BRABANT COMPELLED THEM TO RE- Dun's Review So States of the Weekly Output In Iron and Stiel-Review of Trade

> Co.'s weekly review of trade issued today said in part: Besides the 881 commercial failures

for \$9,931,048 which was were reported there were in February six banking failtires for \$620,241, and receivers were appointed for the United States Flour Milling company, with \$25,000,000 of stock and \$15,000,000 of bonds authorized at its organization last April, and for Third Avenue Railroad company, after liens for several millions had been placed upon the property. Unless separated from such events, commercial fail-

ares could not be compared with benefit. The manufacturing failures for \$4. 257,638 were larger than in February of 1896 or 1895, but more than half the amount was in two classes, four large lumber and one clothing failure making 38 per cent of the whole. The trading failures were larger than in February of last year, only but 20 per cent o' these defaults were made in five failures. In most branches the comparison with previous years is encouraging and analysis brings out in strong light the remarkably low average of liabilities in the smaller failures which constitute the great majority indicating sound business conditions and unusually satisfactory collections.

Except across the ocean, where events in South Agrica caused nearly all business to be forgotten, changes in the stock market rank next in financial interest to the rise of cotton. It was a revelation of the appreciation in which American railway stocks are held to see them strongly supported, with Third Avenue falling to about 50 and Flour Milling dismissed to the hands of receivers.

The small rise in wheat last week. although the price is quite low, sufficed to call from the farms such receipts, 4,105,661 bushels, against 3,195,437 bushels last year, as to indicate that supplies are not nearly exhausted. Exports from Atlantic ports continue small, for the week, flour included, only 1,812,306 bushels, against 4,069,984 bushels last year, and in four weeks from both coasts exports have been 11,639,260 bushels, against 14,823,373 bushels. Though exports ran behind last year's, which were almost unequaled, they have already exceeded in eight months those of most full years, and the exports of corn, in four weeks 12,724,645 bushels, against 12,051,053 bushels last year, explain much of the difficulty, corn rising cent during the week, while wheat declined 114 cents.

The iron and steel industry continues the greatest weekly output ever known, even while men speak of it as waiting for more definite assurances about the future. Prices of pig yield a little, some sales of Bessemer having been made at Pittsburg for \$24, and anthracite No. 1 is quoted here at \$23.50. Billets have been sold at \$33 at Pittsburg. For most finished products prices are stronger than a week ago, or as strong, bars and sheets being strengthened by large business, while only plates appear weaker, 2.10 being quoted for sizes not the widest Coke is scarce and higher in spite of the largest output, ever known, and the wages of hands have been raised 1216 Per cent to the highest ever paid.

Failures for the week were 222 in the United States, against 186 last year, and 28 in Canada, against 470 last year.

Notwithstanding the agreement made by the senate to vote on the Hawaiian government bill at Wednesday's ses don, the final vote on the measure was postponed until 4- o'clock Thursday. The bill was under consideration nearly four hours. Mr. Aldrich made an explanation of the work of the conferees on the financial measure, his statemen resulting in an unexpected and spirited debate. One of the features of the session was the speech of Mr, McLaurin (Dom.) on the Philippine question. He is the first Democrat in the senate to declare himself for expansion.

The battle over the Porto Ricon bill in the house ended Wednesday in a sweeping victory for the Republicans. The bill, amended as agreed upon at the conference of Republicans on Monday night, so as to reduce the tariff from 25 to 15 per cent of the American tariff, and limiting its life to two years, was passed by a vote of 172 yeas to 161 mays. Little of importance occurred in the house or senate on Thursday.

At the close of Mr. Ross' speech against seating Quay, Mr. Teller discussed the conference report on the financial bill.

In the house, Monday, Mr. Bailey (Dem., Tex.), after sharp words with the speaker, inaugurated a filibuster and prevented the passage of a bill of minor importance.
