MR. ALTOFLD has announced his intention of ratiring from politics after the Kansas City convention. He will not wait for the November ejectment.

For a man who spent good money for a colonel's uniform, Mr. Bryan's opposition to militarism can only be explained by the poor fit his tailor must have given him.

BETS of 4 to 1 that McKinley will be reelected President have already been made. A New York Republican, who had \$10,000 to wager, at 3 to 1, found no enthusiastic Democratic takers.

WHEN the returns are counted next November the Democrats would do well to put their handsome minority in the cold storage warehouse owned and operated by the Tammany Ice Trust.

EIGHTY-ONE per cent, of the delegates to the Democratic convention recognized that 16 to 1 was no longer a live issue. But Boss Bryan wanted it, and Prince David voted for it, so that settled it.

H. H. HANNA, of Indianapolis, who started the Palmer and Buckner movement in 1896, thinks the "sound money" Democrats will vote the Republican ticket this fall, That's what most of them did in '96 .- Franklin Spectator. And won.

AMONG other good things said by the President at the polification meeting at Canton was the following : "We have been moving in untried paths, but our steps have been guided by honor and duty. There will be no turning aside, no wavering, no retreat. No blow has been struck except for liberty and humanity and none will be. We will perform without fear every national and international obligation.

THE Kansas City convention attemped to square a circle when it tried to onstruct a sound-money-free-silver blatlorm and nominate a pair of free-silver-sound-money candidates. The two things will not mix. an issue in this campaign. The same platform states, it is true, that imperialism is the "paramount issue of the campaign," but no mere wordy declaration can change facts. Other issues than the

tariff may be given the more prominent position in platforms or in public speeches, but nothing can make secondary that great issue, on the right settlement of which the very living and the well-being it was found impossible to do so. A of the American people depend; the issue whose settlement will determine whether the people of this country shall

clothing, whether or not they shall be poverty-stricken or prosperous. Bryan and his supporters do well to

put the tariff issue in a comparatively unimportant place on the platform. To denounce the protective policy and the Dingley law, and to declare the choice between free trade and protection the "paramount issue of the campaign" would make the campaign a farce-so overwhelming would be the defeat of the free trade forces. The fact which must not be lost sight of, however, is that Bryan is still true and aggressively true, to visited Joe's cabin to look after his small his old free trade principles, and that his election would mean the repeal of the

Joe Thomas' Mysterious Death. There is

The following particulars of the death of Joe Thomas, the colored man whose mysterious death we noted last week, is from the Clarion Jacksonian, and will be interesting to many people in this vicinity to whom the deceased was well and favorably known :

For some days last week (darkey) Jos Thomas, the hunter, had been missing from his usual haun's and some uneasiness was felt for his safety. It was learned that on Monday, July 2nd, he want out in the hills in search of rattlesnakes, from which to extract the oil. That was the last seen of him until his badly decomposed body was found on Friday afternoon, July 6th. The particnlars of the finding of the body are as follows :

As days passed and no word was heard from Joe, several parties went out through the woods in search of him. He was found, however, by accident. Three were out fishing and in going down the river when near the Devil's Race Ground it for nearly a mile up the river, but had attributed the stench to some dead animal. The sight that met their eyes when the body was discovered was horupon a rock and was plainly exposed to the broiling sun. It was covered with millions of bugs and flics, but had not been molested by animals. The dogs which had stayed near the body, except when driven home by hunger, had kept

all large animals away. 'Two of the dogs had made three trips to Clarion and back to the body. One had stayed with it until the day the body was found. Word of the find was sent to this place

IT may be assumed with a good degree of confidence that this campaign will not be as profitable for Mr. Bryan as was the last. The people will be slow to part with their good money to hear hard luck stories.

Latt's see, isn't this Stevenson the fellow that was elected on the same ticket with that awful Democrat man Cleveland? Why that ticket has been worse discounted and abused by the Democrats than the Republicans could find words to do.

In Pennylvania and the Eastern States the mass of gold Democrats agree that silver is dead and that the colonial policy is the issue .- Democratic Exchange. Then why monkey away so much space in the Democratic platform with the decayed silver issue? What a meandering set these Democrats are, to be sure,

EX-SENATOR HILL made a hard fight for sound money at the Democratic convention. In an interview at Kansas City, he said:

"The strongest silver men are with us, Even Jones is with us, and has so declared, but he is dominated by Mr. Bryan, Just the same as I am opposed to impertalism in a mation, so I am opposed to it in an individual. This is imperialism of waste matter under the borough building, the worst sort."
