1899 BATTLE AT LADYSMITH

Engagement Between White's and Joubert's Forces.

Several Hours Hard Fighting In Which the British Lost About One Hundred Men-The Loss to the Boers Was Much Larger-Report Made to the British

LONDON, Oct. 31 .- The war office here has received a dispatch which says General White has fought an engagement at Ladysmith, presumably ith General Joubert's force, which was pushed back after several hours fighting. The British lost about 100 men and the Boers losses were much greater. The Boers were in larger numbers and had better artillery.

General White's dispatch, which was dated at 4:30 p. m., read:

"I employed all the troops here, except the obligatory garrison before the works. I sent a mountain battery, the Royal Irish Fusiliers and the Gloucesters to take up a position on the hills to clear my left flank. The force moved at 11 Sunday evening and, during some night firing, the battery mules stampeded with some of the guns, which, however, I hope to recover. These two battalions have not yet returned, but are expected to return

"I detailed two brigade divisions of field artillery and five battalions of infantry, aided by cavalry, under General French, to attack a position upon which enemy had mounted guns. We found this position evacuated, but our force was attacked with considerable vigor by what I believe were General Joubert's troops. They had many guns and showed in great numbers. Our troops were all in action and we pushed the enemy back several miles but did not succeed in reaching his laager, Our losses are estimated at between 80 and 100, but those of the enemy must have been much greater, the fire of our guns appearing very effective.

"After being in action several hours withdrew the troops and they returned unmolested to their cantonments The enemy are in great numbers and their guns range further than our

field guns. "I now have some naval guns which have temporarily silenced, and, I hope, will permanently dominate the enemy's best guns, with which he has been bombarding the town at a range of over 6,000 yards."

BATTLE RENEWED.

Boers Again Shelling the Town and Brisk Fighting In Progress.

LADYSMITH, Natal, Oct. 31 .- The naval brigade arrived here and has just commenced firing with six quickfiring guns, with great precision. The Boer 40-pounders, which had again begun to shell the town, were temporarily disabled at the third and fifth reports Brisk fighting is in progress on the ight and left flanks.

The dispatch adds that Saturday morning Colonel Baden-Powell asked for an armistice in order to bury the dend, General Cronje consented to this, the Boers assisting in placing the dead in the wagon returning to Mafeking.

But Few Dead Boers Seen LONDON, Oct. 27.-A belated dispatch sent from Glencoe camp on the night of the battle in that vicinity admits that few Boer dead and wounded were found on the field and attempts to explain this by saying: "Throughout the fight the Boers, in accordance with their custom, buried their dead and carried off their wounded immediately after they fell, those left representing only the casualties during the last mo ments of the fighting. Even their disabled cannon had been removed, although broken pieces of them could be

Colonel Bell has been given a free hand around Bacolor. He has 60 mounted men scouting the country daily and they are killing many Fillpinos in skirmishes.

The Spanish commission which entered the insurgent lines a month ago with money to relieve the wants of several thousand military and civil Spanish prisoners, has returned to Angeles. The commissioners report that they spent most of the time in Tarlac and the vicinity where there are som-200 sick Spanlards in the hospital. The Filipinos ili-treat and Ill-fed them, re fusing to surrender them, as well as the other Spanish prisoners, in the hope of compelling Spain to recognize the independence of the islands.
