

MANY of the large manufacturing establishments are behind with their orders. Perhaps this can also be traced to the wicked Dingley law.

WHILE the Spanish nation is encountering such a rough political sea it is fortunate in not being the possessor of anything in the nature of a navy.

HAVANA and Mantanzas are yellow fever pest holes, even at this season of the year. Through good management we have no troops there exposed to it.

THERE is no force so potent as that of a well directed public sentiment. It has compelled a new trial for Capt. Dreyfus, and may go so far as to insist that it be a fair trial.

THE President says the people should stand together to settle the war just as they were united to make it successful. Few will undertake to deny the soundness of this position.

SPAIN'S position regarding the Philippines seems to have narrowed down to a financial matter. It is certain that resuming the war on that account would be a pecuniary success.

THERE is no practicable way to retreat from the Philippines, a fact comprehended by the Republican party some time ago. Several years hence Democrats will catch the idea.

IS Protection keeping the nation out of the world's markets? Not by \$1,000,000 a day, which was the amount of manufactured goods America sold last year. It is giving us contentment at home and supremacy abroad.

THE national gold reserve is now the largest in the history of the United States, farm loans are down to 5 per cent. annual interest, and the general prosperity is daily increasing. What a "ruin" that Dingley Tariff is proving to be!

THE fact that the Women's Foreign Missionary Society is making arrangements to extend its work to the Philippine archipelago is a good indication that the religious sentiment of the country is favorable to American retention and control of the islands.

THE old Democratic cry that a Tariff that sought to protect the American laborer and farmer would lose us our foreign markets has been squarely disproved in the increased prosperity which has become ours even in the midst of war. Republican policy has won us not only quick victories in war but rapid accretions to our commerce.

THE great triumphs of our navy in the recent war have led the American people to regard our American sailors with honor and admiration. Before the glorious victory at Manila the American people had regarded our navy as an unknown quantity—foreigners had not regarded it at all. The history of the war of 1812 should have taught them better. To-day they know better. They know that, man for man, our navy has no superior, perhaps no equal. This is only in line with American traditions.

BIRDS OF ILL OMEN. The following from the London Morning Post might well serve the free trade editors of the United States as an example of intelligent fairness: Two good results of the war seem to be assured. There will be no more tinkering of the tariff, and customs duties are likely to remain as they are at present, while the United States will adopt a system of taxes for the needs of the Government based on an internal revenue. It has been shown that the people have borne such taxes cheerfully, and prefer to continue such as are necessary rather than to change the tariff. There is no prospect, either, of the currency being on other than a gold basis.

THE fact that no more tariff tinkering is desired by the people of the United States seems to be more generally recognized by foreign than by domestic Cobdenites. Similarly the situation as to the maintenance of sound currency is much clearer to the view of a London writer than it is to the jaundiced perceptions of the native mugwump, who keeps harping on the need of currency legislation and lies awake nights conjuring up dangers that have no existence in fact.

FOREIGNERS wonder how it is that the most prosperous country on earth contains so many prophets of evil. They would cease to wonder if they once succeeded in grasping the idea that the American mugwump is by nature and training a bird of ill omen. Otherwise he would not be a mugwump.—American Economist.

THE USUAL RESULT.

ABOUT EVERYTHING REPUBLICAN.

Pennsylvania Rolls Up A Hundred Thousand Plurality For Stone.

The election in this State was the most hotly contested that has taken place for years, the Republican party being obliged to stand the brunt of the vilest slanderers, most villainous abuse and foulest lies ever introduced into a campaign. Against it all the loyal, steadfast friends of free, enlightened and patriotic government stood like a stone wall, and the result is shown in a splendid vindication for Col. W. A. Stone and the entire Republican ticket by pluralities estimated at over 100,000.

The election of a Republican legislature is also assured by a large working majority, thus assuring the election of a Republican U. S. Senator.

In Forest county the Republicans elect their entire ticket, and carry the county for Col. Stone by about 200 plurality. Dr. Towler's majority for Assembly is 71 according to figures which are complete but not official. Samuel Henry has 458 majority for County Treasurer. Mr. Arnold has 356 majority in the county, but is doubtless defeated in the district by Mr. Hall.

The Poor House question is probably decided in favor of the poor house, but the returns were so meager that we could not get the vote.

The assembly fight was one of the hottest the county has ever had, the fusion of Democrats and Prohibitionists having been the cudgel used to lay out the Republicans. Following are the totals in the county, complete though not official: Governor, Stone 936, Jenks 690 Swallow 346; Congress, Arnold 1084, Hall 728; Assembly, Towler 1033, Watson 962; County Treasurer, Henry 1135, Bauer 683.

It was a good day's work and the results are satisfactory.

REPORTS indicate that Joseph Sibley has carried the 27th congressional district over C. W. Stone by 2,000 to 3,000 majority.

ROOSEVELT CARRIES NEW YORK. Col. Roosevelt carries New York for Governor by about 25,000 plurality.

The Republicans carry Ohio, Illinois, Massachusetts, Iowa, Wisconsin, Connecticut, New Jersey, Michigan, California, Nevada, Kansas, Washington, North Dakota, New Hampshire.

The Democrats have made gains in Congress, but whether enough to reverse the Republican majority must depend on later returns.

Marie Teresa Sunk.

The Infanta Marie Teresa, the flagship of Admiral Cervera's squadron in the famous sortie from Santiago harbor on July 3rd, when the Spanish ships were sunk by the American fleet, went to the bottom of the sea off San Salvador, Bahamas, on the 1st inst. Lieutenant Hobson superintended the raising of the Teresa, after which she was towed to Guantamo. Here temporary repairs were made to the vessel, and she was started for Norfolk some days ago under convoy of other ships, and in tow, when necessary, of the tug J. J. Merritt. In this way the tug was at hand to save the crew when it was found that the Teresa had to be abandoned. The vessel sprang a leak in the rough seas and could not be saved from sinking.

THE Wilson-Gorman Tariff, which aimed to go as far in the direction of Free-Trade as it dared, put out the fires under American furnaces, closed American workshops and brought about an unparalleled business depression. The Republican Tariff which succeeded it has been in operation only a little over a year and the country is prosperous in spite of war.
