#### Woman as Seen by a Seller of Rugs and Clocks on Installments.

"I'll tell you what a woman will and will not do in my line of business," said the man who was selling clocks and rugs on the weekly installment plan. "You can always figure as a starter that she's going to haggle about the price. If I'd offer one of these \$8 clocks for \$2.50, the average woman would want something off. As soon as the weekly payments begin she'll make a neighborhood hunt for plugged coins and smooth pieces and work them off on the collector. She'll also stand him off for a day or two every pay day, and even when the money is ready she'll hang to it to the last.

"That's what you can figure on 19 times out of 20, but there's a big offset, It's rare that women ever skip out and take your property along. They could do it in scores of cases, but their conscience forbids. It's conscience and not fear of the law.
