CUBAN private soldiers are accepting the money offered by the United States in spite of the efforts of officers to prevent it. They also willingly deliver up their arms, which is a hard blow to mischief-making leaders.

WHAT Admiral Dewey has said about the United States keeping the Philippine islands will have vastly more influence with the people of the country, than what the un-American mugwumps could say if they were to talk from now until doomsday.

COL. ROGERS of the Kane Rapublican puts it very pointedly in this wise, and which tax shall be paid to the county everyone who is acquainted with the treasurer. facts will agree with him: "If Gen. Frank Reeder, late Secy, of the Commonwealth, is made chairman of the Republican State Committee, the party will be organized for an old fashioned victory. Then again it will be something of a vindication for the dirty treatment he received from the late State administration."

THE Republicans of Ohio nominated a very popular ticket at their State convention last Friday. There was some contest on the Gubernatorial nomination, but Judge Nash, a strong friend of President McKinley, won on the second ballot. The ticket is as follows and will be triumphantly elected next fall: Governor, Geo. K. Nash of Franklin county; Lietenant Governor, John A. Caldwell of Hamilton couniv : Auditor of the State, W. D. Guilbert of Noble county; Treasurer of State, I. B. Cameron, Columbiana county; Attorney General, James M. Sheets of Putnam county; Judge of Supreme Court, W. Z. It's about the same old story wherever the contest is raised. Down in Chester county, where all the members of the last legislature affiliated with the insurgents, the Republican primaries were held last Saturday and every delegate elected is a friend of Senator Quay. And up in Luzerne county, the home of the lightweight Coray, who has rattled around in two sessions of the legislature as the especial champion of the dear kickers, and posed as about the only honest man in the house, the insurgents were buried out of sight at the Republican primaries held Saturday. Not an anti-Quay man will be found in the delegation from there when the convention takes place in Harrisburg. Isn't it about time the Fiinn-Martin gang were electing a representative to the convention? Why don't the Train will leave Tionesta at 8:52 a. m. insurgents insurg?

It in almost universally acknowleged that Abraham Lincoln was the greatest President that this country ever had. He certainly has a warmer place in the hearts of his contrymen than even Washington. One reason for this is that Lincoln was a genial humorist. While earnest, sincere, sympathetic and devoted to the great task before him, he was never gloomy. In the midst of his sorest trials he could always find occasion to tell a Nickle Plate Road Excursion to Califunny story and let a little genial sunshine through the rifts in the black storm National Educational Association Conclouds of war. Pennsylvania's Side Path Law.

At the request of some readers, we give the substance of the law enacted by the Pennsylv nia legislature for the construction and maintenance of side paths along highways in the townships, for the use of bicycles and pedestrians.

Upon a petition signed by at least 25 freeholders, residents of the county in which such petition shall be presented, who are also riders of bicycles, the Court HUNDREDS of millions were spent by shall appoint three resident wheelmen, one to serve for one year, one for two cent war and not a dollar is known to have years and one for three years, to be

These commissioners shall keep a record of their meetings and shall have general supervision of the construction and maintenance of side paths in the townships of their respective counties and shali serve without compensation other than their actual necessary expenses.

It shall be the duty of assessors of the townships, boroughs and cities in the counties in which side path commissioners shall have been appointed to assess in books resident taxables with all bicycles owned by them and make a complete return of same.

The commissioner aforesaid shall levy a tax not to exceed \$1 on each wheel annually or so much thereof as shall be recommended by such path commissioners,

The fund so raised to be called a "Side Path" fund, and to be used by the side path commissioners in constructing and maintaining side paths.

All paths so constructed shall be built along the sides of highways in townships between the roadway proper and shall be not less than three feet wide nor more than six feet wide, measuring from outside to outside of ditches.

The Venango Spectator finds that taking "the State altogether, there is not much of a furor for the side path law. The kicking comes from the wheelmen themselves. They claim that nine-tenths
