Him-Sketch of His Career.

Humbert I., Renier Charles Emmanue Jean Marie Ferdinand Eugene, King of Italy, born March 14, 1844. He attende In 1996, when Italy fought with Austria

his father, Victor Emmanuel, during the war of Italian independence in 1839. the prince took the field as commander of a division in General Cialdini's army, and was present at the disastrous battle of Custozza, June 23, 1868. After Rome was occupied in 1870 by the Italian troops, he took up his residence

there, and upon the death of his father, January 9, 1878, succeeded to the throne of Italy. In November of the same year an attempt was made to assassinate him, but failed. When the would-be assassin was condemned to death, Humbert comhis sentence to imprisonment at hard labor.

During the cholera epidemic at Naples he exposed himself frequently in his en-deavors to alleviate the sufferings of the sick and dying. By these and other ac-tions of kindness the king won the af-fections of the Italian people. In 1898 he married his cousin, Princess Marguerite of Savoy, and a son was born of this mar-

April 22, 1897, another attempt was made to kill him while he was driving with his nides and escorted by two carbineers to the race track at Capanelle. A workman from Artegna named Nietro Acciarito rushed at the royal equipage and stabbed victously at King Humbert. The king leaped aside and the blade of the dagger or stilletto sank to its hilt in the cush-ions of the carriage. The crowd then fell upon the would-be assassin. Acciarito was sentenced to the galleys. At his trial he acted like a maniac, shout-

ing anarchistic denunctations of society and declaring that he would like to kill all who lived in comfort.

King Humbert's reign has been marked

the constitutional convention and pro-viding for the election of delegates knit together than for any extraordinary activity he has shown in the affairs of the nations of Europe. Most of the his-torians of modern affairs contend that ment which has always clamored for in-dependence sees in the convention the Emmanuel was first saluted king, has been due to the sagacity of her ministers rather than to the greatness of either Humbert or his father. But it is memorable that or his father. But it is memorable that even when Humbert ascended the throne the army and navy of his country were as nothing, his people were impoverished, roads were unbuilt and the nation had a poor standing among the nations of the

The triple alliance, with its accompaniments of ready armies and equipped navy, has flourished under his rule, and his people remained loyal to him in spite of the scandais which shook in turn every minister from place and power. The most Coupons can be sent to the reign had been the consummation of the triple ulliance between Germany, Austro-Hungary and Italy, and the securing of Turkish adhesion to the compact as a pre-cautionary measure against the possible encroachments of Russia and other powers. Beyond this achievement he seemed to have been content to care mostly for Wheeling, July 31.—Word was re-ceived here that Harry L. Crouch, for-bors, companions and friends.

NEW YORK, July 28 .- R. G. Dun & Co.'s weekly review of trade, issued today, said in part:

Speculative activity in raw materials is not present to discourage new business. Producers and consumers are getting together in mer inactivity is emphasized by disturbed foreign relations and hesitation always attending a national political campaign. False starts are to be feared, but the dangerous optimism of last autumn is lacking, and new business is

of last autumn is lacking, and new business is at lower prices.

As to stop decline in wool brought many manufacturers in the market asking terms. Good sales of California and territory wools were made to mills and the trade expects larger purchases to follow the opening of spring goods by the American Woolen com-pany next week. Holders who have land diffi-ently in storing were the chief sellers. Sales cutty in storing were the chief sellers. Sales of wool at the three chief markets were only 4,337,500 pounds, against 10,773,500 last year. 4,337,500 pounds, against 10,773,500 hast year.

In iron, the depression in which has resulted in hesitation and fear in other industries, the tone is better, and in the Pittsburg district the mills have booked a line of fair orders in bars and plates. Structural and bridge materials are better taken. The refusal of the Amalgamated association to allow a change in the wage scale adopted in May has led to strikes at anymerous has mills and the Resulble company. numerous bar mills and the Republic company is to dismantle some plants to secure concentration, but the non-union capacity will prevent serious scarcity. Further business in bars shows that agricultural implement makers are more active. Grey forge has fallen to \$15 at Pittsburg, and Bessemer steel billets sold at \$19. With the uncertainty of the conference of steel companies at Chicago removed, buyers may proceed with less anxiety. It was not surprising that wheat declined still further this week, for the price had been

held far above the quotation ruling at this date in 1899, and crop conditions are so gener-ally satisfactory as to assure an abundance for all home requirements and the usual amount for export. High prices have curtailed foreign buying to some extent, and in four weeks Atlantic exports of wheat, including flour, have been only 7,293,436 bushels, against 8,430,431 last

year.

The shipments of corn make a more satisfactory comparison, in four weeks amounting to 12,720,485 bushels, against 11,881,479 a year Failures for the week have been 231 in the United States, against 151 last year, and 28 Canada, against 20 last year.

It was believed that the basis for the expectation is the knowledge on the part of the officials that certain machinery heretofore set in motion may result in the opening up of communication through some secret but reliable channels. It was known that a second effort has been made by our own government to get another message from Mr. Conger, and that nearly all of the powers also have resorted to private agencies in their own interest with a like object.

The fact developed that one of the last acts of Colonel Liscum before his death at Tion Tsin was to undertake the dispatch of a spr to Pekin General Dorward the British commanding officer at Tien Tsin, also sent out two messengers, and it was believed that the Japanese did the same. As far as developed here Sunday, not one of these messengers had returned to Tien Tsin nor had there been a single word heard from any of them. This fact, however, had not caused the abandonment of hope, and this was true in particular of the message expected from Mr. Conger. Minister Wu is perhaps the basis of this hope on our part, and he maintained an unshaken confidence in his original assertion that the news, when it does come, will show that the legationers are alive. The message reported to have come through Missionary Wilder, at Che Foo, was regarded as most prom-

DFFCIALS BELIEVE FOREIGNERS SAFE ' IN PEKIN. U. S. Consul Fowler Sent News of Dispatches Received From the Japanese and German Legations-The Body of

> Baron Von Ketteler Reported Safe. WASHINGTON, July 31 .- The effect of the news from China was to freshen the hope that the government can soon get in direct communication with Minister Conger. The mass of testimony us to his being alive as late as the 22nd inst., as to warrant the department in resuming the considerations of projects for the future. With all of its anxiety to get Mr. Conger and the Americans in Pekin safely away, the depart-

ment is proceeding with proper cau-

tion and is by no weans disposed to ac-

cept any proposition that would unduly jeopardize their fives. Such might be the result of an offhand acceptance of the proposition to have the Chinese government to deliver the foreign ministers at Tien Tsin, for it is realized that the escort might be overpowered by superior forces of Boxers on the way to the sea. The state department has come to the conclusion that Mr. Conger himself is the best person to judge of the conditions under which his deliverance shall be effected, and, therefore, it is again looking to the Chinese government to place it in communication with Mr. Conger in order that it may be advised by him. That requirement was the first of the conditions laid down by President McKinley, in his answer to the appeal of the Chi-

with missionary work in isolated situa-

tions. "When the governor of Shantung communicated to the consuls the imperial decree of July 24 he omitted important passages addressed to Li Hung Chang:

"It is admittedly inadvisable to kill

all the ministers, but it is equally unwise to send them to Tien Tsin. It will be much wiser to keep the survivors at Pekin as hostages,' "You are commanded to hasten to Pekin. You are incurring imperial displeasure by delay. You have been appointed vicercy of Chi Li because, with your military experience, you will successfully lead the imperial armies against the foreigners in Chi Li, which
