After physicians had given me up, I was saved by Piso's Cure.-RALPH Earso, Wil-liamsport, Pa., Nov. 22, 1833.

The Swedish mile is the longest mile in the world, being exactly 11,700 yards.

"Out of Sight Out of Mind."

In other months we forget the harsh winds of Spring. But they have their use, as some say, to blow out the bad air accumulated after Winter storms and Spring thatus. There is far more important accumulation of badness in the veins and arteries of humanity, which needs Hood's Sarsaparilla.

This great Spring Medicine clarifies the blood as nothing else can. It cures scrofula, kidney disease, liver troubles, rheumatism and kindred ailments. Thus it gives perfect health, strength and appetite for months to come.

Kidneys - "My kidneys troubled me, and on advice took Hood's Sarsaparilia which gave prompt relief, better appetite. My sleep is refreshing. It cured my wife also." MICHAEL BOYLE, 3473 Denny Street, Pittsburg, Pa.

Dyspepsia - "Complicated with liver and kidney trouble, I suffered for years with dyspepsia, with severe pains. Hood's Sarsaparilla made me strong and hearty." J. B. EMERTON, Main Street, Auburn, Me.

Hip Disease-"Five running sores on • hip Discase - rive running sores on my hip caused me to use crutches. Was confined to bed every winter. Hood's sar-saparilla saved my life, as it cured me per-fectly. Am strong and well," ANNE ROBERT, 49 Fourth SL, Fall River, Mass.

Rood's Fills cure liver life, the non-irritating and the only cathartic to take with Hood's Sarsaparilla.

Code Books on Warships.

All code books carried on warships have leaden backs, to make them sink if lost overboard. The letters in the book, moreover, are printed with peculiar ink, which fades away when it comes in contact with the water. To make things still more safe the letters are changed every few months by the Navy Department. Even on warships few officers know their vessel's official signal code.

Government Hog Cholera Remedy. Pulverize and mix thoroughly: One part wood charcoal. One part sulphur. Two parts sodium chloride (salt). Two parts sodium bicarbonate soda).

Two parts sodium hyposulphite. One part sodium sulphate. One part antimony sulphide. Dose, one tablespoonful for each 200 pounds weight of hog once a day.

The Bite of a Hog.

There is great danger of blood poisoning if a hog bites the flesh, There is no poison in the hog's teeth as there is in the fangs of a poisonous snake. It is rather the poison which comes from the saliva, as the hog is a very indiscriminate feeder and not at all cleanly. When a hog is made angry the amount of this saliva is greatly increased, and the danger is Even a slight contusion greater. front a hog's tooth should be promptly washed out with some antiseptic. Dilute carbolic acid, one part of the acid to 2000 of water, is good and always a reliable antiseptic. Some should always be kept where it can be handily procured, to put on cuts or outside injuries received on any part of the body. It will greatly hasten their healing.

Cost of High Bred Poultry.

Convinced that he should follow the advice of those who know how to improve the flock of fowls, the farmer is naturally anxious to know what the cost of new blood will be. If the flock is the ordinary farm stock, mainly mongrels, and the grade is to be raised chiefly from egg production, new blood of a dellar a head will be good enough. If the stock already on hand is of one breed and of fairly good quality, and the new blood is desired to add to the size of eggs or to increase egg production or size of coming chicks, then stock at four or even five dollars a head is none too good. If fancy fowls are wanted, bred to the standard, then he must expect to pay anywhere from ten dollars up per bird. But where you can get stock which will add to the value of that you already have. If increased agg production is wanted, buy from breeders who are willing to guarantee that their stock is all they claim for it in the matter of egg production. If weight and markings are desired, buy from those making a specialty of these points. Last, but by no means least, not be fooled by the claim that northern bred stock is necessary to add value to southern flocks, or vice versa. It is agreed that certain seeds northern grown are best for southern planting, but the claim will not hold good water with poultry. Buy where you can get the best value for your money and the nearer home the better, other

Lime as a Fertilizer.

Those who believe that lime is necessary as a fertilizer, and their opinions are not based upon actual tests of the soil, they would do well to test it. Stir up four or five teaspoonfuls of the soil with enough water to make a thick paste. Allow it to stand fifteen minutes. Then part the soil with a knife blade and insert one end of a strip of distinctly blue litmus

IN MANY WAYS Join the Band-No Matter How Much

Glamour is Thrown Around Wine it is the Same Deadly Irritant Polson-Wine Bibbing Leads to Disaster.

Drink reigns almost supreme, How Potent is its sway. It prostrates high and low. It wreeks both grave and gay. Then shun the treach'rous drink And boldly take your stand, Amongst the brave and free— The growing Temperance band.

All Use of Wine Condemned.

To the Editor: Sir-A writer who styles herself "A temperance woman, but not a testotaler," recently filled two-thirds of a column on the Woman's Page in the New York Tribune with suggestions as to the kinds of wine and the manner of serving the same,

Growing enthusiastic with her subject. Growing enthusiastic with her subject, she arabesqued it with the sparkle of gilt and cut glass, Bobemian and Roman, and sast about it a spell of aroma and bouquet, until the reader is reminded of descriptions of bacchanalian feasts in the history of the

dead nations. Her advice is decidedly belated; it does not fit the intelligence of our times. Cham-istry shows that the "one wine, red or white," which this writer says should be ased "straight through" a home dinnet out in a varying percentage of alcohol. contains a varying percentage of alcohol. Whether there be in this wine much or lit-tle alcohol, the character of that alcohol is the same. It is an irritant, narcotic pol-ton. Its best friends cannot deny that it ton. Its best friends cannot deny that it has the power, when taken even in small quantities, to create a progressive, uncon-trollable and destractive appetite for more. This appetite grows stealthily upon the irnker. The ability to resist it varies with the individual, and is dependent upon physical conditions, in which hereidity is a powerful factor. John B. Gough said, "My father could be a moderate drinker, but I can be only a total abstainer or a gutter drunkard." The gratification of this appetite ends in irankenness, crime, powerty, misery and

rankenness, crime, poverty, misery and mainess. Therefore, the family or indi-vidual who is drinking the red or white wine which this so-called temperance woman recommends for the daily home woman recommends for the daily home dinner is trying a very dangerous experi-ment. Eighty-four per cent. of our erim-inals, seventy-five per cent, of our paupers, fifty per cent. of the inmates of our insane sylums began their careers with so-called moderate drinking. No human being can foresee when he begins where such tippling will land him. He is dealing in futures, with no knowledge of his chances beyond the fact that the drink he is imbibing has an enticing power for destruction; but this the fact that the drink be is imbibing has an enticing power for destruction; but this fact he generally ignores. Modern chemistry shows that the four rinds of wine this writer would hav; served with a more formal course dinac-are the same sort of liquors, differing only in flavor and the amount of alcohol they verter.

in neutrino and thy amount of alcohol they sontain. Providing for guests four differ-ent kinds of poisonous drinks which have the power for harm that alcohol has is, to say the least, a barbarian sort of hospital-ity, a relic of the days that had not the

light of modern science. Through its action on the nerves and arain, alcohol, of all agents, is the most powerful for the destruction of those quali-ties of mind and character that make a people capable of self-government. It is, therefore, the most dangerous of all foes to our free institutions, which rest upon the capacity of our people for self-govern-

To follow this wine-bibblng advice is an not follow this wine-bibling advice is an invitation to disaster to that which we hold most dear-liberty under law. The ca-pacity for government of the American people will stand the strain of the colonial people will stand the strain of the colonial expansion has thrust upon us, if alcohol is abolished from our habits. Commenting on this probability, Adolph Fick, professor of physiology in Wurtzburg University, Germany, in a public lecture said: "There is good reason for asserting that the Anglo-Saxon race at no very distant day will tractical from the work of alcohol things being equal .- Atlanta Journal.

day will free itself from the yoke of alco-uol. Whether it will then be possible for those races still submitting to its use to compete with the Anglo-Saxon in their economical pursuits is a question to be thoughtfully considered." MABY H. HUNT.

Telstoy on the Drink Question.

Consumption

Do not think for a single moment that consumption will ever strike you a sudden blow. It does not come that way.

It creeps its way along. First, you think it is a little cold; nothing but a little hack-ing cough; then a little loss in weight; then a harder cough; then the fever and the night sweats. The suddenness comes when

yeu have a hemorrhage. Better stop the disease while it is yet creeping. You can do it with

Ayer's Pectoral

You first notice that you cough less. The pressure on the chest is lifted. That feeling of suffocation is removed. A cure is hastened by placing one of

Dr. Ayer's Cherry **Pectoral Plaster** over the Chest.

A Book Free. ". In on the Diseases of the

If you have any complaint whatever and desire the best medical advice you can passibly receive, write the doctor frealy. You will receive a prompt reply, without cost. Address. DR. J. C. ATER, Lowell, Mass.

Shears Made Famous by Salisbury.

One of Lord Salisbury's pet anecdotes is the story of a barber whom he once patronized. This tonsorial artist did not fail to recognize his patron, for the latter, on passing the shop a few days later, was gratified to observe a placard in the window bearing this inscription: "Hair cut, 3d. With the same scissors as I cut Lord Salisbury's hair, 6d."

Beauty Is Blood Deep.

Glean blood means a clean skin. No beauty without it. Cascarets, Candy Cathar-tic clean your blood and keep it clean, by stirring up the lazy liver and driving all im-purities from the body. Begin to-day to banish pimples, boils, blotches, blackheads, and that sickly bilious complexion by taking Cascarets,—beauty for ten cents. All drug-gists, satisfaction guaranteed, 10c, 25c, 50c.

There are 3000 English words that are not found in the dictionary.

fewer than 200 are women, and only a small proportion of these are pure Greek in blood. The Greeks who come to America are, with few exceptions, shepherds or farmers, with now and then a sailor. The former take to the pushcart life at once. The newcomer is taken care of on his landing by friends from his own locality. It is the boast of the Greeks that none of their nationality has ever applied to the city for aid. No matter how poor they be, no matter how their savings may have been absorbed by repeated arrests for violating city ordinances, they will find some way to help a brother in need.

AN EXCELLENT COMBINATION. SUCCESSFUL ENTERPRISE BASED ON

MERITS.

The Importance of Informing the Public of the Value of an Article Through the Leading Newspapers.

of the value of an Article Through the Leading Newspapers. The faw remedies which have attained to vide-world fame, as truly beneficial in ef-fect and giving satisfaction to millions of people everywhere, are the products of the knowledge of the most emineat phy-sicians, and presented in the form most acceptable to the human system by the skill of the world's great chemists; and one of the most successful examples is the Syrup of Figs manufactured by the Call-fornia Fig Syrup Co. Unlike a host of initations and cheap substitutes. Syrup of Fizs is permanently beneficial in its effects, and therefore lives and promotes good health, while inferior preparations are be-ing cast aside and forgotten. In olden times the emistication to all. If you have never used Syrup of Figs, give it a trial; you will be pleased with it, and rec-omend it to your friends or to anywho suffer from constipation, over-feeding, outfar from an inactive condition of the consting from an inactive made by the California Fig Syrup O, and named syrup of Figs, figs are used, as they are presenting from an inactive made by the California Fig Syrup O, and named syrup of Figs, figs are used, as they are presenting to the taste; but the medicinal properties of the remedy are obtained from an excellent combination of plants known to be medicinally laxative and to act most peneficially. PERFECT

WOMAN-

HOOD

Sweet dispositions turn morbid and fretful. The possessions that win good hus-bands and keep their love should be guarded by women every moment of their lives. The greatest menace to woman's permanent happiness in life is the suffering that comes from derangement of the feminine organs.

Many thousands of women have realized this too late to save their beauty, barely in time to save their lives. Many other thousands have availed of the generous invitation of Mrs. Pinkham to counsel all suffering women free of charge.

MRS. H. J. GARRETSON, Bound Brook, N. J., writes: "DEAR.

MRS. PINKHAM-I have been taking Lydia E. Pinkham's Vegetable Compound with the best results and can say from my heart that your medicines are wonderful. My physician called my trouble chronic inflammation of the left ovary. For years I suffered very much, but thanks to Mrs. Pinkham's Vegetable Compound and kind advice, I am today a well woman. I would say to all suffering women, take Lydia E. Pinkham's medicine and your suf-

"DEAR MRS. PINK-HAM-For four years I suffered from ulceration of the womb. I became so weak I could not walk across

the room without help. After giving up all hopes of recovery, I was advised to use Lydia E. Pinkham's Vegetable Compound and wrote for special information. I began to improve from the first bottle, and am now fully restored to health."

"To Save Time is to lengthen Life," Do You Value Life? Then Use Ten Beaus For Every Girl in Idaho.

With the bachelors outnumbering the maids in every State of the Union it ought to be easy for the unmarried "For six years I was a victim of dys-pepsia in its worst form. I could est nothing but milk toast, and at times my stemach would not retain and digest even that. Last March I began taking CASCARETS and since then I have steadily improved, until I am as well as I ever was in my life." woman to secure a partner anywhere,

۵

but the region where bachelors are most in excess is, of course, the most favorable to the spinster, since the abundance of unmarried men gives her a wider range of choice. From a matrimonial point of view Idaho is the best State of the Union, for there the number of the bachelors is to that of

the maids as 16,584 to 1426, each unmarried woman in Idaho, therefore, having ten or eleven bachelors, not exactly at her beck, but available as a husband. From most points of view the West is the Mecca of the young unmarried woman, for not only are there more unmarried men in the

Western States, but a living is more easily made in the West than in the East, and therefore the Western men are more addicted to matrimony,-

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALI-FORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company-

paper (to be had at any store), pressing the soil about the paper. After five minutes remove the paper carefully in order not to tear it and rinse quickly with water. If the blue color has disappeared and a red one taken its place, the need of lime is probable. The fingers should never be touched to the end of the paper to be inserted in the soil, for they alone will redden it intensely.

uecary

It would also be well to test as follows: Take two glasses, place three teaspoonfuls of soil in each and add water till half full; to one glass add two tenspoonfuls of ammonia water, to be obtained of any druggist, stir both thoroughly and again five minutes later. Allow them to settle and if the one to which ammonia was added gives a black inky looking liquid, and the other settles out nearly clear, further evidence of the need of lime is given.

The first test should be relied upon if but one is used, but if the second agrees with the first, the case is so much the more certain. Where lime is lacking, beet leaves often turn red and many of the young plants die; lettuce plants also often do the same.

On light, sandy soil from 1000 to 2000 pounds of air-slaked lime may be applied on the farrows and harrowed in, preferably in the autumn. On heavier soil from one to two tons per acre may be used in this manner. On heavy and moist soils, there is less danger from spring applications than on light ones. If air-slaked lime is not to be had, ordinary builders' lime will answer, only the quantity may be reduced in that case to about twothirds the amount. Place the lumps in piles of forty to fifty pounds each and cover with moist soil. In a few days it will be sufficiently slaked so that it can be spread with a shovel. Harrow or cultivate in the lime at once. If there are any lumps, repeat the har-rowing or cultivating after two or three days, when they will have slaked so that the lime can be mixed with the soil. If the land is very dry, sprinkle each pile with about half a pail of water before covering it with soil. Twice as much of wood ashes as of airslaked lime, will also answer.

Potatoes planted on limed land should be treated with corrosive sublimate solution or formalin to prevent "scab." Watermelons should, if possible, be planted on unlimed land, or where the lime has been applied two or three years previously .- American Agriculturist.

Following Royal Precedent.

At a certain royal function in England the Queen had occasion to inscribe her name in commemoration of the event. Her Majesty-who was accompanied by the Princess Beatrice -having written "Victoria," was followed by the Princess, who, of course, incribed her name, "Beatrice." Noticing this the wife of a Mayor who was present inscribed her name, "Emma."

The physiological and mental effects of alechol are now fully and clearly proved by physicians and men of science, Alcohol is a recognized poison which impairs di-gestion, disintegrates the blood and lowers the strength. These are a few of the physiolegical effects. Alcohol also pro-duces a weakening and obscuring of the mind. It has been proved by repeated scientific experiments that it reduces the working capacity of the mind and body. The mental and physical stimulation which follows the absorption of alcohol is very brief and worthless. The physiological and mental effects

very brief and worthless. The idea that the moderate use of alcohol s harmless is now absurd. It injures a person exactly in proportion to the quan-tity taken, however small that quantity

may be. To-day one can not and dare not say that the use or alcohol is a personal concern only; that the moderate use is uninjurious; that every one knows what he is doing and needs no lessons from others. No, it is no longer a private affair. It is an affair of the greatest importance to the community. Whether they wish it or not, all men are lo-day divided into two camps-those who But by word and example against the purposeless use of a poison, and those who defend that poison by word and example. And we see this fight going on in every land. In Russia it has been carried on with especial energy for the last twenty years .- Leo Tolstoy.

The Great Destroyer of Anglo-Saxons. Mr. T. W. Russell, member of the Eng-ish Parliament, in an address at Belfast Ireland, referred to the history of the mem Ireiand, referred to the history of the mem-bers belonging to a young men's society in County Tyroze thirty-five years ago, and ieclared that everyone whose life had iurned out a failure had been ruined by drink. He described the appearance of the most brilliant of the youthful band labor-ing on a wharf at New York, brought low by the mocker. Drink had the country by the throat. When A. M. Sullivan lay on his death-bed he sent for the speaker, pointed out to him that the Irish party was going to be captured by the drinkwas going to be captured by the drink-power, and charged him never to give up the battle. The public house had become a more potent force in polities than church or chapel. The apathy of Christian men and ministers was astounding. The scorn and vengeance of a trade grown rich by widows' tears and children's ories were al most enough to make one quail. was the great destroyer of the Anglo-Drink "axor race; Satar's prime agency in the unmak-ing of men. The lecturer had chauged some of his views, but those on the drink question he had never modified in the slightest legree.

Notes of the Crusade.

The Imperialism in the saloon power is the imperialism to be dreaded. This country can take care of Aguinaldo easier than we can of the salponkeeper and his vast army. It is significant of the progress that tem-

perance agitation is making in Germany that 200 students of the University of Ber-lin have organized themselves into a total abstinence club, the first in the empire. The brewers who were so patriotic at the putbreak of the war are now kloking vig-prously against the additional war tax on beer. Their patriotism was only on the foam after all.

An Improved Electric Lamp.

A young German, Walter Nernst, a profeasor in the Goettingen University, has in-vented an electric lamp which does not revented an electric lamp which does not re-quire inclosure in vacuum, as is the case with the present glow lamp. The Nernst light is emitted by a rod composed of rare earths similar to those used in the manu-facture of certain gaslight mantles. These rods do not conduct electricity when cold, but only when heated. They give out a mild, yellowish light, and work equally well at any pressure, with consequent economy in copper.

Impervious to Bullets. A Frenchman has invented a bullet-proof cuirass.

Southern Hailway's New Train to the South. On March 12 the Southern Railway, in con-mection with the Pennsylvania Railroad, hegan to run a new train from New York to Charlotte, Columbia, Aiken, Augusta, Say. annah, Jacksonville and Tampa, with im-mediate connection at Jacksonville for St. Augustine, Paim Beach, Miami and other points on the east coast of Florida. It leaves New York at 2,50 P. M. daily, ar-rives at Augusta the following day at 2,46 P. M. Savannah 215 P. M. and Jacksonville 7,40 P. M., making immediate connection with the "Miami Limited," on the Florida East Coast Railway for St. Augustine, Miami and other points. Fullman drawing-room sleepers from New York to Aiken and Tampa. The Southern Bailway is occurating four

sleepers from New York to Alken and Tampa, The Southern Railway is operating four fast passenger trains daily to the South, in-cluding the celebrated "Florida Limited," giving the traveling public the very best service ever enjoyed, Full information from Alex.
