MISSOURI wants President McKinley reelected. Frank B. Moore, editor of the Daily Herald, of St. Joseph, says: "Democracy has nothing to offer to the public," but he predicts that the dinnerpail brigade will turn out solid for Me-Kinley in November,

the record in that county.

THE Republicans of Jefferson county nominated Dr. S. S. Hamilton of Punxsutawney, for assembly, at their prima-600. W. D. Dunsmore was the independent candidate but did not cut much figure in the contest,

THE Treasurer of the United States gives figures showing that this country borrows money at a lower rate than any other nation, and that "money is cheaper with us than anywhere else among men," It means much to say in connection with this statement that every dollar issued by the United States is equivalent to gold.

WITH an available cash balance of almost three hundred million dollars (\$300,000,000) in the treasury at Washington, the nation's finances are in considerable better shape than they were when Grover Cleveland and secretary Carlisle were hunting around to sell United States bonds in the London market at high rates of interest.

Per into McKinley phraseology a late dispatch from Manila reads thus: We have benevolently assimilated 298 Filipinos. We had one man killed,-Brookville Democrat. Had the dispatch read : the busy man has too much use for his time to devote so much of it to the news-"298 Americans killed and one Filipino paper hunt. It is undoubtedly a fact that a large percentage of the matter pubseemed much more Bryanesque to the un-American Democrat.

JAMES R. KEKNE and Oliver H. P. space, will be the one in demand. Belmont are predicting Democratic success this year. Mr. Keene is the Wall sereet bear who thrives on commercial depression and has accumulated millions by reason of the past financial distress, Mr. Beilmont inherited his millions, Yes, the Democratic party is terribly opposed to the millionaires.

THE sugar trust did not get the gift of \$14,000,000 with which the Democrats tried to present it under the joint resolution of Congressman Richardson, of them. Tennessee. His idea was to wipe out the tariff on all sugar brought into the shirt. THE insincerity of the Democratic leaders on the trust question was demonstrated in the House of Representatives when they declined to vote with the Republicans for a constitutional amendment. leaders on the trust question was demonpublicans for a constitutional amendment which would have taken the evil in hand in an effective manner. The Democratic leaders don't want the trusts destroyed, They need them for camdaign material.

THE great Republican convention at Philadeli hia was organized yesterday with all the enthusiasm befitting so great an event. President McKinley's name was everywhere cheered to the echo. The Vice Presidential nomination is the topic of the hour. Governor

THE late strikes have not been because of the lowering of wages, but for an increase, and the laborers feel that there are no idle men to take their place. In 1896 this was different. When a man had a job, then he considered himself in posed to those millionaires who don't con- luck. There is no better proof of the genuineness of Republican prosperity than is to be found in the industrial condition now prevailing, and the comparison of them with what existed four years ago. - Davenport (Ia.) Republican.

SINCE the establishment of the tin plate industry in the United States, there has been saved to this county upwards of \$100,000,000. We used to import Welsh Ex-Gov, James E. > THE Oil City Blizzard, which is all cream, not skim milk, gives utterance to this truth concerning the mass of rubbish usually sent out from the big city offices: It is quite proable that the time will come when some publisher of a metropoliton paper will make the discovery that the public needs would be better supplied by a newspaper containing the pith of the news than by one of eight, ten or twenty pages filled with mere words. At the present time the rivalry is all in the direction of quantity, with little reference to the quality. The actual news of almost any of the big papers could easily be compressed into half the space now utilized, and the small paper would doubtless be more satisfactory to the great majority of readers. As it is at present the seeker after information is mpelled to wade through column after column of verbiage and superfluous de-tail to get what he wants. In these days lished in many papers is hardly ever read at all. The time will come when the multum in parvo paper,—the one giving the most news in the smaller
