RUMORS OF PEACE are the messages the world hopes to hear now from South Africa.

THE OWNERS OF cotton are better pleased than the sugar men, though the latter have a trust to help them.

EVEN THE Kentucky Democrats are growing ashamed of the Goebel law, and a movement is on foot in their own ranks for its repeal.

PRESIDENT McKinley remarks of imperialism that "there is universal abhorrence of it and unanimous opposition to it," language that ought to settle the President's position on the subject.

COKE is scarce, and in spite of the largest output ever known, the price has advanced. As a natural consequence in these good times the wages of the hands have been raised 12 1/2 per cent., the highest ever paid.

GEN. LAWTON'S widow has received the popular subscription, amounting to \$8,432, and knows that with it is conveyed the heartfelt appreciation of the people for a true patriot and a soldier of remarkable ability.

THE death of Edward J. Phelps, at his home in New Haven, on the 9th inst., of pneumonia, removes another of America's broad minded men. He was minister to the Court of St. James during the second Cleveland administration.

SENATOR LODGE made an able speech outlining his views of this Government's duty toward the Filipinos and highly endorsing the policy of the Administration. He truly said that McKinley's "own policy and his own acts in the East are his all-sufficient defenses, both now and in history."

GEN. BULLER'S many marches back and forth over the Tugela recall the remark of a soldier in Georgia during the civil war. He had waded through the windings of the same stream a dozen times when he said: "See here, boys, I'm blamed if I don't think we're crossing this darned river lengthways."

THE average farm value of corn in 1894-1896 was 24.6 cents per bushel. Last year when the crop was 195,600,000 bushels larger, the average price was 30.3 cents per bushel on the farm. During McKinley's prosperity there has been a greater demand for this leading product of the farmers and at much better prices.

It is recorded that a farmer in Fulton county, Ohio, recently sold 125 head of sheep for \$800, being an average of \$6.40 per head. The farmers there say that under the Wilson free-trade period that number of sheep would not have brought to exceed \$125, and that the owner would have had to look around a long while for a purchaser at any price.

SEVERAL weeks ago Judge John J. Mitchell, of Wellsboro, Tioga county, suffered a stroke of paralysis affecting the entire left side of his body, and last week he was removed to Philadelphia in a special car to receive hospital treatment. Judge Mitchell was elected a Superior Court Justice at the last November election, but it is very doubtful whether he will ever recover sufficiently to assume the place to which he was elected.

INDUSTRIAL Ireland rejoices over existing conditions in Cuba. Under the Spanish misrule of that island it was impossible for the Belfast linen manufacturers to do any business there owing to the preferential tariff in favor of Spain and the extra cost of gold for London bills of exchange, for Irish goods over Spanish currency payments. Cuban merchants are now buying where they can get the best goods at most reasonable prices and are remitting promptly. A Belfast linen merchant attributes this to "the wise, able, and enlightened government of that country by the United States."

THE British war, undertaken for the purpose of subjugating the South African republics to Cecil Rhodes, Joe Chamberlain and the diamond kings, is one of the most costly of modern times. On Tuesday the Parliament voted a loan of \$175,000,000, being part of the \$350,000,000 already demanded for the expense of the war. The heaviest outlay now begins with the march to Pretoria. An army of over 120,000 men must be provisioned in a country that has been stripped of every means of subsistence. The soldiers will know more about war by the time they finally march to Pretoria.—Franklin Spectator.

SECRETARY WILSON, of the department of Agriculture, is credited by the Senate Committee of Manufactures with much interest and energy in endeavoring to expose the adulteration of articles of food and drink that are too frequently foisted upon the American people. But these are not all American goods, the committee finding "that large amounts of imported foods are sold in this country, the sale of which would be prohibited in the country from which they come."

THERE is an old saying that "you can't eat your cake and have it," but the case of the loan of \$25,000,000 to Russia just made by New Yorkers comes pretty near upsetting that theory. The money, although loaned to Russia, is to be expended in the United States for the purchase of the products of American labor, and thus labor as well as capital will profit there by this cumulative prosperity which loans the money abroad and yet spends it among the workingmen at home. And yet there are a few men left who will tell you that this is merely "fictional prosperity."

SOME of the copperhead papers are shouting gleefully, "The Filipino rebellion is not suppressed." This would be great news to the Democratic party if it were true. Bryan would whoop for joy if the Filipinos should make an onslaught on the Americans anywhere in the islands and kill a few hundred of them and drive the rest of them into Manila or on to the warships. But Bryan will never get a chance to do any whooping on this account. The rebellion in the Philippines, which was instigated by the Democratic party, has been suppressed. If the copperhead papers have any doubt on this point, let them ask Aguinaldo about it, if they can find him. He will quickly tell them that the jig is up for him and them.—St. Louis Globe Democrat.

AN editorial of the Philadelphia Times on the course of the Senate on the financial bill reported from the conference, assuming the certainty of its final passage says: "This is a clear gain to business stability, at least, for which the country is to be congratulated, and the majority in congress is to be commended. While the passage of a currency bill which recognized gold as the monetary standard of the country and eliminates the endless chain system of depleting the Treasury gold reserve, is only the belated fulfillment of a campaign promise made nearly four years ago, it is an exceptional instance of a campaign promise fulfilled. Many campaign promises are made to the ear to be broken to the hope, and the business interests of the country are to be congratulated that the gold standard promise was not one of this sort."

Penal Statutes and Reform.

Sometimes in the distant future, perhaps a thousand years hence, the fact will begin to dawn upon the people that attempts to promote morality by legislation are so much wasted time and energy. If people could be made conscientious, honest, temperate and religious by statute, the occupation of the preacher, moralist and teacher would be gone. What is needed is character building—teaching that will make men and women strong against temptation—education, refinement and good taste. These can be inculcated into mankind, but cannot be legislated into the people. A man who can only be induced to be a gentleman through fear of the law, will be nothing more than a miserable sneak, anyhow. Of course we need laws to punish the criminal, and those who do not have proper regard for the rights of others, but these laws do not improve a man's morals. They only restrain the vicious without making them any less inclined to vice. Strangely enough the chief advocates of the class of legislation known as "blue laws," are the ministers, when, if such laws were practical, they would rob the minister of his occupation. The truth, however, is that the churches and schools are the only institutions that can be depended upon to exert those influences upon the mind that develop the moral faculties and really lessen the tendency to vice and crime. Penal statutes, so far as effecting genuine reform in the character of men is concerned, are ropes of sand that perish in the twisting.—Pittsburgh Spirit.

\$500 in Cash Prizes.

Anna Catharine Green is one of the most famous of American writers. It would seem, therefore, the announcement of the Philadelphia Sunday Press that it proposes to give free in illustrated book form beginning with next Sunday's Press (Philadelphia March 18), her greatest novel would create a sufficient furor. It is the rule of the Philadelphia Press, however, not to do things by halves; consequently, in addition to giving free this great novel, announcement is made that \$500 in cash prizes will be distributed among readers on a very simple plan. There will be one prize of \$100, five of \$20 each, ten of \$10 each, twenty of \$5 each and one hundred of \$1 each, so that no person shall be entirely disappointed. Read Anna Catharine Green's story in the illustrated booklet which will be given free with next Sunday's Press, and you will learn how to secure one of the cash prizes. The demand is certain to be great; therefore, you had better order next Sunday's Press in advance.

BAR-BEN

THE GREAT RESTORATIVE. It's not a "patent" medicine, but is prepared direct from the formula of E. E. Barton, M. D., Cleveland's most eminent specialist, by Hjalmer O. Benson, Ph. D. BAR-BEN is the greatest known restorative and vigorator for men and women. It creates solid flesh, muscle and strength, clears the brain, makes the blood pure and rich, and causes a general feeling of health, strength and renewed vitality, while the generative organs are helped to regain their normal powers and the sufferer is quickly made conscious of direct benefit. One box will work wonders, six should perfect a cure. Prepared in small sugar coated tablets, easy to swallow. The days of celery compounds, nervines, narcotics and vile "tonics" are over. BAR-BEN is for sale at all drug stores, a 60-dose box for 50 cents, or we will mail it securely by express on receipt of price. DR. BARTON AND BENSON, BAR-BEN BLOCK, CLEVELAND, O.
