—If a man comes your way claiming to be an agent of the government in quest of horses, wants to buy two or three and gives in exchange a check for an amount larger than the debt and wishes you to pay the difference in money, run him off your premises. He is an impostor and is trying to get away with your money.

—Early last Friday morning the boiler house of the Watson Lands Lumber Co. mill at Mayburg was burned down. No serious harm was done to any of the machinery and the mill is again in operation. —The canning season is at hand and the thrifty housewife is busily engaged in "putting up" the good things that nature has so abundantly furnished. The prices for berries and pineapples are the lowest for years, and it is also said that peaches will be unusually cheap, and you should always bear in mind the fact that Amisler is headquarters for these articles as well as all other fruits and vegetables and his prices can't be beat anywhere. —In speaking of the potato crop and its outlook, an exchange says: "The potato raisers have been mystified over the appearance of the potato tops during the last month. In many patches the leaves have turned sore and brown as of early fall. Some who used Paris green attributed the cause to it, but others who have not used this poison complain of the same trouble. Those who are well posted in the matter say the brown and dying tops are caused by a blight, the result of a fungus at the root of the plant."

—The resolution of the Pennsylvania School Teachers' Association, calling upon the Legislature to increase the school term in rural districts from six to nine months, is a move toward ending an injustice that has long existed. The public school system should provide means of education to all alike, yet the children who reside in towns have long had a decided advantage over the children of farmers, not alone from superior instructors, but by reason of from three to four months more schooling each year.—Phila. Press.

NEWSY NOTES.

The average man's head contains about 128,000 hairs. A woman often has more, but many of them are not native to the soil. —Hopkins sells the clothing and shoes. After the men have done all the fighting and endured all the suffering, the figure of peace is represented by a woman.—Ez. —War, War, War, on prices at Miles & Armstrong's. Uncle Sam having given notice about three months ago that he was going to send Spain's army home, now gives notice that he has the first 25,000 ready for shipment, and we have not suffered very much from either Spanish fire-eaters or yellow jack. —Don't miss the clearance sale at Miles & Armstrong's. An exchange says: Dewey is!; Sampson is 58; Schley and Watson are about the same age; Miles and Merritt are in the neighborhood of 60; Gen. Joe Wheeler is 62; Shafter is 58 and Gen. Hubbard is past 60. And right lively old boys they are, too. —Carpets by samples or by the roll at Miles & Armstrong's. A dandelion in one of the interior towns having often read how Bibles had stopped bullets in battle gave one to her departed soldier lover. The editor of the local paper must have been a jealous rival, for he advised the recipient to carry the book in his hip pocket. —Large lot of working-pants 69c, 75c, 90c, at Miles & Armstrong's. The cost of Santiago was, to our Army, 246 killed, 1,844 wounded and 84 missing. It was the next to the strongest city in Cuba, and was won by infantry and dismounted cavalry, practically without artillery. The American soldier may well feel proud of his record at Santiago. —Large lot carpet samples for rugs 39c at Miles & Armstrong's. Come quick. —The Commissioner of Internal Revenue has ruled that orders issued by county commissioners on the county treasurer need not be stamped. But if the latter officer pays the order with a check on the bank the check must be stamped the same as other checks. —Shirts that keep you cool and will not fade, at Miles & Armstrong's. —When people stop to think that every word in the cables dispatches from Santiago costs the papers 16 cents for transmission alone, with equally heavy expenditures for dispatch boats, etc., they can realize that it costs money to issue a first-class paper. The news from the Philippines cost \$1.46 per word. —Hats at their own price at Miles & Armstrong's. At present the express companies require the shipper to pay the one-cent stamp that was imposed by the war revenue bill. The Merchants' Association of New York have brought a case in the courts of that city to obtain a decision as to which party should affix the stamp. Both sides have agreed to abide by the decision. —Hopkins sells the clothing and shoes. The banner crop of wheat harvested in Pennsylvania this year was that at the experimental farm, State College. General Superintendent W. C. Patterson harvested from a field of ten acres 23 loads of wheat, or a total of 759 dozen sheaves, an average of 75 1/2 dozen to the acre. At an average of 16 sheaves to a bushel of grain, the yield per acre of the field would be about 56 bushels. This is the highest average yield recorded for some years. —Best underwear at Miles & Armstrong's. An exchange prints the following curious item: Tie a string about a yard long to a common door key, then take the key in the right hand and hold it so that the string will clear the floor four or five inches. If you can hold the key steady enough it will begin to swing back and forth in a straight line. Let another person take his left hand in his, and the motion of the key will change from the pendulum like swing to a circular swing. If a third person will place his hand on the shoulder of the second person, the key will stop. Try it, and explain it if you can. The Pennsylvania division of the League of American Wheelmen offers a reward of \$25 for the arrest and conviction of any person who steals the bicycle of any member of the organization residing in the State. The division officials have just been called upon to pay the first reward under this offer. W. J. Bennett, of Wilkesbarre, secured the amount he having captured the thief who stole a wheel belonging to Dr. Gaist, of the same city. As soon as it was known that the wheel was stolen, and that the League would pay a reward for the thief, Bennett started to work with the above results, and the consequence is that the owner had his property restored without cost to himself. This is another of the great advantages of membership in the League, and one that will be heartily appreciated when a machine is stolen. An exchange has discovered that people do not drink enough water. It is strange, says the paper, that the thing that has made springs and other resorts famous has never been applied to everyday life. The invalids who visit those places drink all the water they can hold and think all the good results come from some of its properties. Sheer nonsense! It is simply very poor water taken in such quantities as to cleanse the whole system and flood every organ. Besides its cleansing properties water absorbs effete matter and carries it through the system, and the purer the water the greater its power of absorption. Diseases of the kidneys yield to its power, and liver and stomach troubles cease to exist. Even rheumatism, local heart trouble, indigestion and the numerous other annoying ills of the flesh due to impeded circulation disappear before the restful power of plenty of water. —Golzena Happenings. Miss Ruth Clark and Miss Mildred Horner were guests of the Misses Watson Wednesday. —Mrs. A. B. Kelly, Mrs. Chas. Bonner, Mrs. Sue M. Sharpe, and Chas. Bonner, Jr. were guests of Mrs. G. F. Watson Thursday. —Miss Hester Bowen and Miss Mae Watson were guests of Mrs. Paul at the Carter Farm Friday and Saturday. —Mr. Lawrence Brockard and Mr. Judson Barnes of Brockardville spent the week at Golzena.
