One of the most atrocious crimes ever committed in Northwestern Pennsylvania was the killing of George Carter in his home on the Gibson Hill road, one mile from Rynd Farm Station, on the W. N. Y. & P. railroad, and not far from Oil City. About 9:30 Wednesday night Carter sat in his kitchen reading a newspaper. His wife had come in from the spring house and was standing with her back to her husband when the shot was fired. Two men tore the lower part of the screen from the window and fired the contents of a heavily loaded shotgun into Carter's head. So close was the range that the lamp on the table was extinguished. Mrs. Carter was stunned by the report, and after recovering her senses, placed her hand on her dead husband's head, felt the warm blood oozing from the wound, and then ran screaming to the house of her father, about a quarter of a mile away. Mystery still surrounds the affair and no clue has been found toward the discovery of the perpetrators of the heinous crime.

Hopkins sells the clothing and shoes. English physicians assert that rocking chairs with their endless motion, cause nervous diseases among American women. Rockers are rare in England and nervous diseases there do not exist to the extent they do here.

E. Evans, a machinist, of Butler, has perfected an engine which can be driven by either steam or gas, and so constructed that the change from one to the other can be made in five minutes. Oil operators are interested in the new engine, as it will be very serviceable at oil wells.

The editor of an exchange has discovered that there is a wide difference between the school books of the present and those of long ago. He says that when he first went to school he read his lesson something like this: "See the cow. Is not the cow nice? Can the cow run? Yes, the cow can run. Can the cow jump as fast as the horse?" But the later, up-to-date style of reading it by the average kid is as follows: "Get onto the cow. Hain't she a beauty? Sure she is a corker. Can the cow get a move on herself? You bet she can get a move on herself. Can she hum like de boss?"

Letter From Rev. Mr. McAninch.

NORTHFIELD, MASS., July 29, 1898.

Dear Editor: One of the interesting events of the week in connection with the conference was the laying of the corner stone of Mr. Moody's new church at Mount Hermon. The building is of granite taken from a quarry quite near and is a beautiful structure. Possibly you may wonder at this last sentence, but nevertheless the structure is there visible to the eye even if the corner stone was just laid. The stone was left out but ready to slip into place and the ceremony was delayed waiting for Revs. Messrs. Morgan and McGregor, from England. The church is a gift by English and American friends to Mr. Moody; hence the propriety in having representatives from both sides of the sea. Thirty thousand dollars was the amount at first deemed necessary, but owing to changes made \$10,000 more will be necessary to complete. Over \$6,000 were raised yesterday and the rest will soon follow. The side of the church overlooks the buildings of the school and affords an excellent view of the broad and fertile valley with its magnificent scenery. Mr. Moody has had this place picked out for many years for this purpose and called it Mount Temptation in hopes, he said, that some one might be tempted to erect the church. Now he calls it Mount Inspiration. The church will seat about 1,300 people.

Rev. Morgan leaves this week for Winona, Ind., where he will preach at a conference similar to this one. He will spend Sunday, the 14th, in New York preaching in Dr. John Hall's church. Rev. McGregor will preach in the same place a week later.

The interest and attendance seem to increase as the days go by. S. H. Hadley, who is Supt. of the Jerry McAuley Mission on Water St., New York, spoke at one of the round top meetings. He, too, is a reformed drunkard, and the recital of his experience was thrilling and ought to be a warning to young men and women. He seems to be a worthy successor of the famous Jerry and is doing a good work along the lines of rescue.

The Y. M. C. A. camp has a great many young men who have remained over from their conference. A visit to their camp is always interesting. They take in every young man that comes and make him one of them. They have very comfortable tents in a pine grove and sandy soil. They have a large dining tent and a man who is cook and professor of dust pan and correlative branches in general. He has only one eye but possibly even that is a virtue.

The conference will close next Thursday and is considered to have been the best yet convened at this place, both in point of attendance, deep interest and instruction. From all parts of the country one hears of the influence this place or these conferences are exerting upon the church. The ideas here set forth have been taken up and other similar series of meetings are being held.

Mr. Moody presides at all platform meetings and is the head of it all. His sanctified common sense is apparent in all that goes on. He yields his place to no one and every one seems to acquiesce most cheerfully in everything he says or does. The influence which he is exerting upon human society, socially, morally, and spiritually will never be realized to any extent till the time comes for writing the history of this age and never fully till "all things shall be revealed."

One meets many interesting people here. Just as I was about to close this letter a gentleman spoke to me and in conversation I learned that he was a 49er, had traveled in all parts of the world, was converted in the Island of Formosa, had been in Manila, and for twelve years was engaged in the American Bible Society work in China. He told me that he had seen all the Spanish soldiers of the garrison drawn up on some church holiday occasion and the flag of Spain laid in the dust and rode over by the Archbishop. He has not much good to tell of matters in that country. J. V. Mc.

Mayburg Items. Last Saturday Mayburg shut down everything in the shape of labor at 11 a. m. to enjoy a good picnic in the school yard, to celebrate the opening of Mayburg's new school house. It is a beautiful house built by Wm. Diekrager of Hickory township. The house is 28x38x12 feet in the clear, with a front 12x18 for entry, cloak room, etc., surmounted by a beautiful belfry. The inside decorations by the committee on decorations were very pretty. Outside there was 19 pretty flags, one large flag between two flag poles set everything off very nicely. The school directors met at 10 a. m., paid a bill and accepted the school house from the contractors and seemed very much pleased. At 1 p. m. the school board with 250 people sat down to one of the most bountiful dinners ever attended. Everybody in town had taken hold to make this matter a success and it was successful in every particular. Committee on lemonade circulated among the people, and watermelon abundance. A fine dinner came the flag drill outside the school house. About 16 young ladies dressed in white, under Miss Kate Guenther from Kellestville, gave us a grand flag drill; then came the boys of Mayburg. It was not as brilliant as the Kellestville drill, but it showed care on the part of Mrs. J. E. Berlin. After that the singing of "America," which was real good. Then the photographing of the school house and profile. About 100 chairs had been gotten, which with school benches, seated about 200 people inside. Then came a real nice entertainment by Kellestville and Mayburg folks. Kellestville did themselves proud—the work of Miss Guenther counted. I could not single out anything in particular in which Kellestville and Mayburg both did not excel, and it spoke much for the care and training of the folks by Mrs. Berlin and Miss Guenther. About half way through the program Mr. E. E. Stitzinger, our Supt. of Public Instruction, gave us a talk on schools and school buildings, etc. The Prof. did well and said some things that will be long remembered. After a vote of thanks for all concerned we went home, having enjoyed a good day. A multitude was fed and the fragments left would have filled many baskets. Kellestville, Whig Hill, Newtown, Ross Run, Balltown, Porky and Nebraska were represented.

The planning mill is again running full time.

T. D. Collins of Nebraska was in town last Thursday.

J. K. Brown who has been on the sick list is much better.

A matter of the wells have been cleaned out and the "shooter" is now doing his part.

REPUBLICAN about this morning filled with good things. Among the best was the new one—American boys at Manila do just as good work as American boys at Santiago or Porto Rico, and the navy boys are just as grand.
