Yellow Fever In the Hampton Soldiers' Home.

Seven Deaths Have Already Occured In a Total of Thirty-Seven Cases-Every Effort Being Taken to Control the Dread Disease-A Strict Quarantine Has Been

WASHINGTON, Aug. 1.-The last official advices received show a total of 37 cases and seven deaths from yellow fever at the Soldiers' home at Hampion, Va. Thus far the disease has been confined to the home, but all surrounding towns are excited and a vigorous quarantine is being maintained. Dr. Wasdin, of the Marine hospital service, is in charge of affairs at Hampton and has strengthened the cordon about the town of Phoebus, which he reports is in very bad sanitary condition. The fact that only one new case appeared during the past 24 hours is encouraging to the officials here, who are taking every measure to prevent a spread of the disease.

Dr. Wasdin's official report of his examination of existing conditions at the Soldiers' home sums up the history

Early in July an old soldier entered the home for a short rest and soon afterward appeared at the dispensary where he informed the physicians in charge that he was but recently from Santiago, via a transport to a northern port; thence he strated for Manila via San Francisco; beat his way to the home on a freight train and entered with his baggage. He complained of dumb chills and fever and was pre-scribed for. He mingled freely with the inmates of the home and a short time ago disappeared.

From this as a possible cause, the outbreak is as follows: Preceding Friday, the 21st, there had been noticed nothing of a suspicious nature. The weekly death rate was as usual. But on the 21st and 22d there became ill during the night with sharp or less chill, high fever, some eight or ten inmates, men of usually good health. These seizures although noted as peculiar had occasioned no alarm until about Thursday, the 27th, when a death occurred, the man becoming distinctly yellow some time prior to death. On about the same day another one died without having attracted particular attention; he also turned quite yellow. Autopsies were held on both by a

resident pathologist. It was then or a little later that the telegram was sent you asking for an expert. It found there were 3,500 immates and that 35 has been taken III

since the 21st. Dr. Wasdin says he withheld a posltive diagnosis in his first communication because of the assertions of Surgeon Vickery at the home that there had been no communication of the inmates with the Cuban soldiers returned since last May or early in June. With the discovery of the probable origin of the infection and the two autopsies later there can be no doubt he says about the disease being yellow fever.

Dr. Wasdin, Assistant Surgeon Von Ezedorf from New Orleans to Hampton, Passed Assistant Surgeon Smith, who is on leave has been directed to re turn to Norfolk. Surgeon Magruder has been ordered from Memphis. Both of these have had large experince in quarantined quarters. Surgeon Pettus, in charge of the Cape Charles quarantine, has been ordered to assign his assistants. Surgeon McClintic to temporary charge and to remain on duty

WASHINGTON, Aug. 1 .- Surgeon General Wyman of the Marine hospital service had a conference with Secretary Gage on the yellow fever situation at Hampton, Va. The secretary agreed with Dr. Wyman that every possible precaution should be taken to prevent the spread of the disease. A cordon will be thrown around the affected district, and a thorough quarantine established.

SANTO DOMINGO REVOLUTION.

An Outbreak Is Only a Matter of a Fer

KINGSTON, Jamaica, July 31 .- A private cable dispatch received here by way of Cape Haytien reports that the revolution in Santo Domingo is progressing favorably. The dispatch says that the real reason for the detention of President Heureaux's body at Santiago and its interment there was that the country between Santiago and Puerto Plata is occupied by the insurgents, who, abandoning their plan of occupying Moca as a base of operations, and concentrating to attack Puerto Plata, which is feebly garrisoned. Great excitement prevalls owing to the fact that the government has not been able to ascertain the extent of the ramifications of the revolution and is growing demoralized through the death of the president.

In the event of the revolution suc ceeding, still according to the private cablegram, it is probable that Jiminez and Jitonez, the reputed leaders of the revolution, will agree to retire, offering the presidency to General Maximo Gomez, who would prove acceptable to all parties.
