THE WAR NEWS.

Very little of importance has oc curred in war circles since our last issue except that our soldiers have been pushing forward in Porto Rico and are being enthusiactically greeted by the natives, but the Spanish forces still keep out of the way of our troops The oil country soldiers tauqua have been given the place of honor in the invasion of Porto Rico because, in the past, they have shown evidence that they are the kind of soldiers to be depended upon in such emergencies, and they will come from the campaign covered with the glory that is justly theirs. The 16th Regt. under Col. Hulings has raised the U. belonging to the enemy. They are steadily advancing on San Juan.

The authorities at Madrid have been haggling all week over the terms of peace offered by the United States, Carolina and 96 in South Carolina but an answer was finally received by the French Ambassador, M. Cambon, at 3 o'clock on Monday afternoon. It was evident that if the reply was an acceptance, it was accompanied by capturing enough territory to pay its extended discussion and probably by conditions. The prevailing view, however, was that the reply was on its face an acceptance, although not such a one as precluded all possibility of further discussion. All vital points pound for carrying the mails, while the were believed to be conceded, the express companies get their shipment abandonment of Cuba, Porto Rico and the Ladrones, and the establishment of a commission to pass upon questions relating to the Philippines.

This magnificent trade balance in favor of the United States illustrates the prosperous condition of the country's agricultural interests and the wisdom of a reasonable Protective Tariff law.

THERE must, then, be some irritating cause in the United States that gives rise to this European comity. Does it exist? Upon close exanination it really does exist. What is the reason of this animosity? The United States is considered most jealously in Europe.
