SPAIN MUST QUIT OR FIGHT.

Congress Authorizes the President to Begin at Once to Drive the Spanlards Out of Cuba.

The resolutions passed by Congress almost unanimously yesterday make it plain that within the next few days the United States will be firing on Spain unless that government at once quits the island of Cuba, and leaves the people free and independent. This is the ultimatum which the President will present to the Spanish government, giving it sufficient time to com-

ED. REPUBLICAN:--

As I am not able to make as careful a capvass as I might be required to be successful, I withdraw from the present campaign for Treasurer, not forgetting to thank my many friends of Forest county for their friendship and their worthy promises, made to support me if a candidate.

John Wanamaker's Canvass.

Fditor Smith of the Punxsutawney Spirit hits off the John Wanamaker campaign in this superior style:

John Wanamaker, who is now campaigning this State for the Gubernatorial nomination, clearly stands at the head of America's great merchants. In that field he has made a complete success. He is easily the boss. He brooks no rival But his ambition does not stop here. He would like to be the leading politician of the State also, and perhaps afdacity. But his dreams of political because he misjudges men. In his business as a merchant he has learned to believe that men are influenced by cupidity, that they are easily duped, and that the leading traits of human character are penuriousness and selfinterest. He is therefore prepared to offer rare bargains in honest statesmanship, and great reduction in taxes. He has the shop keeper's trick of belittling opposition, and impressing a customer with the idea that his Kinley's message, April 11, 1898. own intellectual dome is headquarters for everything that is desirable in the way of genuine, all wool reform.

We admire John Wanamaker, and are proud that Pennsylvania has produced the greatest merchant of the century, a distinction that should certainly be great enough to satisfy any man whose talents run in that direc-

Mr. Wanamaker tells his hearers everywhere that an attempt was made at the last session of the legislature to reduce the school appropriation one million dollars, and that the seventysix members who voted for him prevented it. We have no fault to find with Mr. man of remarkable talents and energy, but we do not admire his bargain counter political methods.

This year's appropriation make up her mind what she will do, is not due until after June 1st.

THE currency arguments of the campaign of 1896 will need some reyision, in view of the fact that the money in the country has increased \$246,000,000 since the date of the Chicago convention, an average of nearly \$12,000,000 per month.

THE value of sheep in the United States has increased \$25,000,000 in round numbers since the inauguration of President McKinley, and is now the highest since 1893, while the values of other farm animals and produets have also greatly increased.

A MATERIAL increase in the price of lumber in the case of war with Spain is predicted, because of the fact that the shipments of lumber from the South in coastwise vessels will be interrupted, and if carried by rail, the prices necessarily increased.

THE fact that the Democrats are 'hogging the persimmons' in the matter of Congressional nominations wherever the fusion proposition is accepted by the Populists is creating much dissatisfaction among the members of the last mentioned party, who see in it a studied effort to exclud eall Populists from participation in national affairs, and permanently sidetrack the party.

THE course of the new administration with reference to beet sugar being highly commended by men of all parties and all sections. Secretary Wilson's latest report on this subject | lay to shows that the experiments of last year were highly successful, and that he has reason to expect that the beet sugar production of the United States in 1898 will be double that of 1897, and that this will shortly become one of the well recognized and successful agricultural industries of the country

JOHN WANAMAKER, who employs a large number of men, has stated that any of his employes who are called out on military duty will have positions held for them, salary continued, and, in event of the employe's death while in service, an insurance of \$1,000 will be paid by the firm to his family. Americans are the most inventive people on earth. To them have been issued nearly 600,000 patents, or more than one-third of all the patents issued in the world. No discovery of modern years has been of greater benefit to mankind than Chamberlaid's Colic, Cholera and Diarrhoca Remedy, or has done more to relieve pain and suffering. J. W. Vaughn of Oakten, Ky., says: "I have used Chamberlain's Colic, Cholera and Diarrhoca Remedy in the family for several years, and find it to be the best medicine I ever used for cramps in the stomach I ever used for cramps in the stomach and bowels. Two years ago R. J. Warren, a druggist at Pleasant Brook, N. Y., bought a small supply of Chamberlain's Cough. Remedy. He sums up the result as follows: "At that time the goods were unknown in this section; to-day Chamberlain's Cough Remedy is a household word." It is the same in hundreds of communities. Wherever the good qualities of Chamberlain's Cough Remedy become known the people will have nothing else. For saie by G. W. Bevard.
