DAVIS RESIGNS. FUNERAL OF SAWYER.

OF BOERS. Felt He Could Do So Better as a Private Citizen Than as Assistant Secretary

South Africa. Washington, April 3.-The formal resignation of Webster Davis as assistint secretary of the interior was sent to the president through his private secretary. At the White House no statement was obtainable concerning the resignation other than the fact that it had

been received, and the officials declined

to say whether it would be accepted. Mr. Davis decided to resign because of the acceptance of an invitation to deliver a lecture on the South African war, and he felt that as an official he could not express his views with such freedom as he could as a private citizen. The invitation was extended by non-partisan citizens of Washington and was not inspired in any way by persons directly connected with Boer in-

well.

The Boers were still holding the water works and the line of hills behind them. BUSHMAN KOP, April 2.- The British force commanded by Colonel Broadwood, consisting of the Tenth Hussars, Household cavalry, Twomhorse batteries, and a force of mounted infantry under Colonel Pilcher, which had been garrisoning Thaba N'Chu, was obliged in consequence of the near approach of

a large force of Boers to leave. Colonel Broadwood marched to the Bloemfontein waterworks, south of the Modder, where he encamped.

Later the camp was shelled by the enemy from a near point. Colonel Broadwood sent off a convoy with the batteries while the rest of the force remained to act as a rear guard.

The convoy arrived at a deep spruit. where the Boers were concealed, and the entire body walked into ambush and was captured, together with six guns, The loss of life was not great, since

most of the British had walked into the trap before a shot was fired. General Colville's division arrived here and was shelling the Boers.

The Duke of Norfolk caused a sensation in London by resigning the postmastership for a subordinate post with the British forces in South Africa.

REV. DR. HILLIS RESIGNS.

He Sent a Letter Asking to Be Allowed to Withdraw From the Presbyterian Church.

CHICAGO, April 3.—The resignation of Rev. Newell Dwight Hillis, paster of Plymouth church. Brooklyn, from the Chicago presbytery, and the request that he be allowed to demit from the Presbyterian church, was placed before the annual meeting of the Chicago presbytery No action will be taken on the matter for two weeks, the committee to which Dr. Hillis' letter of resignation was referred for consideration requesting that much time on account of the many important interests involved, and being unwilling to take hasty action on a matter so important to the Presbyterian churth.

Dr. Hillis' resignation was in the form of a letter to Dr. W. C. Gray, editor of The Interior, and a personal friend of the Brooklyn pastor, and when the aged divine stepped upon the platform to present the letter to the Chieago presbytery, the auditorium of Olivet Memorial church, in which the meeting was held, was crowded to the doors, nearly every Presbyterian minis-

Washington, April 2.-The sub-committee of the senate, consisting of Senators Platt, of Connecticut; Aldrich and Teller, which went to Cuba for the purpose of personally investigating conditions on the island with a view to intelligent action by congress with respect to Cuba, returned to Washington. Senator Platt, chairman of the sub-committee, authorized a statement concerning the sub-committee's observations, in which he said in part:

"We were in Havana in all five days, We also visited the provinces of Pinar del Rio, Matanzas and Santa Clara, being unable to go to Santiago and Puerto Principe, as we very much wished.

"It may be said of all classes in Cuba that they are looking to the establishment of an independent government, a Cuban republic. A few are impatient and wish for immediate independence. Others are less impatient, believing that sufficient time should be taken to avoid mistakes and to set up the new government upon such a firm basis as to insure its success and permanence. All are looking forward to the municipal elections that are to take place in the latter part of May, regarding such elections as the step toward the establishment of the new government. Much will depend on the result of these elections. If they take place without disorder and good officials are elected, that will go far to prove the capacity of the people for self-government, and steps can be taken without great delay for further progress in that direction. The problem is complicated by the fact that self-government is an untried experiment, by a people who have had little opportunity to study its principles or details, its necessities or its responsibilities. Many of the more conservative citizens and business men, unfortunately, show too much disposition to hold aloof."

The administration of Governor General Wood is highly praised by Senator

Platt. He then said in part: "It is not too much to say that the people of Cuba, in respect to the formation of a stable and beneficent government, are very much like children who have to be taught and led. They regard the United States as their friend and teacher, and as a whole are quite willing to be guided.

"There are great possibilities in the island. It is fertile, has great natural THREE TENTH HEROES BURIED. resources, and is capable of supporting a population four or five times larger than Jesse Noss, Jacob Hull and Robert Fox it numbers at present. On the whole, since the declaration of peace, but it needs American capital and American enterprise, which hesitate as yet to go there. English and German capital seeme more confident and is being invested. Surely our own people ought to have as much confidence in the future of Cuba as foreigners have."

DINGLEY TARIFF

THE WRONG BASIS.

Assertion of a Porto Ricon Who Say: Present Bill Is Crime Against Capital and Labor.

SAN JUAN, Porto Rico, April 2.-Mr. W. T. Townes, president of the Porte Ricon Tobacco company, who already had declared that the proposed tariffs would keep Porto Rico out of the Amercan market, and that as the result of it she would sell to Europe, China and Japan, instead of the United States, declared that 15 per cent of the Dingley rates would prohibit Porto Ricon manufactured tobacco selling in the United States. The raw leaf would pay an average of 514 cents per pound, and finished goods 7712 cents per pound. This would be discriminating in favor of the United States manufactures to the extent of \$725 on each 1,000 pounds.

"Skilled labor," he said, "is higher here than in the United States, and the passage of the proposed bill would do an injustice to the Porto Ricon manufacturer. It would be a crime against the labor and capital of Porto Rico. If congress is sincere in its purpose only to raise revenue for the island, it cannot honestly take the Dingley bill as a basis, The differential rate between finished and raw products will protect the United States manufacturer, but slaughter the Porto Ricon."

REAL PROGRESS WAS MADE.

Dun's Review Notes Better Condition of Stocks Than a Year Ago. The Failures.

NEW YORK, March 31.- R. G. Dun & Co.'s weekly review of trade, issued today, said in part:

Progress toward better things has been unmistakable. It was a year ago that the frenzied speculation in industrial stocks reached its culmination with prices averaging higher than at any time since, while railroad stock after some decline rose \$1.18 per share higher in September, and after the fall in both which ended in December, have now risen \$8.35 per share to the highest point of this year. The advance during the past week has been remarkably vigorous, and with more public support than before.

Wheat exports fall far below last year's, amounting in four weeks to 9,. 766,891 bushels, against 14,105,886 last year. The price has advanced 214 cents with statements that the crop of France is greatly reduced, though it is rather early to make any such estimate. The exports of corn again prove the magnitude of foreign demand for cer-als, as the extraordinary movement of last year is closely approached, 11,794,875 bushels having gone abroad in four weeks, against 13,102,811 last year. The western receipts are nearly three times as large as in the same week last year, indicating an abundant supply on hand, but the price has risen 116 cents.

Wool has declined fully 1 cent on the average of revised quotations, and more for fleece and fine or fine medium territory, which sells at 55 cents clean, with medium clothing at 50 cents. The goods market is quiet and orders are limited, and outside the favorites prices are irregular, with 4 per cent decline in some medium woolens and fine worsteds.

Iron is growing weaker, except in Bessemer pig, which is held at \$24.90 at Pittsburg, in spite of small sales of eastern at lower figures. Anthracite No. 1 has sold little above \$23.00, and basic at \$22.50, with eastern forge offered at \$20,50 at Pittsburg.

In finished products no further change appears except in refined bars, which sell in large orders close to 2 cents at Philadelphia, and plates which are selling at 2 cents or less at both markets. Better prices are expected from the consolidation in sheets. But it will not be easy nor in the end profitable to hold prices after supplies so far exceed demand that material can be bought at lower cost.

Transactions through clearing houses show a much smaller volume of business than a year ago, the daily average for March being 14.3 per cent smaller than last year, but 34.4 per cent larger

Failures for the week were 203 in the 33 in Canada, against 26 last year.
