Auditors—JAMES R. CLARK, GEO. L. KING.
Jury Commissioner—GEORGE W. DUNKLE.

THERE have been traitors in all wars, says a contemporary. They have never yet prevented the rightful settlement of an American war, though they are more of a nuisance than if they fought their country openly.

INSTEAD of men standing around and complaining that they cannot get work now, employers are complaining that they cannot get men enough in many cases to do their work. This is a big improvement on the times of the last five years.—Ridgway Advocate.

OUT in Mercer county last Saturday the Republicans held their primaries—a pretty warm scramble all round. The ticket nominated is one which seems to please all factions, and the two delegates elected to the State convention are Senator Quay's friends.

The Pittsburg Dispatch, one of the most rabid anti-Quay papers in the State, has knowledge through its Washington correspondent, who has made a canvass of the United States Senate, that Mr. Quay will be seated on the Governor's appointment. This would seem to be reliable, coming from such a source.

THAT pesky gold reserve continues to contradict the predictions of the silver prophet, aggravating the offence by keeping up a steady increase, and it is now more than \$246,000,000. What with this state of affairs, the increase in the per capita circulation, and the stability of American money, Bryan and his disciples haven't a leg left to stand on.

GOVERNOR STONE has approved a bill regulating the sale of butter produced by taking original packing stock and other butter and melting them so that the butter oil can be drawn off, mixed with skimmed milk or other material and by emulsion or other process, produce butter, and butter produced by any similar process and commonly known as "bolled" or "process" butter.

THE health of President McKinley is causing considerable uneasiness among his close friends in Washington, and he has gone to spend a vacation of two or three weeks at Hot Springs, Va. He is suffering from an attack of rheumatism brought on by overwork. He desires, and actually needs, perfect rest, while the hot baths will remove the rheumatism tendency, it is hoped.

In his last statement Geo. K. Van Horn, the murderer who was hanged at Scranton last Thursday, said: "To everyone I would say: Leave the wine cup alone. This has been the curse of my life. To the young I would beg them to shun evil company. Had I heeded the advice of the Book of Books I would not be here to-day. I would not have lived a life of debauchery if I had been true to my mother's counsel." This is good advice.

DIPLOMATIC relations between the United States and Spain will be resumed within a few days. A Spanish Minister will be in Washington and an American representative will be in Madrid in a few days. This will be a pleasant occasion for the two countries. War is exceedingly disagreeable to the United States, as it is to all other civilized nations. The conditions in this country will undoubtedly be made particularly agreeable for the new Spanish diplomat.

THE sale by Andrew Carnegie of Pittsburg of all his interests in the extensive steel works with which he has been connected, to H. C. Frick was consummated last week, the consideration being reported at \$100,000,000. Mr. Carnegie's reasons for selling are said to be an aversion to entering a trust, which is proposed to form out of the great steel concerns of this country. A company capitalized at \$500,000,000 has been planned, which if it goes through will absorb about everything in that industry. These are prodigious figures and it would almost seem must fall beneath their own weight.

THE Executive Committee of the "Honest Government" party, that ran Dr. Swallow for Governor last year, and succeeded in cutting down Mr. Jenks' vote considerably, has gone out of business, disbanded and quit politics. Before disbanding a financial statement was given the public showing an expenditure of about \$19,000, a figure that indicates that the modern reformer finds it necessary to keep the machinery well oiled if any kind of political work is to be accomplished. \$19,000 is a pretty round sum when it is considered what was accomplished in winning votes, not to take into account the much larger sums expended by individual attempts to help on the cause.—Brookville Republican.

THERE has been an increase of \$1.76 per capita in the circulation of the country in the past twelve months. It now amounts to \$25.45. Business is gaining at a rapid rate, but the growth in the currency keeps pace with it. Moreover the money which is in circulation is all so safely anchored to the gold standard that the people prefer all other sorts of it to the actual gold coin. This is a widely different sort of a condition from that which prevailed in 1896, when Bryan was making his assault on the monetary stability of the country. The Republican victory in that year is responsible for the business activity and expanding currency. So long as the Republicans remain in power the financial and general business conditions will remain satisfactory. Happily the indications are that they will control the government for many years to come.

Gov. Stone issued recently another batch of new laws. Here is a partial list of those signed:

- For the punishment of those who injure or obstruct bicycle side paths.
Regulating the fees of justices in vagrancy cases.
Prohibiting the sale of goods in second hand bottles.
Extending factory inspections to the sweat shops.
Requiring side walls to be thirteen inches wide.
Making it unlawful to advertise as a lawyer unless admitted to practice.
Dividing townships into two classes.
For the keeping of separate dockets to record tax liens against real estate.
Relating to the annexation of adjacent ground by boroughs.
Amending the prison labor act.
To provide for the computation of election returns within a district composed of two or more counties.
To authorize county officials to withhold fees from persons indebted to the county.
Authorizing guardians to support the wife and children of feeble-minded persons.
To exempt hired typewriting machines from levy or sale.
Relating to the purchase by the State of unseated lands for forestry purposes.
To provide for the organization of the National Guard.
Adding a member of the State Poultry Association to the State Board of Agriculture.
To provide for the continuation of the publication of the Pennsylvania Archives.
Relating to the condemnation of turnpikes located on the line dividing two counties.
The two local option bills relating to Potter county and Connersport.
Authorizing the geological survey of the State in co-operation with the United States.

Providing a penalty for prisoners who escape while employed outside of jails or workhouses.

Amending the act for the incorporation of boulevard companies.

Relating to the construction of county bridges.

To prevent the spread of contagious diseases among fruit trees.

Compelling transient retail merchants to take out a license and providing a penalty for neglect.

Repealing the act of 1897 relating to the grading and paving and opening of streets.

Requiring deeds and other conveyances of real estate to be recorded with the County Commissioners.

Permitting wire fences along the public highways.

To provide for the improvement of the main traveled public roads.

Requiring written notice to be served on supervisors on the proposed opening of new roads.

Requiring aldermen and justices of the peace to stamp all warrants granted with an official seal.

For the imposing of a mercantile license tax.

GOVERNOR STONE is swinging the veto axe in lively style these days. He has till the 20th of this month in which to pass upon the legislation left upon his hands by the recent session, and with his present rate of speed will finish up long before that date. One of his latest vetoes is the bill to prevent school directors from fixing the salaries of county superintendents at less than \$1,500 per annum. On this question the Governor says: "I am of the opinion that there is no reason for presuming that the school directors of any county are not capable of fixing the value of the services of the county superintendent. In my judgment there has been no such abuse of their prerogative in this particular as justifies me in approving a bill which is a reflection upon their intelligence or their fairness." And it will doubtless occur to the average mind that the Governor's head is level.

THE attempt of Edward Atkinson of Boston to send our soldiers in Manila pamphlets filled with treasonable matter against the policy of the government in its treatment of the Filipinos is referred to by the N. Y. Tribune as follows: "Perhaps it is after all, best that the government should for the present be thus lenient with these amateur traitors. Really it is more severe with them than it seems. For it is denying them the martyrdom which some of them so much crave. It is preventing them from doing the mischief in the Philippines which they would so much like to do. And it is splendidly expressing the contempt with which it and the overwhelming majority of the American people feel for them by letting them go on with their spiteful sputtering all they please in this sphere, where their insignificance and impotence and the utter futility of vituperation are all well understood. All the same, they will do uncommonly well to take this long-delayed action of the government as a wholesome warning."

POOR Bryan's soul is being tried in various ways these days. Even silver is going back on him. It is going up like all other things, especially wages, in these days of Republican prosperity. Bryan got a bad blow just after his defeat in 1896, when wheat and many other commodities advanced in price. The advance, as everyone knew, was largely due to his overthrow. A year or so afterward, when Republican legislation began to operate, wages started upward. Now silver has joined the procession. The consequence of this last advance will be that if it continues much longer Bryan will have to drop talking about silver. When silver goes above the 50c dollar line, as it may do if the advance continues a little longer, he will have to abandon it. It is not a silver dollar primarily that he wants for the wage earners of the country, but a dishonest dollar. The moment that silver gets above the 50c dollar mark his faith in it will begin to wane. It will be getting too near the honest money line then to be of much use in his business. If we are to have the 16 to 1 trickery in the canvass of 1899 silver will have to start downward long before that time.—Globe Democrat.

oddy tears are rolling down the cheeks of the Democratic and mugwump editors these days, over the removal by Governor Stone of John C. Delaney, Superintendent of public grounds and buildings at Harrisburg. For the past fifteen years, ever since Delaney has held a fat position "on the Hill," these same editors have been lampooning him right and left, but now that Mr. Delaney has had quite enough of a good thing they pretend to believe it is an awful bad slap at a veteran soldier. It's a wonder these tear-stained mugs hadn't thought of this when they were hoping vilest slanders upon the now officially decapitated Delaney.
