Wonderful Freak of Nature.

Perhaps the most wonderful freak of nature ever known in this section has been on exhibition in this place since Monday of this week. It is in the form of a double calf from a cow owned by farmer Christopher Korb of Tionesta township and was born on Sunday night, though it died "aborning," as did likewise the mother which tried to give it birth. The calf is fully developed and weighed 110 pounds; it has two distinct and well-formed heads and necks; two spinal chords, and tail with two branches formed about five inches from the trunk. Its four legs are perfect, in fact, with the exception of the legs, which are natural, it is two calves in one hide. Some who have seen it and know the value of such freaks decided it to be a truly scientific wonder, and could it have been kept alive would have proven a veritable gold mine for its owner. The carcas will doubtless be sent to a texidermist and properly mounted. It is surely worth the necessary cost.

The New Grist Mill.

Among new industries worthy of special mention in Tionesta is the grist mill recently erected by Messrs. F. R. and C. A. Lanson. The senior member of the firm, which will be known as Lanson Bros., is well known to all our citizens, he having been in the mercantile business here for about twenty years. The iunior member, Mr. C. A. Lanson, recently came here from Los Angeles, Cal., but in his s. ort residence here has become well and faverably known to most of our people.

The new mill, which is located on Bridge street, was built upon the most modern plans and in a short time will be replete with up to date machinery, but grinding. The motive power is furnished by a 25 H. P. gas engine of the Standard make and it does the work nicely and
