LI HUNG CHANG WANTS CONGER NAMED TO NEGOTIATE.

Asks For the Minister's Appointment or That Some Other American Official Be Named-United States May Reject Unless Our Demands Are Granted.

Washington, Aug. 21.—The American reply to Chinas latest appeal for a cessation of hostilities, received today from Li Hung Chang, had not yet been made known when this article was written, and the matter may receive ome consideration at the cabinet meet-

ing Tuesday. The Chinese government, through Li. made application to the United States for the appiontment of Minister Conger or some other American official, with authority to open negotiations for the establishment of peace and for fixing definite terms for the settlement of the present trouble. The application came to the Chinese minester, and was taken by him to the state depart ment.

There is reason to believe that the overtures will in effect be rejected on the ground that the conditions laid down in the American note of August 12 have not been complied with, and until complied with the government's course must proceed without reference to China's desire for a halt in the pro ceedings. The dispatch of August 12 said specifically that the United States was rendy to enter into an agreement between the powers and the Chinese government for a cessation of histili ties on condition that the relief forces should be permitted to enter Peking unmolested" and escort the legationtherefrom under such circumstances ers therefrom under such cir cumstances as the commanding general might lay down. But up to the present time there is no evidence that the ailied forces are unmolested at Peking or have received the sanction of the imperial government to con vey the legationers to Tien Tsin without further trouble, and under the conditions laid down by the commanding general On the contrary, all of the dispatches indicate that the allies are meeting stubborn resistance, and there is an entire lack of complinnce with the conditions laid down by the United States in its dispatch of August 12, as stated above. When the foregoing was written, the government to the holy see. had given no authoritative statement of its purpose in reply to China's apchance that complete compliance with the demands of August 12 be an-

CHINA WANTS PEACE, reports indicated that Peking was captured on the 15th inst.

The startling feature of the dis patch is that lighting within the city of Peking was continuing, according to the advices of Admiral Remey. The inner, or, as is popularly known, the Forbidden City, evidently had not been taken. It is surrounded by a massive wall of solid masonry, more than 20 feet high. Prior to the receipt of the dispatch it was accepted generally as a fact that the downger empress, in company with the emperor and a large suite, had left Peking. Nothing is said in Admiral Remey's advices as to the whereabouts of the emperor. Some doubt of the accuracy of the information received by Admiral Remey was expressed, particularly as the Chinese minister, Mr. Wu, was very positive that the emperor, empress downger and the entire Chinese court left Peking before the arrival at the gates of

the allies. Minister Wu sald that he had official advices to the effect that the emperor and empress dowager had gone from Peking to the province of Shen Si, a considerable distance west of the capital city. He had not been advised to what city they had gone. The minister believed they were entirely out of danger. The statement that the dowager empress was detained by Prince Yungedo therefore gave him little concern, although he expressed some interest in it. He said there was no Chinese Prince Yungedo. It is not a Chinese name . It might be, the minlster thought, a Japanese name, but, personally, he knew of no such per-

But the top was reached the middle of March, since which time reaction has come in every great industry, so that consumers are asking whether in some directions the decline may not have been unreasonably large as was the advance, and whether buying on the present basis further evidences of weakness in raw materials, notably the break in struct ural iron, but each one is availed of to place heavy contracts. New York is welcoming buyers from all over the country in larger numbers than for many years at this season, in dry goods, in groceries, in jewelry and in hardware; and if contracts rre not placed to as large a volume as expected by this time it is because of conservatism of those who think they may compet some further shading of prices. Reports this week from other important points of distribution show the same engerness to buy when the

time seems right. It is becoming more apparent that the bottom has been reached in prices of iron and steel. The decline was severe and recovery must be slow. but gradual advances and moderately increasing activity are more healthy than violent changes. In no single division is the improvement more strik ing than in any other. Except steel ralls all forms of iron from the ore to the finished product are being sought more eagerly and with less effort to secure further concessions in price.

The first effect of the official report of wheat condition, indicating a total of wheat condition, indicating a total crop of only 513,997,000 bushels, was to strengthen prices, but when the secretary of agriculture was reported as predicting "dollar wheat" before the end of the year the market showed an inclination to disagree, and the September option fell below 80c at New York for the first time in two months. Failures for the week were 161 in the United States, against 156 last year, and 24 in Canada, against 24 last

Scharf, aged 22, was beaten to death with a hammer in her rooms on the second floor of 674 Second avenue. Her brother made the discovery when he came home. The woman's body lay in a pool of

blood, face downward. Nearby on the floor was a bloody hammer, and the rooms had been ransacked of everything of value. It is the opinion of the police that a thief entered the house and was surprised in his work by the girl and that he killed her to prevent identification.

The police detained Frederick Scharf. the brother of the murdered girl, and Lincoln Price. The latter is said to have been a frequent caller on Miss Scharf. So far the police have not given out any information to show that the two men are held other than as witnesses to be used at the coroner's inquest.

HAPPENED IN WASHINGT IN.

The Chinese government, through Li Hung Chang has made application to the United States for the appoint ment of Minister Conger or some oth er American fficial, with authority t open negotiations for the establish ment of peace, and for fixing definits terms to the settlemen of the present trouble. The application came to the Chinese minister, and was taken by him to the state department. A simifar application has been made by Earl Li to all of the powers interested.

The Japanese minister, Mr. Taka hira, received the following advices from the Japanese foreign office at Tokio:

"The Japanese consul at Che Foo wired under date August 17 to the

following effect:

"The foreign forces attacked on th eastern side of Peking on Wednesday morning. The enemy obstinately resisted. In the evening the Japanes blew up the Chiao Yang gate and the Tung Chib gate of the Tartar city and succeeded in entering. In the meantime other foreign forces entered the Chines city by the Tung Pien gate. De tachments were sent immediately to the legations and opened communica tions. The ministers and staffs were found safe. The Japanese loss was over 100, including three officers, name ly, Captain Michilye and Lieutenant Watanabe wounded, while Lieutenant Yazaki was killed. The Chinese loss computed at about 400,"

Reports by cable from General Chaf fee and Admiral Remey, setting forth briefly the occupation of Peking by the allied forces, were received in Washington, confirming the safety of the foreign legations. Fighting is reported as going on, and the inner or Forbidden City has not been invested by the allies.

The Japanese legation received word that Tung Chow was occupied by th Japs, without resistance, on Aug. 12. This is about 12 miles from Peking.

An urgent, almost pathetic, appeal of Li Hung Chang that the march of the allies stop at Tung Chow and that the military commanders on the field be-instructed to arrange an armistice at that point, was met with a response from the state department that Gen eral Chaffee already had been given complete instructions empowering him to carry out an arrangement concert with other commanders for the delivery of the ministers and persons under their protection to the re-Hef column, not at Tung Chow, as had been suggested, but at the imperial city of Peking. Futhermore, it was made known to China that General Chaffee's instructions left him free rein as to whether he should insist upon entering Peking and going to the legations or should receive the delivery of the legationers at the gate of the inner Tartar city or at the great
