PARIS, May 30 .- The argument for a rehearing of the Dreyfus case is fairly under way in the French court of cassations. Considerable time was occupied by M. Ballot de Beaupre in reading extracts from and analyzing the statement of M. Mornard, counsel for Madame Drevfus, which was a lengthy recital of facts already fully published. After reading M. Mornard's defense which concluded by maintaining that the material evidence of the bordereau and the moral evidence cropping out during the inquiry pointed not to Drey fus, but to Esterhazy as the culprit, M. Ballot de Beaupre dealt with the question of motive. He read the polic report furnished by M. Guenee, the de tective, and unfavorable to Drevfus. and reports of the prefecture of polic pointing out that there had been a con fusion of Dreyfus with others of th same name who had been mixed up with gambling and disreputable female associations. That Coal Differential Question Is Tet Far From Settlement.

PITTSBURG, May 26 .- The settlement of the differential question is still a matter of conjecture. A conference of the miners and operators was to have been held, but is was postponed indefinitely on account of the non-receipt of the ultimatum of the thin vein operators. There was a rumor current that the thin vein operators had sent a communication to Secretary Dodds of the United Mine Workers, President Dolan denied any knowledge of it, and the secretary is out of the city.

It is the general opinion that the thin vein men have not changed their views on the differential question. President Dolan, who is conservative on the matter of strikes, said that the whole trouble could have been settled in a week by ordering a general strike in all the mines, pending the adjustment of the question

condition of business said: "In my opinion, the miners throughout the country, especially in this district, have a very encouraging future before them. It is likely that both the market and shipping price on coal will advance and operators will be in a condition to give a raise of 5 per cent. The Berwind White company has taken the lead in the matter, and I have little doubt but

is due to the rushing of coal for the lake trade. Some 25 carloads were shipped to lake points by local dealers. The settlement of the Buffalo strike has caused a big rush of coal to this and other points along Lake Erie. Over 1,000 cars of coal were slipped over the various railroads to the lakes. The demand is said to be greater now than in years past and prices are said to be going up on all coal sold, and an increase of 10 per cent is looked for on

skill has been called upon by English capitalists to assist in the development of the valley of the Nile, in Egypt, Two trains, each of 50 steel cars, has just started from here for the seaboard to be shipped to that far-off land. These cars were manufactured at the Woods Run plant of the Pressed Steel Car company and are for the Egyptian Railway company. They will be run to Jersey City on their own wheels, and there placed on board ship for transportation to Alexandria. The consignment represents a contract of over \$100,000. The cars will make up almost the entire cargo of one ship, their aggregate weight being nearly 2,000 tons. The steamship line of Ber-ber &Co. New York, will convey the cars from Jersey City to Alexandria.

All of the cars are of one pattern of the gondola class. The Woods Run plant has been run to its fullest capacity day and night in getting the cars ready for early shipment. R. D. Wilson, an English mechanical engl-

INSURGENTS AGAIN ACTIVE.

They Are Rapidly Resewing Their Guer-

rilla Warfare on Our Outposts. MANILA, May 29 .- The approach of the wet season finds the insurrection seemingly taking a new lease of life All along the American lines the rebels are showing more aggressive activity, in their guerrilla style than at any time before since the fall of Malolos. They keep the United States troops in the trenches, sleeping in their clothing, and constantly on the alert against dashes upon our outposts, and

they make life warm for the American garrisons in the towns. As it was impossible to take to Spain the remains of the Spanish general, Montero, who was fatally wounded in a recent engagement with the Filipinos

in the island of Mindanao and who died while being brought here from Zamboanga on the transport Leon XIII, it was decided that the interment should take place in Manala. The fun eral took place here, hundreds of Spanish soldiers and civilians attending the services in the cathedral and following the cortege to the grave with wreaths and flags.

The Spanish papers declare that Montero was a victim of the Spanish government's neglect.

PARIS STILL FAST. No More Efforts Will Be Made to Re

COVERACK, Cornwall, May 29,-The ninth attempt to float the American line steamer was made and proved an utter fallure. Her bow is absolutely impaled by the rocks. Five tugs were used in the endeavor to tow her off, three others standing by for an emergency. Her boilers, excepting those used for the pumps, were emptied to lighten the ship.

The effect of the strain of last week's attempts is apparent in the increase of water in the engine room. Efforts to pull her off will now be discontinued and it is proposed to concoct some plan for lightening the vessel. The pertinacity of the attempts to tow the liner has caused considerable surprise among experts here, owing to the impalment of the bow as her re-

not produced at the trial in 1894. M. Ballot de Beaupre then pointe out that Dreyfus could not have acted as a traitor from anger or disappoint. ment, as he had the finest prospects of an excellent military career. On the other hand Esterhazy, the reporter alleged, was a soldier of fortune, always begging from the money lenders.

Continuing, the reporter read letters written by Esterhazy abusing France and the French army, these producing a deep impression upon the audience He referred to a letter written by Es terhazy to Baron Rothschild, dated June 21, 1894, to the effect that if his application for money were refused he would have no resource but to kill his family and then to commit suicide Such, said the reporter, was Esterhazy's language on the eve of the date when the bordereau was "placed." The 27c inference to be drawn was that Ester hazy sought in treason resources nec essary to carry on a life of dissipa

tion At this point, with the evident appro val of all who listened, M. Ballot d Beaupre quoted from M. Mornard's statement as follows:

"Although justice has been rendered more or less impotent with regard to Esterhazy by the latter's acquittal o the charge of being the author of the bordereau, it is none the less the duty of the supreme court to restore to liberty an innocent man unjustly con demned."

The Egyptian Railway company is composed of English capitalists, who are developing vast coal and iron territory in Egypt. The successful campaign of the English in that countryrecently has thrown open a great field that heretofore could not be reached. The railway company is fast extend. ing its line to the interior and the Pittsburg cars will be used in bringing out coal and ores.

This is the first shipment of any consequence of American cars to a foreign country and it is looked upon as the beginning of a new class of trade abroad. As Pittsburg has a good lead in the steel car industry, the manufacturers of this section will likely get the greater part of this new foreign trade.

tig Deal Under Way.

LANCASTER, Pa., May 27 .- A syndicate said to be headed by State Senator Flinn of Pittsburg and Charles Porter and Dr. Filbert of Philadelphia have made overtures for the purchase of the three mills at Columbia owned by the Columbia Rolling Mill company, the Susquehanna Iron company and the Columbia Iron company. The Au rora furnace at Wrightsville and the Vesta furnace at Watts station are also said to be included in the deal.
