congress, in substance as follows: "The President is authorized and directed to take such effective steps as in his discretion are necessary to secure a speedy termination or the hostilities between the Government of Spain and the people of Coba, the withdrawal of the military and naval forces of Spain from the island and the complete independence of the people." Congress is not to declare war. This forecast of what the message will contain comes from high authority.

# The President Has Sand.

The yellow journals that are making a pretense of coercing President McKinley into doing the right thing in the present crisis are as silly as the boys in Providence, who knew no better joke than burning the President in effigy because he has not made war at the dropping of a bat. Major Me-Kinley probably cares as little for the hounding he is getting in such papers as he does for the pranks of children. His action in the past three days shows that he has command of the sitnation and is as positive in representing American public opinion as the most ardent advocate of the freedom

of Cuba can reasonably ask. In the past 24 hours our demands have been under serious consideration tract numbered 5212. in Spain, and the reports that the demands made are rejected or evaded show their character. The President Hamilton, Lunatic, use John Gensheimhas demanded the one thing which er, Trustee Americans most and will bave-the independence of Cuba. He has made his demand soberly, temperately and with a sincere desire for peace, but he itors become the purchaser, the costs on

In doing this he deserves support and praise-not nagging and abuse. We have a brave, true man Sheriff. President is strong as well as conservntive. He will not disappoint the page 486 and Smith's Forms, page 384.
FRANK P. WALKER, Sheriff. -Buffalo News.

NAVAL battles are expensive affairs. The cost of one round from the mortars at Sandy Hook would be \$15,200. A shot from any of the big rifles is worth \$650. In a two hour's SFATED AND UNSEATED LANDS. engagement five ships could fire away \$1,300,000 in ammunition. No wonder that diplomacy is preferred by the nations as a means of fighting.

Shawneetown, a villiage of several ween 300 and 400 people are missing and their property is practically wiped out of existence. The destruction of human life and property is said to be more complete than at the time of the Johnstown horror, though not so great in extent owing to the difference in size of the community.
