

A NEW MAN HUNT BEGUN.

Governor Stone and Mayor Ashbridge Are Now Insurgent Marks.

TACTICS SAME AS IN QUAY'S CASE.

A Hilarious Yarn Put Out Intended to Discredit the State's Executive and Philadelphia's Chief Magistrate Attacked For His Independent Political Course.

(Special Correspondence.) Philadelphia, June 13.—Since it has been demonstrated that the insurgents will not have an earthly show to influence the action of the Republican state convention in any particular, they have taken up an old line of work, or, at least, have concluded to direct their best efforts to the prosecution of a branch of their guerrilla campaign in which they have displayed their greatest capabilities. They have inaugurated a scheme to carry their man hunting tactics even further than they have heretofore gone to advance the selfish interests of the ambitious coterie who furnish the cash to keep the various bureaus in operation. The leaders of the Republican party in Pennsylvania are to be maligned and traduced by various misrepresentations and uncalculated assaults, so as to weaken them with the people and at the same time discredit the regular organization and handicap the movements of the party generally. It is now patent that the insurgents cannot be a factor in the Republican state convention and that their aim is to create a feeling of suspicion and distrust in the minds of the voters, so that they may more readily carry out their plans for an alliance with the Democracy, not only to defeat the Republican nominee for state treasurer this fall, but to further their grand project to elect fusion members of the legislature next year, where they shall be unable to name or control the Republican nominees for the senate and the house.

MUST HAVE MORE VICTIMS.

The campaign of vituperation and abuse which was waged against Senator Quay during the last few years is to be continued, but among their insidious and venomous attacks are several distinguished Republicans who have been honored by their party, and who have led its forces to victory on many occasions.

The insurgents realize that the power of the faction which they represent has been steadily on the wane for a couple of years. They started out with the governor of the state and his entire cabinet and nearly all of the subordinate officers on "the hill" at Harrisburg, giving them hearty co-operation and support in every political move they made against Colonel Quay and the other leaders identified with the regular Republican organization. They had the backing of the immense patronage and public franchises of the two largest cities of the commonwealth, Philadelphia and Pittsburg, and they had, through this power, a hold upon some of the greatest corporations in the state, with an almost unlimited supply of free railroad transportation at their disposal.

But mark the change! Hastings, McCormick and Martin are no longer in office at Harrisburg. The regulars, with Stone, Elker and Grist, are now in absolute command of the offices at the state capital. They were placed there by the votes of the Republicans of Pennsylvania, and they propose to show that the confidence and responsibility reposed in them has not been misplaced.

IN THIS CITY THERE HAS ALSO BEEN A COMPLETE POLITICAL REVERSAL.

MARTIN'S FRIEND OUT. Warwick, who backed David Martin's political machine with all the pull of the thousands of place holders in the various city departments, has been supplanted in the mayor's office by Ashbridge, who won his nomination and election as the Republican candidate for mayor by a direct appeal to the people and who was given the office by the largest majority ever accorded any aspirant for office in the Quaker City. With the overthrow of Warwick came the downfall of Martinism. Martin no longer rules with undisputed sway in the City Hall. He is treated with due courtesy and consideration, but must take his place in line with other citizens and taxpayers when he now calls at the mayor's office.

The people have begun to realize that this is a popular administration, and that any Republican, so far as political matters are concerned, stands upon the same footing before the mayor.

Pittsburg, alone, through the influence of Magee and Flinn, stands by what is left of a once powerful political machine, the remains of which make up the practical part of what is known as the insurgent organization. Besides the few officeholders still standing by Martin in the positions independent of the Ashbridge administration Philadelphia furnishes the bulk of the insurgent newspaper backing and the money to run the machine.

After many inglorious defeats in their attempts to elect delegates to the state convention the insurgents, as previously stated, are now at work plotting to harass and destroy, if possible, the men in public office who refuse to bow to their will or obey their mandates.

The people are familiar with the incessant and unjustifiable attacks to which Governor Stone was subjected during the entire session of the legislature and the subsequent criticisms of the many vetoes of measures to

J. A. Schear of Sedalia, Mo., saved his child from death by using One Minute Cough Cure. It cures coughs, colds, pneumonia, influenza and all lung and throat troubles. Health & Killmer.

There is a time for all things. The time to take DeWitt's Little Early Riders is when you are suffering from constipation, biliousness, sick headache, indigestion or other stomach or liver troubles. Health & Killmer.

W. M. Gallager of Bryan, Pa., says: "For forty years I have tried various cough remedies. One Minute Cough Cure is best of all." It relieves instantly and cures all throat and lung troubles. Health & Killmer.

THE STATE CAPITAL

Democrats Take Possession of Harrisburg For the Week.

CREASY IS NOT POPULAR.

Straightouts in the Democratic Party Have Little Time For Him Because of His Associations With Republican Insurgents.

(Special Correspondence.) Harrisburg, June 12.—The town is filled with Democratic politicians, and there is great wire pulling going on for the nominations which will be made in the state convention to be held here tomorrow. There are over 30 candidates for the nomination for supreme court judge, and the indications are that Guffey's man, Creasy, of Columbia, will be nominated for state treasurer. While Guffey relies upon insurgent Republican help to elect Creasy, the campaign develops, if this candidate shall be chosen, it will be found that he will not have the support of many Democrats, particularly those of the stalwart type, who declare that Creasy is more of a supporter of Van Valkenburg, one of the managers of the Republican insurgents' organization, than he is of the Democratic party.

But all this will come out in the wash—that is, the shaking up Creasy will get if he ever receives the nomination.

"BOSS" FLINN SHOWN UP.

"Bill" Flinn, the Pittsburg political boss and highway contractor, who, when at home, dominates one of the most practical machines in American politics and while in the legislature at Harrisburg poses as a reformer, was shown up in his true character last week. The Republican nominating convention was held in Pittsburg, and, as of yore, Flinn was on hand to crack the whip and boss the job. He had a slate made out and it went through without much of a disturbance. Flinn presided, and one of his opponents in the convention gave him a rebuke for his political duplicity.

This anti-Flinn man said that he had admired Flinn's stand at Harrisburg against all slates and bosses; the speaker stated, however, that Flinn in Harrisburg and Flinn in Pittsburg seemed to entirely different creatures. He said that in the Smoky City Flinn wrote the slate and bossed the convention. He challenged successful contradiction of his assertion.

Flinn was enraged over the speech. He did not think it possible that any man in Pittsburg could have the temerity to attack Flinn, city contractor, boss and reformer. A dozen times he pounded the gavel and tried to silence the speaker, but without avail. The anti-Flinn man said that he did not propose to be bulldozed by Flinn nor by anybody else, and he spoke until he had finished all that he had to say. The expose created a sensation, and the Quayites will make use of it all over the state. It is to be issued in pamphlet form and the title is to be "Reformer Flinn, of Harrisburg; Boss Flinn, of Pittsburg." Doubtless it will be very widely read.

NO EXTRA SESSION.

When the organs of the Flinn-Martin insurgents get hard up for sensations they repeat the old chestnut that an extra session of the legislature is about to be called to settle the United States senatorship. They are at it again now with the piece of lunacy that President McKinley is desirous that this shall be done in order that there may not be any doubt about the seat.

It has been pointed out before that this is all very absurd. To call an extra session would require the expenditure of a large sum of money, and that money does not happen to be in the treasury. Besides, nothing can be accomplished. Since the acquittal and vindication of Senator Quay by the court, it is very certain that no member of the legislature who voted for him could be induced to change his vote. It is not at all improbable that some of those who trained with the Flinn-Martin insurgents are thoroughly ashamed by this time, and would not hesitate to vote for Quay now if they had an opportunity, but there would not be enough of them to break the deadlock. Boss Flinn still rules his little band of Allegheny county insurgents with an iron hand. Ex-Boss Martin will be able to control his little crowd of followers in Philadelphia until the legislative election next year. These two party wreckers working together can still prevent an election. Therefore there will not be an extra session.

Besides, congress will meet in December, and possibly earlier than that. Quay will certainly be seated by the vote of the senators and the question of succession will be fought out at the polls in November of next year. Judging from the manner in which Republicans are voting all over the state the election is not at all doubtful.

HENDERSON THANKS PENNSYLVANIA.

Colonel Henderson, whose election to the speakership of the house of representatives is now assured, has telegraphed a hearty acknowledgment of the action of the Pennsylvania delegation in swinging solidly into line in favor of his election at an important stage of the fight. While the western states are joining the Henderson forces

DeWitt's Little Early Riders act as a faithful pill should, cleansing and relieving the system instead of weakening it. They are mild and sure, small and pleasant to take, and entirely free from objectionable drugs. They assist rather than compel. Health & Killmer.

Kodol Dyspepsia Cure completely digests food within the stomach and intestines and renders all classes of food capable of being assimilated and converted into strength giving and tissue building substances. Health & Killmer.

Thomas Thurman, deputy sheriff of Troy, Mo., says if everyone in the United States should discover the virtue of DeWitt's Witch Hazel Salve for piles, rectal troubles and skin diseases the demand could not be supplied. Health & Killmer.

Do you appreciate good laundry work? If so patronize the Dunkirk Steam Laundry. Miles & Armstrong, agents.

CHAUTAQUA LETTER.

The Assembly Town Getting In Readiness For the 25th Session.

CHAUTAQUA FOLLOW THE FLAG

Tributes From Cuba and Porto Rico. The Memory of President Lewis Miller to Be Honored—A Corner Stone From Jerusalem—News Notes—Governor Roosevelt and Left-Handed Charlie.

CHAUTAQUA, N. Y., June 13. Tributes to Chautauqua that are especially appropriate in this, the American year of the assembly, have recently come from Cuba and Porto Rico and in them is manifest another phase of the widening circle of Chautauqua's power for good which will this summer follow the flag into these islands where its influence will become one of the factors of regeneration.

The assembly's department of instruction in a recent communication to the military governors of these islands, tendered the benefits of the Chautauqua summer schools without expense to teachers from their school who could be sent to the States. The official responses indicate the cordial spirit with which the suggestion was received by General Brooke and General Eaton. These letters are as follows:

"Headquarters Division of Cuba, Havana, May 13, 1900. 'I take pleasure in acknowledging the receipt of your letter of May 15, enclosing program of Chautauqua summer classes, and have referred the same to the Secretary of Justice and Public Instruction of this island, with request for compliance, so far as practicable, with your suggestions, which I trust will be fruitful of good results.

"Thanking you very much for your kindly interest, and very truly yours, 'JOHN R. BROOKER, 'Major General.'

"SAN JUAN, P. R., May 25, 1900. 'Your letters to General Eaton and myself received and we shall take pleasure in making your generous offer of instruction without expense to bona fide teachers from this island known to the people here through the public press.

"The war, the change of government and the present unsettled condition of the island have caused financial loss to many teachers, and the number we can send to the states is less than we might wish; but we hope that some may come and avail themselves of an opportunity to secure an insight into real American life at Chautauqua, unimpeded, I believe, elsewhere in America.

Very respectfully, 'Sub-Director of Public Instruction, 'An observance to take place at Chautauqua as a part of the 25th anniversary which will be especially gratifying to all Chautauquians will be the service commemorative of the life and work of the late Lewis Miller who, with Bishop Vincent, the present chancellor, was a founder of the Chautauqua assembly. This memorial service will be held Aug. 1 or 2 in the amphitheater.

It has been definitely decided that the corner stone of the Hall of the Christ will be laid with elaborate ceremony at the coming assembly, arrangements being now made for the exercises on Thursday, Aug. 10. The Honorable George R. Wendling, who is to deliver the address, will give his remarkable tribute to the life of Christ, 'The Man of Galilee.' The corner stone has been brought from Jerusalem, its two stones weighing over a ton. This, the first laying of a corner stone at Chautauqua, will be one of the most impressive services ever held on the grounds.

One but needs to walk through the streets of Chautauqua to learn that the reorganization of the management already means far more than the promise of improvements to come. The march of progress has passed over the town until the repairs and betterment of private property have become little less than epidemic. Every street vista through the woods shows enlarged cottages, added verandas or bright new colorings, tangible evidence of the renewed interest and activity which pervades all Chautauqua.

Chautauqua Notes. Dr. George Adam Smith, the biographer of Drummond, is to be in the country this summer, and will visit Chautauqua. A peculiar interest attaches to this visit because of the foundation of information in this peculiarly American institution. In the biography there are many allusions in Drummond's letters to his Chautauqua visit.

The national consciousness which has been aroused by the war with Spain, and the results growing out of it has given Americans a somewhat new point of view. Attention has been turned from relations with the nation as a whole and the larger outside world. It is interesting to note that Professor Arthur M. Wheeler of Yale is announced for a course of lectures on 'The Foreign Relations of the United States' from their foundation to the present time.

The following anecdote of Governor Roosevelt's former visit to Chautauqua recently appeared in the Buffalo Express: 'The announcement that Governor Roosevelt is to visit Chautauqua again next summer recalls an amusing incident of one of his former visits. There is probably not a small boy in this state who does not know of the governor's life in the West and of his prowess as a hunter and skill as a cowboy. It was natural that the boys of Chautauqua should be greatly elated over the coming of the hero of the summer in question and that they should beg him off to see one Left-Handed Charlie, another hero of theirs who lived in a house boat on the lake and spent most of his time telling thrilling tales of his adventures in the West. Governor Roosevelt quickly turned the conversation to the West and very soon discovered that Left-Handed Charlie was a fraud. The boys accepted the exposure with a good grace, but it was a severe blow to them and it is said, a long time passed before they fully forgave the governor for shattering their idol.'

Bad management keeps more people in poor circumstances than any other cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, the shifless fellow will wait until necessity compels it and then ruin his best horse going for a doctor and a big doctor bill to pay besides; one pays 25 cents, the other is out a hundred dollars and wonders why his neighbor is getting richer and he is getting poorer. For sale by all druggists.

What you want is not temporary relief from piles but a cure to stay cured. DeWitt's Witch Hazel Salve cures piles, and they stay cured. Health & Killmer.

Hopkins sells the shoes and rubbers.

THE MAKING OF GOLD BRICKS.

An Established Industry With Which the Law Does Not Interfere.

The making of the gold bricks with which confidence men rob the granger 'come ons' and even smart merchants and bankers has become an established industry. It is not a crime to make a gold brick. The crime only comes in when the spurious article is sold. The value of the standard 'bricks' would be about \$50 if composed of pure gold. The cost to the purchaser when the article is prepared for the market varies from \$10 to \$70 a brick, according to the value of the material used. The purchaser from the factory makes his terms with the victims.

'You want to know of the very best brick we turn out?' said a maker. 'Well, the best most likely to deceive is made from a copper and zinc mixture. It is not the most expensive, but it will stand knocking around for five years without losing tint or tone, and I tell you, it's pretty near the thing. Half a dollar's worth of gold is more than enough to do the job. Our science is known as water gilding because the last touch we give the brick is to chill it in cold water. We buy gold in leaves from the beater. These leaves we place in a crucible with mercury, seven parts of mercury to one of gold. The mercury is first heated, and under the action of a furnace the mixture is made red hot. Then it is allowed to cool down. We squeeze the amalgam through chamois leather for the purpose of getting the superfluous mercury, and the gold, with twice its weight of mercury, remains behind. It is then a yellowish mass of the consistency of butter, and with this the metal is coated with a brush. This is the first step in turning the brick into gold.

'After receiving the first coat the brick is subjected to a strong heat for the purpose of evaporating the remaining mercury. It is then in fine form, but far from perfect. There will be little irregularities, and these are removed with a delicate brass brush. After the brushing a lack of true golden tone is apparent, but we have an easy remedy for this. We coat the brick over with gilding wax, which is a preparation of rosin, verdigris, alum and borax. The hot brick is again exposed to the action of fire till the wax is entirely burned away. It's real gold then, but we are bound to make it a few carats finer, so our customers can have no possible ground for questioning the quality of their treasure. We do this by covering it with a saline composition and again exposing it to a high temperature. It is finally chilled in cold water and is beautiful to look on—a perfect gold brick. It is proof against time, moisture and weather of all kinds and will stand constant handling for years without losing tone or luster. Goods made as I have described are guaranteed for five years.'—Chicago Inter Ocean.

VALUE OF SELF EDUCATION.

More Lasting Than Academic Training Because It Takes More Effort.

Edward Bok answers a girl correspondent who inquires 'How can one learn other than at college and still realize the highest living?' in 'The Ladies' Home Journal.' 'The inestimable value of mental training,' he says, 'is undervalued by girls or by men. It is not a matter of mental training is not alone to be had at the college or university. It can be had more systematically there, perhaps, but not more effectively than anywhere else if the desire to learn and study is present in the heart. There is a mistaken idea present with many that we go to college to get a certain amount of information, a number of facts in our heads. The legitimate use of all colleges is mental discipline—in other words, the training of our faculties so that they will be of use to us as tools. The school, the college or the university is simply the beginning of our learning. It gives us not learning, but trains us how to learn in after years; for the life of a man, like that of a man, begins after college has been left behind.

'Now, mental discipline may be just as easily acquired at home as at college, provided a girl so wills. What developed the hundreds of thousands of women who never went to college and yet who are today women of the very finest minds? Not one in 5,000 girls in this country can be well educated to college. That is possible only for the smallest minority, yet the majority will not fall of the 'highest living' because the opportunity of an academic training was withheld from them. Self development is far more lasting than mental training, because it calls for greater effort, and efforts well directed are of themselves the greatest means of development. We who are not out ourselves to remember better and longer than what is taught or told us.'

Her Work Appreciated. Hoax—It seems to me that the girl Henpeck married is making him a good wife. Joak—Looks to me more as if she was making him a good husband. He'll soon be a model, I hear.—Philadelphia North American.

A German tailor who died at Breslau in 1837 had such keen sight that he was able to see two of Jupiter's four moons with the naked eye.

The polka dances was invented between 1830 and 1834 in Bohemia and obtained its name in Prague in 1835.

What is Kodol Dyspepsia Cure? It is the newly discovered remedy, the most effective preparation ever devised for aiding the digestion and assimilation of food, and restoring the deranged digestive organs to a natural condition. It is a discovery surpassing anything yet known to the medical profession. Health & Killmer.

Mr. P. Ketcham of Pike City, Cal., says: 'During my brother's late sickness from sciatic rheumatism, Chamberlain's Pain Balm was the only remedy that gave him any relief. Many others have tested this and found relief from it, and which this liniment affords. For sale by all druggists.'

What you want is not temporary relief from piles but a cure to stay cured. DeWitt's Witch Hazel Salve cures piles, and they stay cured. Health & Killmer.
