TORONTO, Sept. 26 .- All the members of the Tailor's union in the city, between 400 and 500, went out on strike REVIEW OF TRADE.

Bradstreet's Weekly Report on the Conditions of Business. NEW YORK, Sept. 23.-Bradstreet's

Satisfactory trade and price conditions apparently still reign. So few, in fact, are the reports of poor trade that favorable reports may be said to be almost unanimous. Prices as a rule maintain all their former strength, decreases being few and relatively unimportant. In several lines, notably the cereals, cotton, petroleum, iron and steel, the tendency has been toward higher levels.

Cotton has been notably strong and active. Short crop estimates are becoming more generally current and bearish estimates of maximum yields have been practically discarded, more especially as it is claimed that agents of English spinners are heavy buyers at the South, and domestic manufacturing conditions are known to be in a high degree favorable.

Steady demand for export and confidence in all of this year's wheat crop being needed have proved stimulating in the face of heavy receipts and admittedly large present spuplies. Possibility of war in the Transvaal, too, has been an additional strengthening

feature. Iron and steel are higher on a moderate volume of new business and the steady placing of orders indicates confidence in present values well on into the middle of next year. Pig Iron, however, is nearer a parity with consumption, the ultimate effect of enhanced quotations upon demand is not yet settled and imports from abroad, while not likely to be of heavy volume imendiately, are a feature which may have to be dealt with next year.

The scarcity of beef cattle is reflected in still higher prices and strength is shown in domestic hides which also feel the impetus of steady demand from manufacturers of leather.

No signs of abatement in the sugar war are to be seen, price cutting is active and prices are demoralized Other groceries, however, are firm, as are most other lines, with the exception of cheese and tin, which note some easing in price from the recent advance. Business failures for the week number 147, as compared with 149 last week, 182 in this week a year ago, 237 in 1897, 321 in 1896, and 198 in 1895.

DUEL WITH SWORDS.

A Girl Is of Course the Cause of the

Deadly Disturbance. EAU CLAIR, Wis., Sept. 23.-Hugh Thompsons' photograph gallery was the scene of a duel with swords. A handsome young woman was hired by Thompson as his assistant. Later a man in a state of great excitement entered the gallery. He said his name was Maguire and that he was the husband of the girl. Exactly how the fight started is uncertain, but hanging on the wall were two sabres and in a moment Thompson and Maguire were engaged

in deadly conflict. The girl called for help and as Arthur Rickard, a furniture man, rushed into the gallery he saw Thompson on the floor covered with blood and Maguire apparently about to run the sword into Thompson's chest. Rickard pulled Maguire off and the latter fled. No arrests have been made.

Thompson's injuries may prove fatal. WASHINGTON, Sept. 26,-Mr. Mc-Donald, state agent for New York called at the war department to secure information respecting the location of soldiers who are citizens of New York and have the right under the state law to cast ballots at the approaching election. Acting Adjutant Gilmore met the request promptly and also introduced the agent to Acting Seceretary Allen, who was called upon for simi lar information respecting the New York sailors. Mr. McDonaid will use this information as the basis of com-

SCARCITY OF LABOR.

Glass Revelers Are In Great Demand at Pittsburg and Vicinity. PITTSBURG, Sept. 22. There is a

great scarcity of skilled -the bevelers in Pittsburg and Allegheny. The demand for workmen in this particular branch of industry is far above the supply, and local conterns express an inability to get enough men to keep pace with their business, This condition of affairs has existed

for some time, and prevails over the entire country where glassworkers are employed. A Philadelphia firm has been advertising in Pittsburg for glass bevelers, both routhers and smoothers, promising steady work and the best wages for first-class men. At Conroy, I ragh & Co.'s on Western

avenue, Allegheny, the manager stated that they had been short of men for several months. Their business had increased and they were unable to get enough workmen to fill orders on time. There are about eight or nine other oncerns of the kind in Pittsburg and Allegheny, and they report the same difficulty.

The abnormal lack of labor is attributed to the great boom that has taken place in the art glass industry, manufacture of fancy mirrors, etc. Glass beveling is a peculiar work, and the laborer has few mechanical contrivances to assist him. He must depend solely on his judgment and skill in grinding and smoothing glass, and le required to particularly possess a keen, true eye-

The wages range from \$15 to \$18 a week. Local concerns have been making an effort to secure workmen at other places, but with little or no success.

MINERS GOING WEST.

Agents of Kansas Operators Said to Be Securing Men Around Pittsburg.

PITTSBURG, Sept. 26.-The local officers of the Mine Workers received a telegram from Pittsburg, Kan., s.ating that the coal operators in that state, whose miners are on a strike, had sent a man to this city and another to Lucyville, in the fourth pool, to secure men. It was stated that men had been shipped to Kansas to take strikers' places, and that a former local labor officer, who is now an organizer in the Knights of Labor, took a company out himself.

President Dolan and Secretary Dodds are now watching all trains as they come in from the river district in order to intercept any miners who may have been gathered up to go West. The strike in the West is not on a question of wages, but was declared because the coal companies refuse to recognize the United Mine Workers.

Deficit Made Good.

ERIE, Pa., Sept. 26.-Rumors afloat for some time regarding a deficit in the accounts of ex-County Treasurer Conrad J. Brown, were set at rest by a set tlement, whereby gilt-edged security was put up, and Mr. Brown relieved of heavy insurgent fire, proceeding to the any fear of prosecution. The report of the county auditors showed that Brown was indebted to the county at the close of his term for \$100,945.66. This was paid over to the new county treasurer by March, except \$13,000. The settlement covered this amount.

PITTSBURG, Sept. 24 .- An unknown workman was struck and killed on the West Penn railroad, near Creighton. He was about 40 years old, 5 ft, 6 in tall and weighed 135 pounds. He had a commutation ticket on the Allegheny Valley rainroad, good between New Kensington and Logans Ferry, dated Sept. 14. The man wore a brown coat and vest, gray striped frousers and a black and white striped shirt. His body is at the morgue,

Judge Scored a Jury.

In Chicago. CHICAGO, Sept. 23.-Beef on the hoof has taken another jump in price at the stock yards. Already at the highest notch in many seasons, it has been thought impossible to push beef any further up the ladder. It has bee! given out remeatedly by stock yards men that the fall consignments of Texas and other range cattle were coming. and that the result would be a fall to

the customary figures. "Don't tell me," said the manager of a Madison street restaurant, "that the cause is scarcity of cattle, or any of the other reasons which have been given out. It's a plain case of corner. trust, monopoly, or octopus, that's what it is. The packers have us in the hole and they are going to keep us there until the last dollar is squeezed out of us -yes, and out of every individual consumer of beef. It's a corner and that's all there is to it."

Other restaurant men took the jump in prices more philosophically and nearly all declared they would not raise the prices of the various steaks upon their menus. "The prices have raised already," said a Randolph street restauranteur. "to about as high a figure as they will stand, and we will have to grin and bear it for awhile.

Stock yards men stuck sturdily to the assertion that there was no trust, and pointed to the high prices paid the Western cattlemen for their animals. Steaks are to cost 2 or 3 cents a pound more as the result of the increase. Cattle on the hoof are selling at \$6.20 a 100 pounds, which is the highest price reached in September since 1882. An an explanation of the continual increase in prices, the packers say the demand is even greater by 100 per cent than it ever was before. And, besides, just at

of live cattle being exported will in-

More Troops From Manila. SAN FRANCISCO, Sept. 26.-The United States transport City of Para arrived here from Manila. The Para had on board members of the Twentythird United States infantry, Twentysecond infantry, Fourteenth infantry, Third artillery, Fourth cavalry, and Eighteenth and Nineteenth signal corps, who enlisted under general order No. 40, and who are known as volunteer regulars. Hall, Topesta. "I regret all this trouble over the Grand Army's position in the Dewey parade, but it is from no fault on the part of the duly constituted authorities of the G. A. R. However, when we old veterans are gone the armed soldiers who are yet to fight battles, will not be worried about having aged veterans, who have 'stacked arms on fame's eternal camping ground trouble them over hair-splitting questions of

> march in a civic pageant, similar to the Dewey parade. "I will not be at the Dewey parade, I leave for Topeka to be present at a great gathering of veterans Sept. 27 and 28. Before I was elected I promised to go out there. When the question of the Grand Army appearing in the Dewey parade came up I wrote that this civic function might prevent my being with the Kansas comrades, I was sharply taken to task for this by the committee at Topeka, which wired me that all arrangements had been

> 'It is more important for you to be here than in New York. "The Kansas comrades always head the line in civic pageants of honor and ceremony. They do not trail on behind younger men who have their records to make, but march at the front with 'Old Glory' as a guide, which they helped to make the emblem of a united and a glorious nation. Under these circumstances and not having received any invitation from the Dewey parade committee 1 go to Topeka. I don't know why I should have been slighted

CAPTURE OF A GUNBOAT.

Filipinos Destroyed the Urdaneta In Manila Bay.

Officers and Crew Are Missing and May Have Been Killed-Admiral Watson Destroves a Krupp Cannon Which the Filipmos Had Planted On a Point le Subig Bay. MANILA. Sept. 26,-Word reached

here that the insurgents had captured the United States gunboat Urdaneta, in the Orani river, on the northwest side of Manila bay, where she was patrolling. The United States gunboat Petrel was sent to investigate the matter and has returned here after having discovered the Urdaneta beached opposite the town of Orani, on the Orani river. She had been riddled with bullets and burned. One officer and a crew of nine men are prisoners or have been killed. The following guns with their ammu-

nition were captured from the vessel.

One Colt's automatic gun and one Nordenfeldt 25 millimeter gun. The gunboat Urdaneta, which was captured with her crew at Orani, about 25 miles from Manila on the bay of Manila is a little craft of only 40 tons displacement. She was captured by the navy early in the war and has been on police duty in the bay for months past. The records of the navy department show that she was one of the boats of which the Oregon is the parent ship. That is, she was supposed to draw all her supplies from the battleship to be manned from the Oregon's crew and to act under the instructions of the Oregon's commander. According to the last reports to the department the little boat was last May under the command of Naval Cadet Welborn C. Wood, but the personnel of the crew is

gon, had passed his academic course and was performing two years' sea service at the time of his capture. BATTLE IN SUBIG BAY.
