The G. A. R. Badge.

It was the act of June 23, 1895, tha roperly provided for the unlawful wearng of the badge or button, the insignia f the G. A. R. That act provides that any person who shall wear said badge, button or shield, or who use the same to obtain aid or assistance, unless he shall be entitled to use and wear the same under the constitution and rules and regulati as of the organization, shall be guilty of an offense, and upon conviction before a Justice of the Peace or Alderman shall be fined not exceeding \$20 and costs, and in default of paym at there f, to be com mitted to the county jail for a period not Rugs, exceeding ten days.

Truly this is a gloomy prospect; noth ng inviting about this at all; yet such is the case, unless the party wearing these honored emblems, are qualified to wear them "according to the rules and regulations of the Grand Army." Observe, even one of the "has beens" has no right o wear the badge, one who has been dropped or slid out is debarred. It is only the true blue, actual members of the post who are entitled to wear this honorable insignia-to wear it otherwise would be fradule t-sailing under false colors; no good comrade would sail under false olors any quicker than he would wear false whiskers.

The G. A. R. is the worthy successor of the Ancient Order of the Cincinnati, revived by the Revolutionary patriots, ndorsed by the G. A. R.

Therefore we may conclude, none bal ose within the fold of the order are enwandered from that fold let him return to the order, be restored and find peace -Conductor Thos. Caldwell, of the A. and tranquility beneath the starry flag.

SAMUEL D. IRWIN, Q. M. Blowing Out Oil, Instead of Pumping.

A plan in bringing oil to the surface by blowing is coming into general use in county seat last Saturday looking up a the Corsicana, (Texas) district, and may do away with the sucker-rod and work ing barrel. W. H. Staley, the largest operator in that field, thus describes his new and cheaper device for getting out the fluid:

> It consists of a central power plant, which can be used to operate as many wells as desired. A arge steel tank capable of withstanding a high pressure, and somewhat resembling an ordinary gas tank, is erected at a central point. With the assistance of boiler and engine, a high pressure pump having been connected to the tank, air is forced into the tank, a gauge registering the pressure, and when it has reached the desired point the work of "blowing off" the wells is the work of a few minutes. The well must first be tubed in the ordinary way, after which a three quarters plee is inserted and extends the full depth of the well, the lower end resting on the bottom and a few inches above are perforations. The lead pipe extends from the well to the tank, when it is connected. By opening a stop-cock the compressed air rushes from the tank through the lead line to the bottom of the well, and forces the oil to the top through the tubing and into the tank. The wells It is are "blown off" twice a day, and they produce as much as if operated with the ordinary pumping outfit.

a Happy Home is one of the dearest Wishes of every human heart, especially in this free America, which is proverbialy a Land of Homes. The first requisite for a Happy Home is Love and Affection, for

without these a gilded palace is but a prisen cell to aching hearts starving for human sympathy and love.

The next great desideratum is to make the home (however hamble it may be) as C infortable as possible. In these days of low priced household goods, it is compara evely an easy thing to have A WELL FUR Silver Plated Ware, NISHED HOUSE, even for the man Oil Cloth. Linoleum, Matting, Crockery, China, Glassware, Lamps, Wooden Ware Baskets,

Step Ladders,

Etc., Etc. wh se daily wages are small. It only needs a well-directed effort. To make this effort still easier, the system of selling goods on the EASY PAYMENT PLAN has within a few years been mangurated, and has proved a blessing to many thousands of families

What is the EASY PAYMENT PLAN?

1st. It enables people of smail means to procure those needed sitic es which they could not get if Required to Pay Cash Down.

24 It gives the use of the articles While you are Paying for

3d. It Leads to Habits of Economy, for knowing that you deny yourselves of some unnecessary expenditures in order to meet these payments promptly,

And What is there that gives more solid, every day comfort and happiness than a well furnished house?

And now one word in conclusion, I want it distinctly understood that my prices for goods on the easy payment plan are fully as low as you would have to pay cash down at other stores.

Look over the catalogue of goods for sale at my Mammot Store, and you will see that it contains Everything E-sential to Comfortable Housekeeping It is my intention to keep on hand a full assortment of every article which housekeeper may need. My stock is indeed enormous.
