STATE CANVASS FORMALLY OPENED

General Reeder Outlines the Plan of Campaign in Pennsylvania.

DANGER LIES IN OVERCONFIDENCE

An Important Conference With the Secretary of the Republican Congressional Committee Regarding the Election of Members of Congrens.

(Special Correspondence.)

Philadelphia, Aug. 14 .- The Republican state campaign in Pennsylvania was formally opened today with the starting in to work of the entire force of the Republican state committee under the direction of Gen. Frank Reeder, the state chairman. For several weeks the preliminary work was looked after by T. Larry Eyrs, chief executive officer of the state committee, with Chairman Reeder making frequent visits to this city for consultation with his assistants. From now on both Chairman Reeder and Mr. Eyre will be at the state headquarters daily, looking after the details of the campaign and getting matters in shape for the fail fight. There will be little speech making until next month, but there is always a vast amount of correspondence between the state committee officials and the county chairmen in making arrangements for meetings and the canvassing of the various districts.

TAKE NOTHING FOR GRANTED. propose to run this campaign, said Chairman Reeder today, "upon the principle of taking nothing for granted, and we want to impress upon the Republicans of Pennsylvania at the outset the danger of over confidence. We are too apt to assume because Pennsylvania has prospered more than has any other state, under the McKinley administration, that our people will rush to the polls and vote the whole Republican ticket as an evidence of appreciation of what the Republican party has done for the state and the country at large. Unfortunately our experiences do not teach us that we can expect this movement to come voluntarily from all classes of our voters. There are always many who seem to forget the advantages they derive from the success of the Republican party until it is sometimes too inte to overcome the result of this lack of appreciation of the benefits of Republican supremacy. Many Republican candidates have in the past been defeated not because a majority of the voters in their respective districts were opposed to them, but because many of those who really favored their election, neglected to go to the poils and vote for them.

'Now, the aim of the Republican organization in this state this fall will be to impress upon those citizens who the club that's torn down now. Factional interests must be subordinated for the welfare of the party. By the Republicans of Pennsylvania presenting a solid front to the Democracy we should win in every debatable district in this state.

It is understood that Gen. Reeder and Congressman Overstreet arranged for another meeting in the near future, when plans will be mapped out for close co-operation in the work of the Republican organization of this state and the congressional campaign committee in the several congressional districts where the Democrats think they have a chance to win.

An Estimate Giving the Big Lead of Regular Republicans.

QUAY TO MEET THE VOTERS. Beaver Statesman on Returning From Maine Will Go Into the Counties and Canvass For Re-election to the United States Senate.

(Special Correspondence.) Harrisburg, Aug. 14.—Since the departure of Col. M. S. Quay on a trip to Maine a persistent effort has been made by the insurgents and Democrats in Pennsylvania politics to create the impression that the Beaver statesman has decided to retire from politics. All sorts of reports have been put into

circulation to the effect that the insurgents have made great gains and are in a position to influence the selection of the candidate for United States senator. Lists of figures purporting to represent the relative strength of the regulars and the insurgents have been published in insurgent papers and other matter has been given publicity

ing force because no details are given. I have just looked over the estimate He Was a Winner. published in the Philadelphia Press in an issue of recent date, and find it so wide of the mark that I do not appre-

hend it was intended to be either reliable or accurate. If the opposition newspapers want to be fair with the public in this matter it would be an easy task to make up a list of counties in alphabetical order, showing upon what facts their claims are based. The estimates thus far made public are as mysterious and misleading as the cipher dispatches of Chinese diplomats. There are a few things which may be

taken as fixed facts in this controversy. In the first place Senator Quay is a candidate and will remain in the field until his successor is elected. Before leaving for Maine he informed his friends that upon his return he would make a tour of the state in the fall campaign on the senatorial and other public questions. It is his intention to carry this vexed senatorial question to the forum of the people, where he will meet his adversaries and give the electors of the state the opportunity of deciding it. In my judgment a decided majority of the voters in the state are in favor of re-electing Senator Quay for the United States senate. There

has been so much misrepresentation about the partisan and factional complexion of the incoming legislature that a plain statement of the exact situation may prove of interest The

Reeder has been invited to visit New York and confer with the leaders of the Republican national committee in reference to the work of the campalgn, as it is desired that the chairman of the various state committees shall be in touch with the national committee and work in harmony with Chairman Hanna.

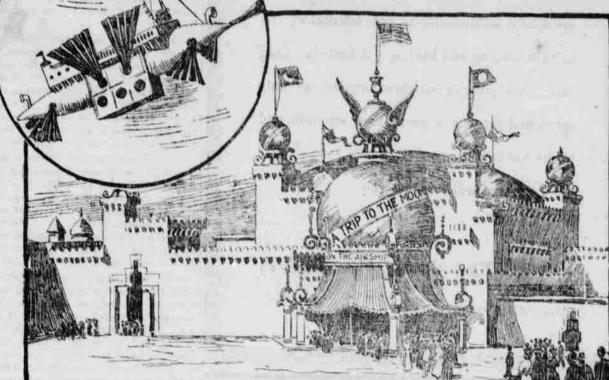

The speech of acceptance from Bryan, in which he made imperialism almost the only issue, made an impression upon the conservative element of the Democracy and the Republican leaders fear that unless there shall be a renewal of the agitation on the silver question this speech from Bryan will have the effect of sending sons of the sound money Democrats back into line with the national democracy. It is beleved that this speech was prepared with the sole purpose of misleading the gold Democrats of the east and getting them to give their support to Democratic candidates for congress. Bryan has the confidence of the silverites of the west and the northwest, and

they know that he will be true to their interests no matter what he may deem politic to say in any of his campaign speeches. With the knowledge that the silverites are for him. "A TRIP TO THE MOON." PAN-AMERICAN EXPOSITION.

The Midway at the Pan-American Exposition in Buffalo, in 1901, will be over half a mile long, giving a mile or more of frontage for the wonderful variety of novel entertainments there to be presented. It will outrival in interest and extent anything ever created in this line. It will include some of the best of standard attractions, vastly improved, and a strong array of new ones fresh from the fertile brain of the inventor and artificer. It will be a dis-

play of ingenuity impossible to anticipate by any process of extravagant reasoning or guessing. Who but a professional of ripe experience could have planned "A Trip to the Moon?" The voyager is directed to go aboard the airship "Luna," moored at a convenient landing. It is night, and the heavens sparkle with a myriad of stars. When all is ready the cables are thrown off and the ship rises steadily to a height of about two miles. The air is clear, and you can see the many lights on earth below. The earth becomes a mere ball and the moon grows larger. We are fast nearing the satellite, and soon find the ship moored to a landing in the moon. Guides meet us and show us to the pniace of the Man in the Moon. His majesty receives the party, bidding them welcome and accords them the freedom of his domains. We are then shown about the splendid palace and through the streets of the City of the Moon. The ladies are especially interested in the show windows of the Moon shops.
