#### NO CONFERENCE HELD.

#### That Coal Differential Question Is Yet Far From Settlement.

PITTSBURG, May 26 .- The settlement of the differential question is still a matter of conjecture. A conference of the miners and operators was to have been held, but is was postponed indefinitely on account of the non-recelpt of the ultimatum of the thin vein operators. There was a rumor current that the thin vein operators had sent a communication to Secretary Dodds of the United Mine Workers. President Dolan denied any knowledge of it, and

the secretary is out of the city. It is the general opinion that the thin vein men have not changed their views on the differential question. President Dolan, who is conservative on the matter of strikes, said that the whole trouble could have been settled in a week blown to atoms by a premature blast by ordering a general strike in all the mines, pending the adjustment of the question.

> A local dealer in viewing the present condition of business said: "In my opinion, the miners throughout the country, especially in this district, have a very encouraging future before the.n. It is likely that both the market and shipping price on coal will advance and operators will be in a condition to give a raise of 5 per cent. The Berwind White company has taken the lead in the matter, and I have little doubt but the other operators will follow."

The present outlook in the situation is due to the rushing of coal for the the Chinese at Kiao Chau, the German lake trade. Some 25 carloads were port in the Shan Tung peninsula. It shipped to lake points by local dealers. The settlement of the Buffalo strike has caused a big rush of coal to this and other points along Lake Erie. Over 1,000 cars of coal were shipped over the various railroads to the lakes. The demand is said to be greater now than in years past and prices are said to be going up on all coal sold, and an increase of 10 per cent is looked for on all new contracts.

#### American Skill to the Front.

PITTSBURG, May 27. - Pittsburg skill has been called upon by English capitalists to assist in the development of the valley of the Nile, in Egypt, Two trains, each of 50 steel cars, has just started from here for the seaboard to be shipped to that far-off land. These cars were manufactured at the Woods Run plant of the Pressed Steel Car company and are for the Egyptian Railway company. They will be run to Jersey City on their own wheels, and there placed on board ship for transportation to Alexandria. The consignment represents a contract of over \$100,000. The cars will make up almost the entire cargo of one ship, their aggregate weight being nearly 2,000 tons. The ascamahip line of Berber &Co., New York, will convey the cars from Jersey City to Alexandria.

All of the cars are of one pattern of the gondola class. The Woods Run plant has been run to its fullest capacity day and night in getting the cars ready for early shipment. R. D, Wilson, an English mechanical engineer, was sent here by the Egyptian

Arrival of Transports. MANILA, May 30 .- An order has been issued re-establishing the Philippine courts, which have been closed since the American occupation. It revives all of the Spanish system which does not conflict with the sovereignty of the United States. The chief justice is Cayetano Arrelano. The associates of the civil branch are Manuel Araulia, Colonel Crowder and Gregorio Aranita. The justices of the criminal branch are Raymundo Melliza, Ambrosio Rianzares, Juilo Llorento, Major Young and Captain Birkhimer. The attorney general is Florontio Torres. This corresponds with the American supreme court.

INSURGENTS AGAIN ACTIVE.

#### They Are Rapidly Renewing Their Guerrilla Warfare on Our Outposts.

MANILA, May 29 .- The approach of the wet season finds the insurrection seemingly taking a new lease of life All along the American lines the rebels are showing more aggressive activity, in their guerrilla style than at any time before since the fall of Malolos. They keep the United States troops in the trenches, sleeping in their clothing, and constantly on the alert against dashes upon our outposts, and they make life warm for the American

garrisons in the towns. As it was impossible to take to Spain the remains of the Spanish general, Montero, who was fatally wounded in a recent engagement with the Filipinos in the island of Mindanao and who died while being brought here from Zamboanga on the transport Leon XIII,

it was decided that the interment should take place in Manala. The funeral took place here, hundreds of Spanish soldiers and civilians attending the services in the cathedral and following the cortege to the grave with wreaths

The Spanish papers declare that Montero was a victim of the Spanish government's neglect.

#### Captain Tilley Missing.

WASHINGTON, May 29.-General Greeley has received a cablegram from Major Thompson at Manila reporting that a party landing for the repair of the cable at Escalante, island of Negros, has been treacherously attacked by natives, and Captain George H. Tilley, signal corps, is missing, and that worst is feared. Tilley's services th in the Philippines have been marked by such ability, courage and zeal that his superiors placed him in the fore-

most rank of subordinate officers.

#### PARIS STILL FAST. No More Efforts Will Be Made to Re-

COVERACK, Cornwall, May 29 .- The ninth attempt to float the American line steamer was made and proved an utter failure. Her bow is absolutely impaled by the rocks. Five tugs were used in the endeavor to tow her off, three others standing by for an emergency. Her boilers, excepting those used for the pumps, were emptied to lighten the ship.

The effect of the strain of last week's attempts is apparent in the increase of water in the engine room. Efforts to pull her off will now be discontinued and it is proposed to concoct some plan for lightening the vessel. The pertinacity of the attempts to

tow the liner has caused considerable surprise among experts here, owing to the impalment of the bow as her removal by towing must mean, in the opinion of experts, the tearing off of the bow.

He was picked up by a river steamer, and when the boat reached her dock Kretz sprang on to the wharf. He was taken into custody. He was suffering from shock, but had received no apparent injury. Kretz is about 5 feet 8 inches tall and

weighs 140 pounds. He lives in this city. He said that he had been reading a book on theosophy and that he wanted to demonstrate that a man, by exercising his will power could do anything he wished without injury to him.

#### MARRIED, NOT BURIED.

Results of a Blunder In a Private Telegraphic Dispatch. POUGHKEEPSIE, N. Y., May 25. Edward McIntyre, 23 years of age, went from here to Wallaceburg, Canada, two years ago. Tuesday an unsigned telegram came to his parents saying "Edward to be buried Wednesday. Come if you can."

Supposing his son to have died, John McIntyre, the father, started for Canada to bring the body home, while the mother and sister ordered mourning gowns and made arrangements for th funeral. A telegram came from McIntyre, sen-

lor, saying that the word "buried" in the first dispatch should have read "married" and announcing that he arrived in Wallaceburg just in time to give his son and bride the parental blessing. Mrs. McIntyre fainted when she heard the good news.

#### Niagara Frontleraman Dead.

NIAGARA FALLS, May 27 .- Vincent M. Porter, one of this city's best known and wealthiest men, a member of the Porter family, prominent for many years on the Niagara frontler, died at the family home on Buffalo avenue after a lingering illness. Mr. Porter was born in this city July 14, 1851. He was a graduate of Union college at Schenectady. He is survived by a widow, who was formerly Miss Kirkpatric of Toronto, niece of Ex-Lieuten ant Governor Kirkpatrick of Ontario and two sisters, Mrs. John Osborne of Auburn, N. Y., and Mrs. Arthur Robinson of Rochester.
