BATTLE AT LADYSMITH

Engagement Between White's and Joubert's Forces.

Several Hours Hard Fighting in Which the British Lost About One Hundred Men—The Loss to the Boers Was Much Larger—Report Made to the British War Office.

LONDON, Oct. 31.—The war office here has received a dispatch which says General White has fought an engagement at Ladysmith, presumably with General Joubert's force, which was pushed back after several hours fighting.

General White's dispatch, which was dated at 4:30 p. m., read: "I employed all the troops here, except the obligatory garrison before the works. I sent a mountain battery, the Royal Irish Fusiliers and the Gloucesters to take up a position on the hills to clear my left flank.

"I detailed two brigade divisions of field artillery and five battalions of infantry, aided by cavalry, under General French, to attack a position upon which the enemy had mounted guns. We found this position evacuated, but our force was attacked with considerable vigor by what I believe were General Joubert's troops. They had many guns and showed in great numbers. Our troops were all in action and we pushed the enemy back several miles but did not succeed in reaching his laager. Our losses are estimated at between 90 and 100, but those of the enemy must have been much greater, the fire of our guns appearing very effective.

"After being in action several hours I withdrew the troops and they returned unharmed to their cantonments. The enemy are in great numbers and their guns range further than our field guns. "I now have several naval guns which will temporarily silence, and, I hope, will permanently dominate the enemy's best guns, with which he has been bombarding the town at a range of over 6,000 yards."

BATTLE RENEWED.

Boers Again Shelling the Town and Brisk Fighting in Progress.

LADYSMITH, Natal, Oct. 31.—The naval brigade arrived here and has just commenced firing with six quick-firing guns, with great precision. The Boer 40-pounders, which had again begun to shell the town, were temporarily disabled at the third and fifth reports. Brisk fighting is in progress on the right and left flanks.

BAYONET CHARGE MADE.

British Troops Repulsed by the Boers Near Mafeking.

LORENZO MARQUES, Delagoa Bay, Oct. 31.—A dispatch received here from Pretoria, under date of Oct. 29, says General Cronje, the Boer commander, announced that the British garrison at Mafeking made a bayonet charge on Commandant Louw's laager, near Grandstand, but were repulsed, leaving six dead on the field, and it was believed that many of the attackers were wounded.

WOUNDED DOING WELL.

Transvaal Officers Taking Good Care of the British Wounded at Glencoe.

DURBAN, Oct. 30.—It is officially announced that Mr. J. J. Duggan, chief medical officer at Glencoe, has wired the Transvaal state secretary, F. W. Reitz, at Pretoria, an expression of thanks on behalf of all the British officers and men in the hospital at Glencoe for the extreme kindness shown them by the Boer officers and men.

The announcement adds that those of the wounded are doing well and that none of the officers is likely to die.

But Few Dead Boers Seen.

LONDON, Oct. 27.—A belated dispatch sent from Glencoe camp on the night of the battle at that vicinity admits that few Boer dead and wounded were found on the field and attempts to explain this by saying: "Throughout the fight the Boers, in accordance with their custom, buried their dead and carried off their wounded immediately after they fell, those left representing only the casualties during the last moments of the fighting. Even their disabled cannon had been removed, although broken pieces of them could be seen everywhere."

SKIRMISHES CONTINUED

Colonel Bell's Regiment Battles With the Filipinos.

Scouting the Country Daily, Killing Filipinos in Every Encounter and Making Prisoners of Others—The American Prisoners Are Being Well Treated. Return of the Spanish Commission.

MANILA, Oct. 31.—Three companies of Colonel Bell's regiment have had two encounters with the insurgents near Laban and scattered them. The insurgents left four officers and eight men dead on the field and the Americans captured three prisoners and several guns. On the American side one American was killed and two officers and six men were wounded.

Captain French took a reconnoitering party beyond Laban after he had met the enemy and was reinforced by Major Bishop with two companies. The insurgents brought up cavalry reinforcements and there was a second fight, during which their leader, Major Salvador, was killed and many were wounded and carried away.

The Spanish commission which entered the insurgent lines a month ago with money to relieve the wants of several thousand military and civil Spanish prisoners, has returned to Angeles. The commissioners report that they spent most of the time in Tarlac and the vicinity where there are some 200 sick Spaniards in the hospital. The Filipinos ill-treated and ill-fed them, refusing to surrender them, as well as the other Spanish prisoners, in the hope of compelling Spain to recognize the independence of the islands.

From Tarlac to Bamban, about two-thirds of the way, the commissioners travelled by train, on the Manila-Dagupan railway. The remainder of the journey, from Bamban to Angeles, they made on foot, escorted by handsomely mounted Filipino cavalry. They were received between the outposts by a member of General MacArthur's staff and were brought by train to Manila.

There are 14 American prisoners they saw at Tarlac, all of whom are well treated. Lieutenant J. C. Gilmore of the United States gunboat Yorktown, who fell into the hands of the insurgents at Baler, on the east coast of Luzon, last April, when the Yorktown had gone on a special mission to relieve the Spanish garrison, is still in the hands of the insurgents.

The commissioners have brought a letter to General Otis from a relative of the murdered Filipino General Luna who wishes to avenge the assassination by Aguinardo's officers and who asks a personal interview with the military governor.

According to their statement, Aguinardo, who is still at Tarlac, with 6,000 troops, wishes to continue the war, although he has a high opinion of the American officers and soldiers. General Lawton he calls "El General de La Noche" (The Night General), because that commander has attacked him so often in the darkness that he never knows when to look for him.

Aguinardo is said to be well supplied with arms and ammunition and he is able to get plenty of rice from the northern provinces. With the Spanish commissioners came a large number of women and children, bringing a wagon train load of baggage. These are the families of eight prominent officers of the Filipino army who recently applied to General Otis for permission to send their families to Manila.

Upon the receipt of the military governor's reply, the nature of which has not been disclosed, the women and children started under escort from Tarlac for the American lines. When they arrived General MacArthur compelled them to halt about a mile beyond our outposts where they will remain while their credentials are being examined.

POSTAL STATISTICS.

Annual Report of the Auditor of the Postoffice Department. WASHINGTON, Oct. 26.—The annual report of Auditor Henry C. Folger to the postoffice department, for the fiscal year ended June 30, 1899, has been transmitted to the secretary of the treasury and the postmaster general.

The report shows a volume of transactions aggregating about \$640,000,000 for the year. The revenues of the postoffice service were \$95,021,354; expenditures, \$101,632,161; volume of money orders transmitted \$442,455,254. The deficit in postal revenues was \$5,610,776—the smallest since 1892 and only one-half that of 1897.

PRODUCTION OF COKE.

It Has Slightly Fallen Off in the Connettsville District.

CONNELLSVILLE, Pa., Oct. 28.—The Courier says: "The production of coke in the Connettsville region last year fell off slightly because of the enforced idleness at a couple of the plants, but the car supply eased up a little, especially on the Baltimore and Ohio, and shipments made a further increase of 311 cars over the week previous. Furnaces at Hazleton have requested the railroads here to rush all their coke, and the same cry comes from the Bellefonte (O.) and Wheeling (W. V.) districts.

"The construction of new coke ovens is a feature of the coke business at this time. The H. C. Frick Coke company has just completed the 33 new ovens at Mutual, 25 at Adelaide and 25 at Calumet. W. J. Rainey is rushing the work on the 83 new ovens at the Paul plant, 20 of these having been completed. Rainey has changed his plans at the Mount Braddock plant on the Fairmont branch. It was his intention to build a bank of 200 ovens on the tract of land across the Baltimore and Ohio and the Southwest railroad tracks from the old block of ovens at that place.

Now, however, he is rushing up the foundations of 140 new ovens between the old block and the houses for the workmen. "Our detailed report of the operation and production of the Connettsville region for the week ending Saturday, Oct. 21, shows 19,109 ovens, of which 18,326 are active and 783 are idle, the estimated production for the week having been 18,610 tons, as compared with 19,171 tons for the week previous. The shipments last week aggregated 19,588 cars, distributed as follows: To Pittsburg and river tipsles, 3,395 cars; to points west of Pittsburg, 5,641 cars; to points east of Connettsville, 1,742 cars. This is an increase of 311 cars, as compared with the shipments for the week previous, which were: Pittsburg, 3,330 cars; West, 5,271 cars; East, 1,676 cars."

NEGRO QUESTION.

John Temple Graves Believes a Solution Is in Colonization.

PITTSBURG, Oct. 27.—John Temple Graves, associate editor of The Journal of Atlanta, Ga., is a guest at Newell's hotel. He is en route from Washington to East Liverpool, O., where he is to deliver a lecture. His time is being devoted principally to his lecture on "The Last Hope of the Negro," in which he advocates colonization and absolute separation from the white race.

He says his plan for the formation of a negro state on the vacant lands of the West is approaching realization and that he is hopeful of its adoption and the solution of the race question. "The interior department," he said, "has been making some investigations along this line and it has been discovered that there are about 200,000 acres of contiguous vacant government land in the West that would provide a civilization of negroes in the country.

"I find while traveling through the United States that the sentiment and interest is growing rapidly in favor of the colonization of the colored race. The people of the North and Middle West realize more fully than ever that the race question must be settled. The negro population of Ohio, Indiana and Illinois have increased until the colored men hold almost the balance of political power in those states and there is an increasing alarm for the future."

RHINOCEROS AT LARGE.

It Could Dance to Music and Frightened an Italian Organ Grinder.

PHILADELPHIA, Oct. 30.—An Italian organ grinder was nearly scared out of his wits and half a hundred people fled with terror from an indolent rhinoceros which escaped while being unloaded from a Pennsylvania railroad car. The beast was sent here for the Zoological garden and arrived in good health and spirits.

Twenty employees of the express company stood about to prevent it getting away, but when the animal started it fled down Seventeenth street. The rhinoceros went to Market, the men after her, thence to Sixteenth and back to Filbert. In the short journey it passed probably a hundred people, and put all that almost killed him.

The beast has been with a circus and can dance and do a corks walk. At Sixteenth and Filbert streets it heard the sound of the music and began to dance. The Italian did not know what brought the crowd, but he kept on turning his crank until suddenly there was a roar of laughter and he turned to find the rhinoceros standing still, solemnly looking at him. Emitting a terrific yell, he dropped the crank and ran. The animal was caught and put back in the cage with little difficulty.

Large Orders For Steel Rails.

PITTSBURG, Oct. 27.—Within a week orders for steel rails aggregating 1,500,000 tons have been secured by the rail makers. The price is \$33 and delivery is to be made during 1900. Prices have been advanced, making standard sections \$35 in lots of 200 tons and over \$37 to buyers of 100 to 200 tons, carload lots \$38 and less than carloads \$40 per ton. Light rails are to be \$37 per ton.
