

WEDNESDAY, FEBRUARY 21.

It doesn't make much difference what kind of paper a man's notes are written upon, if he can only realize on them. But a woman's notes should be written on the best and most appropriate paper obtainable.

The "Society Miniature Note" and "Bank Note Bond" are the small papers for invitations, regrets, etc.; price 35c. The regular sizes in Hurd's range from 25c. to 45c. We have, however, a good note paper in pretty boxes that sells for 15c.

Legal-cap and fool-cap and note paper and envelopes, in bulk, tablets, business blanks and blank books for commercial use, such as ledgers, journals, day books, record, counter, time and memorandum books and anything for the desk or office.

Ask to see the Photo. mailing envelopes if you wish to see something you have always felt the need of when sending pictures by mail. Put in the photograph, write the address and put on a 2c-stamp and the trick is done. No bother, 5 cents each.

Central Passenger Association Mileage tickets will be accepted for passage on trains of the Nickel Plate Road on and after Feb. 10th. Yesterday, election day, was one of unusual quietness both in the borough and township, with a comparatively light vote out in either precinct. Central Passenger Association Mileage tickets are good on the Nickel Plate Road between Buffalo and Chicago and intermediate stations on and after February 10th. Fresh vegetables already to be had at Amster's. They are direct from the Southern markets, and as delicious as the home grown article. And not high in price either. Try them. The editor can not make news. He can only print the news he hears of; he can't hear unless somebody tells him. If you cannot tell him write down what you know and send it in. News is always thankfully received at this office. Dr. MacArthur's lecture at the court house last Wednesday evening, "The Present Heroic Era in American History," was doubtless the finest ever listened to by a Tionesta audience, and we have the first one to hear of who came away disappointed. The liquor dealers of Sharon are now working a novel scheme. Each week they secure from the local justices a list of all men up for drunkenness and then refuse them drink at the bar. This might work all right in Sharon, but it would bankrupt the saloonists in some towns, says the Franklin News, and we suppose it knows. Fresh groceries sold cheap at Tionesta Cash Store. Hopkins sells the shoes and rabbit...

Perhaps the most miserable individual on earth is the man who has contracted a pair of broken and knotted shoe strings. The loss of a half dozen buttons from his clothing, the well known perversion of a collar button, the obstreperousness of an undersized glove, a hole in his trousers pocket, grease spots on his most lustrous of vests, all of these constant sources of irritation, combined, cannot cause as much downright and prolonged wretchedness as a pair of knotty, rotten shoe strings. Perhaps, Spirit. Having been pestered for two or three mornings past with a pair like that, there's our sentiments to a nicety. It is reported that dynamiters have already been getting in their deadly work on the fish between this place and Hunter's station since the ice went out of the river. There should be no mercy shown the dastard who would operate this devilish method of clearing the fish out of our beautiful Allegheny, and the man who knows of such work going on should be well rewarded for giving information that will bring the guilty to punishment. And the officer who has knowledge of such work going on and neglects to bring the offender to justice should be more severely dealt with than the culprit whom he either seeks to protect or is too cowardly to prosecute. Why not all decent people stand together and stop this business. It could be done.

Three Fingers Taken Off.

Fred. Bristow, who had been employed at the mantle factory for some time had the misfortune to meet with a severe accident this morning. He was working at the rip-saw when his right hand came in contact with the saw, and the three first fingers were taken off at the second joints. Drs. Morrow and Boward dressed the wound, and Fred is as cheerful as one could be under the circumstances.

Oil Notes.

Ed. Wasson has begun drilling on the well on the old Proper well site, Little Coon creek, Green township. This is the well mentioned some time ago in these notes, but had been delayed for various reasons. It is located on warrant 3817. Drillers over on N. N. Patterson's operations, near Stewart's Run, have just finished a bad fishing job, and are again drilling. Grove & Proper, on the Barton farm, Fannetown, Crawford county, drilled their well to the third sand, but finding no oil, abandoned it. The other day they torpedoed it in the first sand and secured a good paying well. Reports come from the vicinity of Guiltsville that the South Penn company, has finished a well on warrant 5134, Kingsley township, but failed to get any oil. It is not at all likely the company will stop operations with this venture. Grove & Longwell will finish their second well on the Longwell & McFee tract, near the Powell lease, Hickory township, this week. Albert promises to show us a producer when this venture is opened.

Forest County Lads Elope With A Townville Young Man.

The Titusville Herald of last Thursday gives the following account of an elopement, omitting names: An irate father in hot pursuit of a runaway daughter and her lover arrived in Titusville at noon yesterday, having followed the couple to this city. The father, who hails from Forest county, told the following story of the escapade at a house at which he called in search of some trace of the runaways: The young man, who is a resident of Townville, and is aged 26 years, has long been courting his daughter, who is 15 years of age, but his suit was not looked upon favorably by her parents, and the course of true love again did not run smooth. Monday he called at his lady love's home but was forcibly ejected from the house by her father. Wednesday afternoon while the girl was attending school the lover called for her. She was excused by the teacher and the two drove away in a buggy. The father did not return from his labors until late that night to find the daughter not at home, and an investigation developed the fact of the runaway. The angry parent started after the missing couple early yesterday morning. At East Titusville his search was rewarded with the first information concerning them. They had passed through that village shortly after 6 o'clock Wednesday evening. They drove straight through Titusville, never stopping until the extreme west end of the city was reached. Here they called at a residence and remained long enough to get warm. This the father found out yesterday afternoon, and following up the trail discovered that the pair ate dinner yesterday noon at Clapville, about nine miles from here. He is now following closely after them. The couple are evidently sharp enough to keep away from the railroads, as telegrams were sent along the line into New York State Thursday without result. The father is determined to prevent the marriage if possible on account of the girl's youth and his belief that the young man has not very good sense. The outcome of the runaway will be watched with interest.
