A VOTE for a Democratic Congressman means a vote for free trade, free soup, free silver, free bread, free poorhouses and freedom from wage-earning.

"HAVE you heard the news from Oregon?" This was the query which the Democrats were ready to put to their fellow-countrymen on the day before the election in that state. But they will not put it. Their organs all over the country were saying that Oregon was a doubtful state, and that it would be carried by the Democrats in the election which has just taken place. All the doubt that is now felt by anybody regarding the majority which Oregon will give McKinley in November is as to whether that lead will be 15,000 or only 10,000 or 12,000,

## The Trust Question.

The insincerity of the Democrats in Congress in their pretended hostility to trusts was most definitely and conclusively shown by the vote in the House of Representatives last Friday on a res-

upon the legislatures of the ceveral States. The vital part of the proposed amendment reads as follows:

Section 2.—Congress shall have power to define, regulate, control, prohibit or dissolve trusts, monopolies or combinations, whether existing in the form of a corporation or otherwise. The several States may continue to exercise such power in any manner not in conflict with the laws of the United States. To carry this amendment a two-thirds vote was required, and 151 Republicans

voted for it and 131 Democrats against it. Three Democrats voted for it and two Republicans against it. The Democrats excuse themselves by the ridiculous plea that the Republicans | He will return on next week to the South wanted to give Congress full power to west, but will go to Grandin, Mo., where

Congressman Littlefield of Maine, in a speech that aroused the Republicans to great enthusiasm, told how the Democrats had been declaiming against trusts, how Mr. Bryan himself had demanded a constitutional amendment giving Congress full power to deal with them, and urging them to prove that all this was not hypocritical bombast and cheap demagoguery by voting for the proposed res-

This vote completely unmasked the Democratic party on the trust issue, and everything they say during the next Presidential campaigu on the trust question will be regarded as a joke-Panzsu-

### Canada's Bad Bargain.

In granting British manufacturers an increase in the preferential Tarriff amounting to 33 1-3 per cent,, without obtaining a solitary concession of any kind in favor of Canadian exports, the Dominion Government has furnished a tine object lesson in economics. It illustrates the unlimited possibilities of Free-Trade in the direction of egregious folly. Canada's surplus foodstuffs, or any other things which she has to sell, are received in the British markets exactly as the exports of other countries are receivedthat is, duty free. Therefore the Canadian farmer gets no benefit from the preferential Tarriff. How does the Cannadian manufacturer fare? Very much worse than the farmer, for he is forced to ted at reduced rates of duty. The Canadian woolen industry is threatened with extinction by reason of Sir Wilfred Laurier's bad bargain. The woolen manufacturers have protested in vain against having the ground out from under their them ruined, by the inflow of cheap British goods. The Dominion wonders why its population increased so slowly. Free-Trade statemenship furnishes an answer to the query .- American Economist,
