HORRIBLE CONFESSION.

A Convict In Minnesota Claims to Have Murdered Five People.

MINNEAPOLIS, Oct. 23.-A special rom Stillwater, Minn., says: J. C. Mo-Bride, a convict at the state prison, received in December last to serve three years and five months for an assault, has made a remarkable confession, showing him to be, if the confession is true, a high-handed murderer. His confession was made to Warden Wolfer in a letter written Oct. S, and in it he related the murder of two officers, Joseph Grant and John McNott, at Geneva, Ille., Aug. 29, 1886; the murder of government has received the following | Julia Buckmore at Geneva; a postoffice robbery and the murder of the marshal of Ossawatomie, Kan; the burglary of a hardware store, and the shooting of a policeman at Guide Rock, Neb., and

many burglaries and highway robberies. Continuing, he says: "I also murdered woman by the name of Julia Buckmore in the outskirts of Geneva two weeks before I murdered the officer. My object was robbery. I cut her throat with a razor because she recognized me while in the act of committing the robbery. I carried the body to a hencoop and set fire to the house. The body was found the next morning."

McBride is now 34 years of age and says he has led the life of robber and murderer since he was 18 years of age. While relating the story of his crime he gave all the details in a matter of fact manner and evidently felt relieved. He claims to have confessed because his conscience troubled him and says he is anxious to be punished for his many

THIEVES ESCAPED.

An American Woman Robbed of a Large Amount In London.

LONDON, Oct. 24 .- A. sensational burglary took place at the Savoy hotel, London, where the room of Mrs. Stockwell of New York, widow of a New York jeweler, was entered and robbed, it is understood of jewelry valued at \$50,000 and bank notes and other negotiable currency to the amount of \$25,-

Mrk. Stockwell has been staying at the hotel for some time with a nephew. The apartment was entered while they were at dinner. On returning to the room Mrs. Stockwell found the door locked on the inside. An alarm was raised and the door forced. The room was found empty but it had been thoroughly ransacked. The management took prompt measures, had the hotel doors closed, summoned detectives and searched all strangers and servants. Nothing, however, was discovered. The burglars had escaped, the thick fog enabling them to get clean away.

Several detectives from Bow stree and Scotland Yard are hard at work on the case, but thus far there is no trace of the thieves. Mrs. Stockwell declines to discuss the matter.

LAST OF THE YACHT RACES.

All Three Won By the Columbia, Not Giving the Shamreck a Race.

NEW YORK, Oct. 21.-Through wild and hoary seas, in a breeze that approached the dignity of a gale, the gallant sloop Columbia vanquished the British challenger Shamrock by six minutes and eighteen seconds actual time, and six minutes and thirty seconds corrected time, thus completing the series for the America's cup with a magnificent rough water duel and a glorious Yankee victory. For the eleventh time the attempt of a foreigner to wrest from America the yachting supremacy of the world has failed. The trophy won by the old schooner America 48 years ago is still ours, a monument to the superiority of American seamanship and American naval architecture and a standing challenge to the yachtsmen of all pations. Unbeaten America again tastes the glory of victory. The intrinsic value of the reward which hundreds of thousands of dollars were expended to secure is small, simply an antiquated piece of silverware which Queen Victoria offered to the best sailing ship in the world in the early days of her reign, but around it cluster the precious memories of unbroken American triumph and the honor of mastery in the noblest of sports.

To Sir Thomas Lipton, whose name is now added to the list of defeated aspirants for the honor of carrying the cup back across the Atlantic, failure was a crushing blow. His hopes had been high. But, like the true sportsman that he is, the sting of defeat has left no bitterness and with undaunted courage he intimates that he may be back with a better boat to try again.

During his stay here Sir Thomas has made himself more popular than any previous challenger and the yachtsmen of this country will be glad to welcome him back. Except for the repeated flunks and the unfortunate accident to the challenger on Tuesday this series of races has been unmarred by a single untoward incident. The boats have had two fair and square races, one in light airs and the other in a heavy blow, and Sir Thomas is perfectly satisfied that he was beaten by the better boat.

MANILA, Oct. 24. - The insurgents around Calamba and Angeles have bothered the Americans lately with their repeated attacks, like most of the Filipino attacks, consisting of shooting a lot of ammunition into their opponents camp from long range. Major Cheatham's battallon of the Thirtyseventh infantry, three companies of they can be bought, under the provisthe Twenty-first infantry, a battery of the Fifth artillery and a Gatling gun sallied out from Calamba, drove the Filipinos from their trenches and chasing them for three miles, inflicting heavy loss on the Filipinos. One American was killed and three wounded of the Twenty-first infantry.

Lieutenant Fergus, with 20 scouts of the Thirty-sixth regiment, reconnoitering near Labac, encountered a party of mounted Filipinos. He killed six of them and captured eight, with 10 rifles.

Four men from the gunboat Marivelos were lured ashore 18 miles from Hollo by a flag of truce and the insurgents killed one of them, wounded one and captured a third. The gunboat was unable to fire for fear of wounding the Americans.

The second battalion of the Nineteenth regiment, Major Reefe commanding, has embarked for Iloilo, to reinforce the troops there.

DROVE THE REBELS BACK.

The Country Between Angeles and Arayat Clear of Filipinos.

MANILA, Oct. 21 .- Captain MacRae, with a battalion of the Third infantry, and Captain Chinewth, with a battallon of the Seventeenth infantry, marched to the town of Jose Malinas for the purpose of dispersing a band of 300 insurgents under Juan Dicaret, who had recently been annoying our outposts and travelling along the road from Santa Ana to Arayat. The insurgents fled in the direction of Magalang. The country between Angeles and Arayat is now reported clear.

Three insurgent officers entered Angeles and applied to General MacArthur for permission for a Filipino commission, headed by a Filipino major general, to visit General Otis, in order to discuss peace terms and to arrange the delivery of more American prisoners as well as to consider methods for the release of the Spanish prisoners. The request was referred to General Otis. The insurgent officers will return to receive his answer.

MODUS VIVENDI ISSUED. A Temporary Boundary Line For Alaska

has been exchanged and made public. This result has been brought about through the direct negotiations of Secretary Hay and Mr. Tower, after several failures in the past through commissioners and ambassadors. The state department is confident that it has conserved every American interest in the arrangement without unjustly treating Canada.

The divisional line on the west pass, by which the Dalton trail is reached in placed 22% miles above Pyramid harbor, which is regarded under the treaty as tide water mark, so the Canadians are not allowed to reach any point on the Lynn canal. Moreover there is no permission given for a free port or even for the free transfer across American territory of Canadian goods except of miners' belongings. These matters may figure later on when it comes to a permanent boundary line, but they are not touched upon in this modus.

FOREST PRESERVATION. It Is Going to Be One of the Features of Governor Stone's Administration.

HARRISBURG, Oct. 20.-The state board of forestry, at a special sitting, adopted a resolution directing Forestry Commissioner Rothrock to at once place himself in communication with those who had large bodies of unseated land O. O. Howard, Killed-Four Men From for sale at such prices as could be purthased under existing laws.

The preamble to another resolution sets forth the importance of forest protection and restoration in Pennsylvania

and concludes as follows: "That it is the sense of this board that a reasonable effort shall be made at once to locate, ascertain and define the cheap lands in the state, which may be acquired, either by purchase at tax sales from individuals, at low prices, and that as fast as the treasury will permit, these lands shall be purchased whenever ions of existing law, at a rate which the board regards as reasonable, and within the financial power of the state."

On motion of Attorney General Elkin the commissioner of forestry was directed to investigate, and report to the board the price at which certain unseated lands in Monroe county can be purchased; also, at what price similar lands in Clearfield county can be purchased. The governor has completed the for-

estry commission by the appointment of Charles M. Schwab of Pittsburg. This commission will select three reservations of not less than 40,000 acres each, at the headwaters of the Delaware, Susquehanna and Alleghany rivers. It is the purpose of Governor Stone to make forest restoration a feature of his administration.

WAITING ON FURNAGES.

They Are Expected to Reduce the Cost of Bessemer Iron.

PITTSBURG, Oct. 20 .- Some observers of the iron and steel market hold that finished lines are showing evidences of weakness, while pig iron prices are growing stronger. Increased costs in the way of higher figures for ore and coke are expected, consequently prices will hardly decline soon. Tin and Terne in its last issue says:

"It is understood taht there has been some heavy selling of billets for next year, but the greatest effort is made to keep the transactions secret, presumably because the price is lower than might be expected. In comparing the price of pig iron with prices of finished material it must be borne in mind that pig iron is only an intermediate product; that the bulk which is made does not pass through the open market at all, Were the relations of demand and supply the same in the case of pig iron as of finished product the price of pig iron would be all important, and should bear a more exact relation to the prices of finished material, but such is not the case. The heavy demand for steel products has strained the capacity of blast furnaces more than any other link in the chain to the finished material. When funtas in the Orient and in Europe the blast furnaces now being built are completed the supply will be much more adequate to finishing demands, and then it seems probable that Bessemer pig iron will rule relatively lower."

HIGHER FREIGHT RATES.

Those on Iron and Sicel Likely to Soot Be Advanced.

PITTSBURG, Oct. 20 .- The iron and steel trade in this district is now greatly interested in the question of freight rate changes, and dealers who have soid ahead are estimating how much their profits will be cut down by the increased figures they will have to pay for freight, Although nothing official has been anfreights will be moved up to the next higher classification, making an advance of about 15 per cent. A pig iron shipper who has been making some inquiries in regard to the matter of freights,

"As we all know, a great deal of iron and steel has been sold for delivery during the next six months. In some cases the price fixed is that to be paid at the furnaces, but in many instances the cost of shipment is borne by the shipper. Thus there will be many pig iron producers who will have to stand advanced cost on shipments beginning next month. There has been no general change in freight rates on iron and stegl since the opening of the year, but now the railroads are apparently coming in for a share of the prosperity."

READING, Pa., Oct. 20.-There is an unprecedented coke famine in the iron district of Eastern Pennsylvania, and unless there are immediate supplies of large quantities of this fuel, it will be necessary to bank up the stacks of some of the large iron furnaces soon. There are few furnaces in this section that have more than several days' supply on hand. The coke famine in the eastern part of the state is due to the inability of the railroad to move freight.

The situation is regarded as very serlous by the furnace men of the Schuylkill, Lebanon and Lehigh Valleys. The great trouble on the railroad is that it is swamped by freight, and the traffic is necessarily very slow. At no time since the Reading Railway has been built has trade been so heavy. The tecord of 1892 was a good one, but that of 1898 surpassed it, and so far in 1899 the bulsness of the Reading has

DETAILS OF A BATTLE.

Elandslangte, Near Glencoe. LONDON, Oct. 23.-The war office published the following dispatch to the secretary of state for war, the Marquis of Lansdown, from the general commanding in Natal, Sir George Stewart White, regarding the engagement at Elandslaagte, between Glencoe and Ladysmith, when the British, under General French routed the Transvaal forces under General Jan H. M. Kock, second in command in the Transvaal army, who was himself

No News From Ladysmith Looked Upon LONDON, Oct. 24 .- A dispatch from Ladysmith, Natal, has just been received. It is a li'eral repetition of Cape Town's Glencoe advices and it is regarded as somewhat ominous that nothing has since been received respecting the result, especially when viewed in the light of Lord Wolseley's statement that General Yule's force felt it necessary to retire from Dunder

army under General Joubert. General Sir George Stewart White, the British commander-in-chief in Natal, will undoubtedly detach part of the force which was victorious at Elandslaagte to his assistance, Such a detachment, however, will leave Ladysmith poorly protected against the threatened attack from the west, as General Hunter on Saturday wired that the departure of the force to Elandslaagte left him with only two of battalions of regulars, a mountain battery and 500 Natal volunteers to de-

news therefore is anxiously awaited. LONDON, Oct. 23,-The satisfactory progress of the campaign in South Africa has caused a general recovery along in which Kaffires have taken the lead. Since the beginning of the war the pub-
