reach them.

THERE will be no encampment of the national guard this year. The new law provides for an encampment next year and Adjutant General Stewart says it will be a division affair and one of the greatest ever held in the state.

THE Republicans of McKean county have endorsed Judge Thomas A. Morrison as their favorite for Supreme Court Judge, and will urge his claims with vigor before the ensuing State convention, which will be held in August. He is an able jurist and should the nomination go to him the party would have a strong candidate.

Over in Clarion county last Saturday the Democratic county committee elected delegates to the State convention opposed to Guffey, the present "boss" of the Democratic party of the State, who cuts his hair long, wears a Buffalo Bill hat and has lots of money. Clarion was Guffey's former home, and it was thought he'd have no trouble in gobbling up the whole thing easily.

Each month the treasury publishes a report of the money in circulation and an estimate of the national population. On May 1, according to this authority, there were 75,875,000 people in the United States, an increase of 138,000 for April, and of 545,-000 for the four months of the calendar year. Counting new possessions, the census of next year will be in the neighborhood of 85,000,000.

HON. JOHN Q. STEWART, deputy Supt. | Come. of Public Instruction, does not take the ordinary gloomy view af the reduction of the school appropriation by the Governor. He insists that the School Board that reduces the salaries of the teachers, or in any way modifies the school facilities during the next year, will have absolutely no excuse. He says, on the contrary, that they should provide all the facilities possible and make such liberal provision in the way of compensation as to secure the best teaching talent. Mr. Stewart, discussing the proposition that many school districts do not levy any school tax whatever, says that this is true with respect to only three or four districts in the State.

The Counties Still Voting.

Isn't it about time that the Flinn-Martin insurgents were electing a few delegates to the State Convention? They held up the Legislature for nearly four months, they blocked legislation, they made it necessary for the Governor to reduce the public school appropriations cheap. and they flooded the State almost daily with proclamations and declarations and interviews claiming that they represented the people.

A little singular, is it not, that the peo ple are not rushing to their support? We wonder how they account for the fact that up to date they have not carried a single primary election, and by the vote of the Republicans in the counties have not elected a single delegate. Cumberland county has just been added to the antiinsurgent list. Adams has fallen into line and Northumberland by resolution able him to make a start in civil life. Wherever a contest has been made the Flinn bolters have been repulsed and repudiated. EXPERIMENTS in wireless telegraphy

We should think that these insurgents would begin to understand by this time that they are regarded with suspicion by the Republicans of Pennsylvania. With no support in the State, with Martin thrashed out in Philadelphia, what a beautifully lonely time Flinn will have
