MANILA, June 4.

Adjutant General, Washington: "With reference to your telegram of 22d ult.: Filipinos killed, 10,780; wounded, 2,104; captured and surrendered, 10,424; number prisoners in our possession, about 2,000. No systematic record Filipino casualties these headquarters. Foregoing, compiled from large number reports, made immediately after engagements, is as close an approximation as now possible owing to wide distribution of troops. More accurate report would take weeks to prepare. Number reported killed probably in excess of accurate figures; number reported wounded probably much less, as Filipinos managed to remove most wounded from field, and comparatively few fell into our hands. Officers of high rank and dangerous, suspicious men have been retained as prisoners: most other men discharged on field as soon as

disarmed. Propose to release all but very few prisoners at early date. "MACARTHUR."

Klopsck Told of Horrible Scenes In th India Famine District-Cholera and Smailpox Raging.

BOMBAY, June 4 .- Louis Klopsch, of New York, publisher of The Christian Herald, who arrived here May 14 and started at once on a tour of the famine stricken districts, has returned, after traveling through the most sorely smitten portions of the Bombay presidency, including Gujerat and Barolda. He makes the following statements regarding his observations:

"Everywhere I met the most shocking and revolting scenes. The famine camps have been swept by cholera and smallpox. Fugitives, scattered in all directions and stricken in flight, were found dying in fields and roadside ditches. The numbers at one relief station were increasing at the rate of 10, 000 per day.

"At Godhera there were 3,000 deaths from cholera within four days, and at Dohad 3,500 in the same period. The hospital death rate at Godhera and Dohad was 90 per cent.

In Captured Saddlebags. VIGAN, Luzon, June 2, via Manila, June 4.-Major March, with his detach

ment of the Thirty-third regiment, reached Laboagan, where Aguinaldc had made his headquarters since March 6, on May 7. Aguinaldo had fled about

seven hours before, leaving all the beaten trails and traveling through the forest along the beds of streams. Toward evening, May 19, Major March struck Aguinaldo's outpost about a mile outside of Lagat, killing four Filipinos and capturing two. From the latter he learned that Agninaldo had camped

there for the night. Although exhausted and half starved, Major March's men entered Lagat on the run. They saw the insurgents scattering into the bushes or over the plateau. A thousand yards beyond the town, on the mountainside, the figures of 25 Filipinos, dressed in whtte, with their leader on a gray horse, were silhouetted against the sunset. The Americans fired a volley and saw the officer drop from his horse. His followers fled.

'The condition of the stricken simply beggars description. Air and water were impregnated with an intolerable stench of corpses. At Ahmedadab the death rate in the poorhouse was 10 per cent. Every day saw new patients placed face to face with corpses. In every fourth cot there was a corpse. "The thermometer read 115 in the

shade. Millions of flies hovered around the uncleaned dysentery patients. "I visited the smallpox and cholera

wards at Viragam. All the patients were lying on the ground, there being no cots. Otherwise their condition was fair.

"I can fully verify the reports that vultures, dogs and jackals are devouring the dead. Dogs have been seen running about with children's limbs in litter, covered with palm leaves. their jaws.

"The government is doing its best, but the native officials are hopelessly and heartily inefficient. Between the famine, the plague and the cholera, the condition of Bombay Presidency is now worse than it has been at any previous

period in the nineteenth century. Whole families have been blotted out. The spirit of the people is broken, and there may be something still worse to come when the moon breaks."

same mission, is missing. TIEN TSIN, June 4 .- The French consulate received information from priests at Pao Ting Fu that 30 foreigners, including six ladies and a child, who were attempting to escape from Pao Ting Fu to Tien Tsin in boats, were attacked by over 700 Boxers armed with rifles and

with important treaties. Of these the treaties with Great Britain and Germany closing the tripartite government in Samoa and awarding to the United States the island of Tatuila, with its valuable harbor of Pago Pago, has been ratified, while the commercial reciprocity treaties with France and the British West Indian islands, and the Hay-Panneefote treaty concerning the inter-oceanic canal, go over without action.

Of the legislation actually accomplished and now on the statute books, the financial act is regarded as the chief achievement of the year.

An act providing a tariff 15 per cent of the Dingley rate for Porto Rico and providing civil government passed, also on the president's recommendation an act was passed appropriating for the use of Porto Rico, the \$2,095,455 col-

lected from island sources since its acquisition. An act also passed to provide a gov-

ernment for the territory of Hawaii. The Phillippines and Cuba have occu-

nied much attention in the way of debate and the adoption of resolutions of inquiry. The Spooner Philippine bill failed to be acted upon. The only legislation as to Cuba is of a comparatively minor character, relating to Cuban shipping.

The extradition bill, applying to all insular possessions and dependencies, has passed both houses and doubtless become a law. It is designed mainly to reach cases like that of Charles F. W. Neelv.

The Nicuraguan canal bill and the shipping subsidy bill are notable instances of legislation partly advanced during the present session, but not enacted into law. The canal bill passed the house and was made the special order in the senate beginning December 10, next. The shipping bill is on the calendar of each house with favorable recommendation from a majority membership of the senate and house committees.

Anti-trust legislation has come prominently into attention in the house at the close of the session, the house having passed a new anti-trust bill and defeated a constitutional amendment

The senate has passed a bill for a cable to the Philippines and beyond, to be constructed and maintained under government control, but no action has been aken on it in the house.

The restriction of oleomargarine has been productive of considerable agitation, mainly in committees, and a radical restrictive bill has been reported to the house.

The general pension laws have been materially changed by the present ongress, largely as a result of the efforts of the Grand Army of the Republie which secured the passage of a bill amending the law of June 27, 1890, so as to permit the "aggregating" of disabilities, and changing the provision as to widows so that a widow may receive pension when she is without means of support other than her daily labor, and had an actual net income not exceeding \$250, e.c.
