Americans Routed a Band of Rebels in Province of Albay-Their Loss Heavy, Two Towns Attacked by the Enemy, Americans Repulsed Them.

VOL. XXXIII. NO. 4.

MANILA, May 8 .- Telegrams received here from General Young report that Againaldo has rejoined the rebel general, Tino, in the north, and that they have reassembled a considerable force in the mountains. General Young desires to strike them befere the rains, and asks for reinforcements. The tenor of the dispatches indicate that General Young is confident that Againaldo is

with Tino, and it is presumed they are planning to resume fighting during the Company F, of the Forty-seventh regiment, met and routed a band of the

enemy between Legaspi and Riago, province of Albay, April 13. Two Americans were killed and fivo 'were wounded, including two officers. The Filipinos lost heavily.

The conditions around Legaspi and Sorsogon are reported to be continually disturbed.

Two rebel attacks on the American garrisons in the Visayan islands recently resulted in the killing of 280 of the enemy and the wounding of two Americans.

About daybreak, May 1, 400 rebels, 100 of them armed with rifles, attacked Catarman, in northern Saonar, in the vicinity of Catubig. Company F, of the Forty-third regiment, was garrisoning the place.

The enemy built trenches on the outskirts of the town during the night, and fired volleys persistently into it until the Americans, charged the trenches, scattered the Filipinos and killed 155 of them. Two Americans were wounded. This attack was precipitated by the enemy's recent successful fight at Catubig. The garrison of Cataman has been removed to the seaport of Laguan.

A force of Filipinos, estimated to number 200 men, armed with rifles and and 600 armed with bolos, and operating four muzzle loading cannon, attacked Jaro, on Leyte island, April 15, which place was garrisoned by 25 men of B company, of the Forty-third regiment, Lientenant Bates commanding. Bates left 15 men to protect the town and with the remaining ten men he advanced on the enemy in two squads,

sheltered by the ridges south of the town, when they stood off the Filipinos

for three hours. Then 20 armed members of the local police force sallied forth to help Eates' Americans. The latter, with the police, charged the enemy, and together they dispersed the Filipinos, and after the fight was over buried r of them.

There were no American casualties.

has been the department's New York agent in the matter, saying that the Quito, which arrived Friday, had been thoroughly inspected and found satisfactory in every respect. He expected that loading the cargo which began Monday, would consume

three days. The ship will then sail for Bombay. She will carry 185,000 bushels of corn to the starving Hindoos and the navy department will pay \$40,000 for the transportation.

INDIA RELIEF NEEDED ON A LARGE SCALE.

About 93,500,000 Suffering-Present Re lief Practically Amounts to Nothing.

LONDON, May 7.-Cholera is strengthening its deadly hold on famine-stricken India, About 93,500,000 persons-fot this is the population of the district affected-are sweltering their squalid

existence away amid pestilence and misery that shows no sign of abating Hundreds of thousands of pounds in good British gold, good German marks and American corn have been thrown

into the country; but, judging from ad vices, all this charity is merely a drop in the ocean. The famine and its attendant complications appear to exceed in virulence any two previous visitations. The viceroy, Lord Curzon, of Kedleston, and the government, are making ceaseles: exertions to meet the terrible-emergency but the stupendous difficulties confront-

ing them prevent the present supplying of relief to more than 5,000,000. In the meantime the native states are dotted with heaps of dead and dying, and the roads are crowded with ghastly

bands seeking to escape from the stricken territories, but who, for lack of food and water, mostly succumb in the attempt.

FOREST REPUBLICAN.

Memory of Moody, CHICAGO, May 7 .- The report of th constitutional commission to the Meth odist general conference, which wil probably be presented this week, wi call for the continued maintenance of

the religion of John Wesley. The episcopacy may be abandoned and other constitutional features changed, but the articles of religion, the doc trines of the church, are to be retained in their purity. The heretic of the fut ure must leave the church as he has done in the past, but Methodism will not accept any departure from the theology of the fathers.

After an hour of active debate among the delegates to the Methodist general conference Sunday a committee of 18 was appointed to adopt a plan for the union of the Freedman's Aid and South ern Educational society and the Church Extension society, or either of them, with the home department of the Mis sionary society into one society to be known as the Home Missionary Society of the Methodist Episcopal church. The committee was instructed to report next Friday.

H. L. Thomas, of the Washington conference, introduced a resolution la menting the death of D. L. Moody, the great evangelist, and praying that an other great leader might come forth. It was adopted by a standing vote.

At Monday's session of the senate Mr Teller (Col.) delivered a speech in which he strongly urged the senate to extend its sympathy to the Boers in their contest with Great Britain. The adoption of his resolution of sympathy, he maintained, could not be considered by the British government as an unfriendly act. During the remainder of the session the senate had under consideration the naval appropriation bill.
